term expires December 31, 1960

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1 to December 31, 1959

We, the Municipal Officers of the Town of Sanford, elected to serve you during the year 1959, herewith submit our Annual Report.

Completion of the new Junior High School and new Vocational School in time for the opening of the school season, eliminated much of the over-crowding that resulted from lack of classrooms. Our new Junior High School building, while without frills, is modern in appearance and of good, sound structure. Well-equipped and staffed with competent instructors to give our children the sound education needed when they go out in the world to make their living. We believe our new Vocational School is as modern and well-equipped as any in the state.

One new industry, Springvale Sportswear, started operations during 1959. Training women needed for the operation of this industry has been difficult. The firm has started a training program of their own. Skill in sewing is necessary in this kind of work and Springvale Sportswear has hopes that this program will result in the employment of many Sanford people.

As the year ends, we are all aware of the announcement by Alloy Products that this industry is closing down operations in Sanford. We are very sorry to hear this, as Alloy Products has given employment to many people and our relations with them have always been cordial and happy.

Welfare costs during the past year showed no appreciable change over the previous year, despite some industries curtailing employment, and Alloy, with the announcement of their closing, starting to lay off help immediately. This, we believe, is proof of the thriftiness and the trait of Sanford people to save for the day when savings will be needed.

We hope in the near future to rebuild Main Street. This is badly needed as the entrance to Sanford from the super-highway and from Wells on Route 109 is in very bad condition and creates a poor impression on those entering Sanford.

In closing we wish to express our thanks and appreciation to our clerical staff for the fine work they have done all year, and the splendid cooperation they have given us. Finally we wish to thank the citizens of Sanford for having given us the opportunity of serving you.

Respectfully submitted,

THEODORE C. GAUTHIER

F. EVERETT NUTTER

MAURICE J. MAURICE

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
SANFORD FIRE DEPARTMENT**

January 27, 1960

To the Board of Selectmen

Gentlemen:

The Board of Engineers of the Sanford Fire Department submit the following report for the year ending December 31, 1959.

The equipment is in good working condition. The repairs and upkeep — on the equipment — was greater than we expected. We had to replace a motor on a portable pump, replace some suction hose, had motor trouble with Engine No. 4 and transmission trouble on Engine No. 1. These were troubles that could not be anticipated.

The fire alarm is in good condition. There are many areas that the system does not cover but we hope to extend it some each year so that eventually everyone within the hydrant system will be covered. The air horns on the station roof gave us trouble and we had to buy a new set.

The building is in good condition. The versatility of the permanent firemen has made it possible to make many repairs and improvements to the station with no added expense for labor.

The Department has improved its prevention program by making more inspections — distributing many pieces of literature — talking to many groups and furnishing releases for the local paper and radio station.

The call firemen have done an excellent job. Their attendance has been good and many have attended extra drills and instruction classes. They earned and spent \$585.00 for night-hitches so that each fireman could have a pair.

We wish to thank the Board of Selectmen and their clerks, Springvale Fire Department, Police Department, Highway Department, Water District, Town Garage crew, Ladies' Auxiliary, Call and Permanent Firemen and all persons that in any way assisted us during the year 1959.

Respectfully submitted,

FREDERICK HAMMOND, Chief
CHARLES E. PIKE, Assistant
EDGAR WHICHER, Assistant

PROTECTION OF PERSONS AND PROPERTY
REPORT OF THE CLERK OF
THE SANFORD FIRE DEPARTMENT

Sanford, Maine
January 7, 1960

To the Municipal Officers of the Town of Sanford

I hereby submit the following report of the Sanford Fire Department for the year 1959.

The Department has responded to 256 calls, 20 bell alarms, 217 still alarms, 9 false alarms, 1 house call, and 19 fire drills.

Estimated Value of Property Endangered	\$625,000.00
Damage to Property Endangered	5,235.00
Insurance Paid on Property Endangered	2,850.00
Net Loss	2,385.00
Total feet of hose laid	34,625
Total pounds of chemical used	175
Total feet of ladder raised	2,187
Miles apparatus traveled	990.6

Respectfully submitted,

JAMES O. HAMMOND,

Clerk.

REPORT OF THE BOARD OF ENGINEERS OF
THE SPRINGVALE FIRE DEPARTMENT

December 31, 1959

To the Honorable Board of Selectmen
Town of Sanford, Maine

Dear Sirs:

The Board of Engineers of the Springvale Fire Department submit the following report for the year ending December 31, 1959.

The Springvale Fire Station and Fire Fighting equipment are in very good condition.

The permanent men have made 750 building inspections in schools, churches, business places and shoe factories this year.

We would like to thank the Selectmen and their clerks, the Sanford Fire Department, Police and Highway Departments, Call and Permanent Firemen for their cooperation and assistance in the past year.

We would also like to thank the Ladies' Auxiliary for the drapes they made and furnished for the Fire Station Meeting Hall windows, and the Civil Defense Police for the fine work they have done in handling traffic at our larger forest and building fires.

Respectfully submitted,

ELMORE L. HANSCOM, Chief
HILLIARD M. BOOTHBY, Asst.
RICHARD G. LAMB, Asst.

To the Honorable Board of Selectmen:

Gentlemen:

Once more we have reached the end of another year and I believe we can all say that it has been a very successful year in all respects.

The public has become more CD minded and we are gradually straying away from the general apathy which most of our citizens have previously shown toward CD and their own safety, which alone is a step in the right direction.

The past year has shown appreciable gain in material things not only for CD but for the Town of Sanford, purchased through CD from government surplus properties which has saved the town and taxpayers the sum of \$31,000. This was done because we do have a strong CD unit and one that everyone can be proud of.

Several practice alerts were held in 1959 and each one has been better than the one preceding.

Our "Sanford CD Day" met with much interest being shown on the part of the public and was a success from start to finish. Our 1960 "CD Day" will be even larger with many more organizations being asked to participate.

Both the Springvale Auxiliary CD Fire Department and CD Auxiliary Police Department has had a great deal of training which has been proven to the Town of Sanford when they have been called out in various cases of emergency which have arisen during this past year.

I wish to take this opportunity to thank all those persons who have aided me in my attempt to make the "CIVIL DEFENSE AND PUBLIC SAFETY" program workable since my appointment as the director.

Respectfully submitted,

LAWRENCE ILES,

Director

HEALTH AND SANITATION

NURSING REPORT OF THE COMMUNITY HEALTH ASSOCIATION, INC., 1959

To the Citizens of Sanford:

The directors and nursing staff of the Community Health Association, Inc., submit a summary of activities carried on in 1959.

The C. H. A. is a non-profit health organization administered by a Board of Directors who serve on a volunteer basis. The work is carried on by nursing fees, trust income and town appropriations. Health education visits are free of charge and no individual is refused care if unable to pay for service.

Two full time public health nurses are employed. Miss Laura Tabor, R. N., resigned late in 1958 and Mrs. Hazel Drown, R. N., was named director of the association and field worker. Mrs. Drown took a course at Simmons College for public health administration. In April 1959, Miss Jean Pascucci, R. N., resigned and Mrs. Pauline MacLeod, R. N., was hired to fill the vacancy. Her many years of nursing experience plus her public health experience made her invaluable to our program. The finance and budget committee have given raises in pay schedule and are trying to bring the salary up to the public health levels which are still low.

The Publicity and Community Relations are excellent with the local paper and radio station.

The Welfare workers gave generously of their time for monthly clinics, the Diabetes Fair. Monthly letters sent out to new mothers averaged thirty-five. (Nurses follow up these letters for the pre-school infant care.) The workers had gifts ready for all our chronic and Sanitarium patients and many needy families were remembered by local organizations through our services.

Transportation has been furnished for out of town special clinics and individual specialists.

Parochial school program for immunization—dental—glasses and emotional problems were given attention as time allowed.

The Community Health lectures were in keeping with our health program and the public invited.

A field trip was made by both nurses to Central Maine Sanitarium and all York County patients visited.

The wheel chair owned by Community Health Association has been in constant use

HEALTH AND SANITATION

A geriatric program sponsored by York County TB & Health Association and given at Nasson College was attended by both nurses and a program in Geriatrics will be started as soon as time allows.

The Diabetic Fair was attended by both our public health nurses as well as some volunteer nurses and helpers. The cases of diabetes and suspects were followed through our service.

Following are statements concerning visits, clinics and activities:

(1) Bedside Nursing Care

1,184 visits to patients (increase of 63 over 1958)
111 acute office patients.

(2) Combination service of Bedside Nursing Care and Health Education

204 visits to tuberculosis patients and contacts and suspects
96 visits to diabetic patients
99 visits to cardiac patients
93 visits to cancer patients
163 visits to crippled individuals
283 visits to pre-school and health supervision

(3) Clinics

FOOT CLINICS—Attendance of 154 individuals.

CHEST CLINICS—121 Chest X-rays. These were sent to Central Maine Sanitarium for reading. The York County TB Association paid for 15 and bought supplies for TB work.

IMMUNIZATION CLINICS—The health officer, assisted by the nurses and volunteer helpers from the Association, gave

792 Salk Polio Vaccine
169 doses of diphtheria, tetanus and whooping cough vaccine
51 vaccinations
6 Asian flu shots
12 (4 in 1)—offered for the first time. 4 in 1 means—
diphtheria, tetanus, whooping cough and polio vaccine
all in one shot.

Diabetic Fair Program

Chest X-rays	746
Urine Checks	444 (17 known Diabetics)
Brood Pressures taken	572

In conclusion, my thanks to the President and the Directors with whom we work.

Respectfully submitted,

HAZEL L. DROWN, R. N.,
Supervisor.

HEALTH AND SANITATION**REPORT OF THE
HEALTH OFFICER FOR 1959**

Gentlemen:

The following is a report of health activities during the year ending December 31st, 1959.

As in previous years all public and parochial schools were visited. School children with consent of parents were vaccinated against small-pox and inoculated against diphtheria, whooping cough and tetanus. Initial doses were begun when needed — boosters were given as required. Polio vaccine and influenzal injections were given as needed and requested.

Well baby and pre-school clinics were continued. These were held on the third Thursday of every month between the hours of 12:30 to 2:00 P. M. These clinics continue to be held at the Unitarian Church Gymnasium on Lebanon Street. Facilities for such clinics are excellent at this location and the Reverend Seaward is to be thanked for his cooperation.

All clinics were under the supervision of the Community Health Association nurses. As in the past they continue to be good organizers and working with them has been a pleasure.

Town and State patients were visited and cared for at the Town Infirmary and surrounding nursing homes. Office and house visits were rendered to patients needing care and treatment.

Infringements of plumbing and sanitary laws were investigated as received.

Contagious diseases were dealt with as required by law.

Respectfully submitted.

A. S. LINCOURT, M. D.,

Health Officer.

RECREATION

PARK COMMISSION ACTIVITIES

The Park Commission set many goals for itself during 1959. Many were reached, some are still in the process of completion and a few never got off the ground. It is felt, however, that significant improvements were made in our recreational programs.

The playground system, the backbone of our summer activities, was staffed with extremely capable supervisory personnel and there were over 11,000 young people in attendance. Further improvements in supervision are anticipated. Charpentier playground was the most popular with over 5,600 children attending during the summer. Tennis lessons and tournament play were a new innovation in Springvale with 30 children, ages nine (9) to thirteen (13) enjoying the program. The attendance at Springvale was over 3,700. Constantly circulating water was added to the Springvale wading pool. Attendance at Elizabeth Benton playground was 2,347.

The Babe Ruth League and the Midget League, thanks to the efforts of Bob Blouin, have grown over the years. Both of these programs have good supervision and adequate insurance coverage is provided. The tennis courts in Springvale were flooded in December and despite the warm winter, skating enthusiasm is mounting.

One sore spot was finally relieved in the removal of over 30 stumps from the town streets. More will be removed annually. Town trees have been pruned and sprayed for proper insect control and very few elms were removed because of the Dutch Elm disease. No trees were planted during 1959 but that should be remedied by an extra heavy planting during 1960.

Edward H. Gowen Park has received considerable attention during the last 12 months. That portion of the park that borders Main Street, to the right of the bandstand, has been leveled with the possibility of a recreational or camping area for the future. The area left of the bandstand, has been filled, and will be loamed and grassed in the spring.

During 1960 the Midget and Babe Ruth Leagues will be expanded. Little League will receive more of our time and effort. The success of the Springvale skating rink shows a need for such projects in other sections of the town. A determined effort will be made to utilize our parks and playgrounds to the fullest every month of the year. Emphasis will be put on winter activities such as skating, tobogganing, and sliding.

RECREATION

Being human, your Park Commissioners cannot satisfy everybody. We are constantly searching for new and better ways to make the parks and playgrounds serve more people in a more efficient manner. Constructive criticism is welcomed.

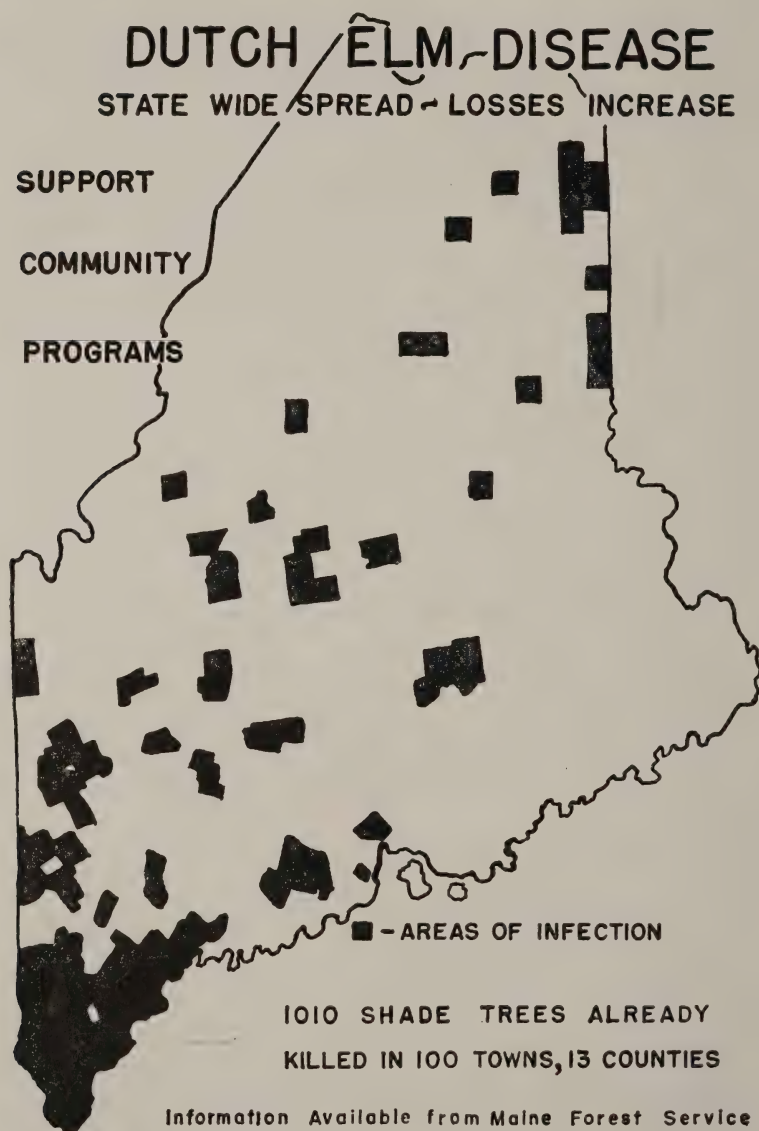

Respectfully submitted,

H. ALLEN MAPES, Chairman

CHARLES H. BLOUIN

ROLAND A. LANGLAIS

ANNUAL REPORT

Town Clerk and Tax Collector

January 1 to December 31, 1959

REPORT OF VITAL STATISTICS

BIRTHS

There were four hundred and forty-nine (449) births recorded in this office for the year 1959. This figure shows a decrease of thirty-four (34) births as compared with the year 1958.

Of this number two hundred and forty-two (242) were of the male sex and two hundred and seven (207) were of the female sex.

In addition, nineteen (19) births were reported from other city and town clerks during this same period.

157 Main Street
Sanford, Maine
February 8, 1960

Mr. Theodore Gauthier, Chairman
Selectmen, Assessors and Overseers of the Poor
Sanford, Maine

Dear Mr. Gauthier

In accordance with Municipal Accounting and Auditing practices described in Chapters 311 and 504, Public Laws of 1957 and at your request, the records of the Town of Sanford have been audited for the year ending December 31, 1959.

I herewith enclose my report of this audit with supporting schedules and questionnaire.

I hereby certify that the records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector of the Town of Sanford have been audited for the year ending December 31, 1959 and found to be correct.

Respectfully submitted,

MARGARET M. SHAW,
Auditor.

**QUESTIONNAIRE COVERING MUNICIPAL
AUDIT AS PREPARED BY THE STATE
DEPARTMENT OF AUDIT**

Name of Municipality: **SANFORD, MAINE**

Fiscal Year January 1, 1959 to December 31, 1959

Assessors

1. Were valuation records added and reconciled with the tax commitment. Yes.
2. Were valuation and commitment records properly signed? Yes.
3. Was assessable property adequately described in the valuation records? Yes.
4. Were supplemental taxes committed for collection in accordance with statutory requirements? Yes.
5. Were tax abatements approved by at least a majority of the Board of Assessors per statutory requirements? Yes.
6. Was the overlay within the statutory limit? Yes.

Tax Collector

1. Was cash counted and reconciled at audit date? Yes.
2. Did tax collector maintain bank account for tax collections? Yes.
3. Had checkbook balance been reconciled with bank statements? Yes.
4. Were deposits analyzed and compared with receipts? Yes.
5. Were tax collections deposited with the treasurer in accordance with statutory requirements?. Semi-monthly. Yes.
6. Were current year collections of prior years' taxes receivable reviewed? Yes.
7. Was interest or discount on taxes, voted at Town Meeting, properly handled? Interest. Yes.
8. Were uncollected real estate taxes secured by tax titles in accordance with statutory requirements? Yes.

9. Were uncollected taxes published in the town report as required by law? Yes.
10. Were verifications made of uncollected tax balances? Amount Verified? Yes.
11. Were unused tax receipts inventoried? Yes.
12. Were excise tax collections properly controlled and deposited with treasurer per statutory requirements? Semi-monthly. Yes.
13. Were excise tax credits reduced one-half after September 1st, per statutes? Yes.
14. Was check made of excise tax computations? Yes.
15. Were unused excise tax receipts inventoried? Yes.

Treasurer

1. Was treasurer's cash account and bank balance at audit date reconciled with cash balance at close of fiscal year? Yes.
2. Was cash on hand analyzed with receipt postings? Yes.
3. Did you prepare an analysis of receipts and deposits by months? Yes.
4. Did you prepare an analysis of expenditures and bank charges by months? or by weeks? Weekly. Yes.
5. Were receipts deposited per statutory requirements? Weekly. Yes.
6. Was check book balance reconciled with bank statements? Semi-monthly. Yes.
7. Did you compare deposit detail with receipts issued? Weekly. Yes.
8. Were unused treasurer's receipts inventoried? Yes.
9. Were all payments made by check? Yes.
10. Did payments agree with warrants issued? Yes.
11. Were payroll deductions properly handled? Yes.
12. Were checks returned by bank examined as to signatures, endorsements, and cancellation? Yes.
13. Were checks returned by bank compared with records as to dates, payees and amounts? Yes.
14. Were checks returned by bank compared with list of those outstanding at beginning of period and with the respective bank statements returned? Yes.

15. Is proper disposition being made of outstanding checks over one year old? Yes.
16. Were town checks used to record transfers between accounts? Transfers of Money. Yes.
Adjustment of charges to proper appropriation accounts are made by use of journal entries.
17. Was town bank account used for any purpose other than town business? No.
18. Has interest earnings been credited on bank passbooks? Yes.

Tax Liens

1. Were unpaid Tax Titles verified? Amount Verified? Yes.
2. Were waivers obtained for all partial payments on tax titles per statutory requirements? Yes.

Town Clerk

1. Was check made of all municipal licenses? Yes.
2. Were certification of oaths of office properly recorded per statutory requirement? By index card file. Yes.
3. Were records checked for appropriations and other financial data authorized by the townspeople? Yes.

Municipal Officers

1. Is an adequate double entry bookkeeping system maintained? (The Selectmen keep the record of all payments in detail. The Treasurer keeps the record of all receipts in detail—the total of each check is listed in his cash book.)
2. Has any important change been made in the accounting system since last year? No. Same system continued.
3. Are monthly trial balances taken from ledgers? Yes.
4. Has the municipality a system to account for properties and equipment? (Including highways, schools, etc.) Yes.
5. Were invoices and payrolls examined to determine if charges were reasonable and properly approved? Yes. Weekly when the warrant was prepared.
6. Were vendors' original invoices on file? Yes.
7. Were detailed vouchers for state pauper cases on file to support reimbursements by state? Yes.

8. Were any duplicate payments noted in examination of invoices? If so, adjustment was made.
9. Were adjustments made to reflect invoices paid in current year which should have been charged to a previous year? A supplemental warrant was prepared at the end of the year to take care of such payments which should be charged to that year.
10. Were paid invoices canceled by perforation or rubber stamp device? by check number written in upper corner.
11. Was check made of expenditures to determine that purpose for which appropriations were made had been followed? Yes.
12. Were all transfers between operating accounts authorized by vote of the townspeople? Yes.
13. Were "Overdrafts" noted in appropriation accounts? Yes.
14. Were carrying and lapsed operating account balances reviewed with the municipal officers? Yes.
15. Have journal entries been reviewed? Yes.
16. Did school invoices show approval by at least a majority of the school committee per statutory requirements? Yes.
17. Were education account balances reconciled with records of the Superintendent of Schools? Yes.
18. Were purchases of sizeable amounts and quantities made by competitive bids? Yes.
19. If town properties were sold, was action authorized by townspeople? Yes.
20. Are all town properties insured? Yes.
21. Were accounts receivable properly controlled for reimbursement changes? Yes.
22. Were accounts receivable verified? Yes.
23. Were notes payable verified? Money borrowed during the year was paid before the end of the year.
24. Was review made of payments to municipal officers for salaries? Yes.
25. Have purchase order and contract records been examined for information of liabilities? Yes.
26. Did you discuss with the municipal officers the matured tax titles with respect to assessment and transfer to tax acquired property? Yes.

27. Has parking meter revenue been expended in accordance with statutory requirements? Yes.

Trust Funds

There are two trust funds from which the Town of Sanford receives only the income. These are held by the lawfully appointed trustees.

28. Was "Trust Fund" income expended in accordance with the terms of the bequests? Yes.
29. Are Reserves considered adequate for estimated losses? Yes.

General

1. Are records kept up-to-date, balanced and in good order?
Treasurer, Yes.
Tax Collector, Yes.
Municipal Officers, Yes.
Clerk, Yes.

2. **Public Officials Bonds**

Treasurer, \$20,000.00
Tax Collector, \$20,000.00.

There is a blanket policy with the Maine Bonding and Casualty Company covering all Town Officials.

3. Were any discrepancies or irregularities discovered in any account? Corrections and adjustments were made through the weekly audits.
4. Detailed schedules have been made of unusual items and Special Funds.

Mr. M. A. Napolitano, State Auditor
State Department of Audit
Augusta, Maine

Dear Mr. Napolitano:

I am enclosing a certified copy of my report of the Audit of the Town of Sanford, Maine for the year ending December 31, 1959.

This report is on file in the Office of the Selectmen of the Town of Sanford, Maine.

Enclosure

Respectfully submitted,

MARGARET M. SHAW,
Auditor.

ANNUAL REPORT

Sanford School Department

OF THE

For the Year Ending December 31, 1959

SCHOOL COMMITTEE

George S. Willard, term expires December 31, 1962

Roland A. Gauthier, term expires December 31, 1960

Hazel L. Drown, R. N., term expires December 31, 1961

Chairman, 1959 — George S. Willard

Superintendent of Schools, Joseph J. Petroski
14 Bradeen Street, Springvale Telephone 131; Office 265

Office Clerk, Mary E. Pascucci
6½ Pearl Street, Sanford Telephone 106-W; Office 265

Office Clerk, Beatrice P. Landry
29-A Kilby Street, Sanford Telephone 2368-W; Office 265

Office Hours
8:30 to 12:00 Noon 1:00 P. M. to 5:00 P. M.

SCHOOL SIGNALS

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

Whenever possible, information on the "No School Signal" will be given over the following radio stations: Station WGAN, Portland; Station WIDE, Biddeford; Station WWNH, Rochester; Station WCSH, Portland, and Station WSME, Sanford.

On occasions when the "No School Signal" is sounded at 7:45 A. M., there will be no school for the entire day. The reason for this is the impossibility of securing busses and setting up bus routes during the noon hour. Please note that the signal for the afternoon session has been changed from 11:30 A. M. to 12:15 P. M.

EDUCATION**ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS**

This report covers the year 1959 and will be general in scope. Details concerning individual schools and activities may be found in the reports of the Principals which follow this report.

Future historians, looking back upon our time, may well label it as the "Age of Education." The 20th Century has witnessed a tremendous expansion of education and a phenomenal growth of concern about it. Education has become news — often front-page news. Magazines of all types from the grocery store monthly to the Sunday supplement, have carried articles on education. Many prominent citizens—Clifton Fadiman, Beardsley Ruml, and Admiral Rickover, among others, have documented their ideas on education during this past year. Numerous books have been written attempting to clarify our educational problems, make comparisons with other educational systems, view with alarm, or point with pride, to our schools. Radio and television abound in interviews and panels dealing with the "crisis" in education.

The topics discussed cover a very wide range. Are our schools too "soft"? Are we neglecting the "gifted"? Are we providing for the "handicapped"? Are the salaries and status of teachers too low? How can the amount and quality of education needed be adequately financed? How about Federal aid? What are the functions of the school? What is the role of the home in education? What should be the relationship between public and private schools?

The books, articles, panels, and discussions of these questions and others have not produced consensus. Perhaps it has resulted in more confusion than insight for laymen, and educators alike. It does appear, however, that in all of this discussion there is beginning to emerge a central concern — an interest in "manpower". If America is to maintain national security and continue to improve living standards for all of its people it is necessary that we make the most of our human resources. It is increasingly being pointed out — and frequently being taken for granted — that education is the most effective means for the full development of this nation's human resources.

The public view of the function of education has changed throughout our history. It has reflected our outlook of the nature of man and our interests as a people. I think that currently we are passing into a new period in education — the fourth in our history.

EDUCATION

In the first period of our national history we were primarily concerned with providing — through education — the opportunities for individual advancement. Our public schools were to provide young people with the means to get on and up in the world. Education, it was felt, could solve the problems of poverty and class in our country.

The second period began in the late 1800's when floods of immigrants came to America. It was felt at that time that the schools had an important part to play in assimilating these new Americans into our society.

The third period started in the late 1920's when the primary concern appeared to be the internal adjustment of pupils. Education of the "whole man" and education for the development of "well-rounded individuals" increasingly dominated our schools. This emphasis affected what was taught, how it should be taught, and general school discipline. This third period, I feel, created ideas which helped sow the seeds of our present "crisis" in education. This is the time when so-called "Progressive Education" blossomed into full bloom. Concepts such as "effortless schools", "continuous promotion of non-achievers", "Pupil freedom with mild control", "Democratic or heterogeneous grouping", and "report cards with no marks", were accepted and put into practice. Also, during this period, significant political, social, economical, and technical changes were, and still are, occurring both in this country and the rest of the world — depression, World War II, Nuclear physics, prosperity, inflation, Korea, the Cold War, exploding populations, growing nationalism in Asia and Africa, and finally, Sputnik and Lunik.

Rather suddenly we developed a sharpened awareness of the possibilities and changes in our new relationships to other countries, and especially to Russia. Hindsight now apparently shows that the fourth period in education, with its concern for the full development of "manpower", was inevitable. The question now appears to be the need for a clear definition of the reciprocal responsibilities of the individual and our society. Thus individual welfare and general welfare assume new dimensions — does the individual exist for society, or society for the individual? Or must they not be mutually complimentary, each enhancing the other toward full growth, development, and maturity.

Considering all of the above it appears imperative that I, your Superintendent of Schools, go on record through the medium of this report as to what the Sanford public schools are doing and plan to do in the immediate future. As I see it, the world will continue to experience many changes — cultural, economic, social, political, and scientific. The citizens of the future will increasingly need more and more education in two basic areas: 1. High technical skills through which

EDUCATION

he may earn a better living in a more interesting occupation; 2. Better and more extensive education in the broad cultural and intellectual areas. To accomplish the above I advance the following propositions: Generally all of us — citizens, pupils, teachers, administrators, and school committee, must fully recognize and accept the responsibilities and challenge facing us. Our goal must submerge the petty hurdles often created by our nature and prejudices. We must all work together toward this common goal.

Specifically, I feel that the following is necessary; careful definition of the areas of knowledge which can, and should, be taught at the various grades in our schools. Thus we establish the character and content of education. I feel it essential that our central focus be on a sound basic education concerned with those matters which, once learned, enable a person to learn other matters, many of which cannot be properly included in our elementary or secondary schools. This might be called building "generative" or "potential" power in our pupils. Central to this type of education would be the ability and desire of our students to sense, recognize, define, and synthesize possible solutions to problems, and the courage to act in the light of their thoughts; this action to be based on intelligence and conviction and not emotion.

To accomplish the above I feel we must constantly appraise and evaluate our total school curriculum, constantly guarding against over-extending ourselves educationally and constantly working to keep the emphasis where it should be. Courses and activities unrelated to this basic objective may appear attractive or useful, but with conditions as they are we cannot afford the luxury of bypaths.

One may well inquire what are these basic areas of knowledge which should establish the character and content of our school programs? I submit that the following areas are necessary to sound, basic education — language, forms, figures, numbers, laws of nature, the earth, the past, our culture, and world cultures. These, to me, compose the area of basic skills. To supplement these basic skills I would work with each and every pupil to implant sound study and work habits, as well as a reverence for learning.

To effect the above basic education the critical element is the teacher. I feel that all of us must work toward the following: 1. Reduce the number of individuals who view the value of teaching with suspicion; 2. Reduce the number of teachers who justify this suspicion; 3. Encourage the most capable of our young people to enter teaching. I feel that there can be no meaningful esteem for the profession of teaching in prefabricating a collective halo for all teachers in the profession. We must deal with fact, and not sentiment — admit that all teachers are not equally competent!

EDUCATION

The traditional practice of paying teachers solely on years of training and experience must be critically examined. This method, I feel, has been a step device which cannot remain as the only base for salaries in the future.

As knowledge increases and more students seek formal education, it becomes increasingly evident that the student must accept more responsibility for his own education, and not be completely dependent upon the school and the teacher. If the pupil has a sincere desire to learn he will utilize methods and resources other than those offered by the school, namely, home study, library, extensive reading, and work experience, among others.

To meet the manpower needs adequately I feel that a change in attitude toward the intellectual training of girls is necessary. More use of their brain-power in all aspects of life appear necessary. We must increasingly develop and use this power if we aspire to full development of our human resources.

1959 has been a significant year educationally for Sanford. Our two new schools — the Junior High and Vocational — were opened in September. Both are attractive, functional buildings, built at a very reasonable cost. The Junior High School curriculum and organization appear to be meeting the needs of the students. Principal Whitehouse and his staff are to be commended for their outstanding work in this the first year of operation.

Currently an extensive study is being conducted at the Vocational School. Its purpose is to improve Industrial Arts and Vocational education. With our new building and added equipment it is now possible and desirable to improve these programs. To date the following work has been completed in this study; a concept of vocational education has been developed and written, the curriculum areas by teaching units have been defined for grades 7 through 12, and teaching units are being developed for each area. All of the above should materially assist in improving the quality of education that our students will receive in this area.

With the new seven-period day at Sanford High School, each vocational school pupil attends regular classes at the High School each day. Last year they attended the High School for a two-weeks period, after which they attended the Vocational School for two weeks. This year it is also possible to mix our vocational school pupils with non-vocational pupils in the various academic classes. This enables us to place vocational school pupils in classes that will better meet their needs through course content and competition with students of comparable ability.

The adult evening vocational program has been broadened

EDUCATION

this year as a result of the new building. Sanford was the first community in Maine to operate a technical course under the National Defense Act, Title VIII. Twenty-two mechanics from this general area completed the automotive technician course — this at no cost to the Sanford tax payers. This year for the first time an evening vocational program in vocational agriculture was organized. At this writing twenty men are enrolled in farm welding, and thirty-five in dairy herd management. It is planned to begin a course in farm tractor repair and maintenance in January. All of the above courses in agriculture are also given at no expense to Sanford tax payers.

Carl Lamb, Director of the adult evening program, and Malcolm Roberts, teacher of agriculture, are to be commended for their outstanding achievements in this area.

In concluding this report I can assure all citizens that the Superintending School Committee and all school personnel are constantly working toward the maintenance of quality education — this to be achieved in the most businesslike, economical manner possible. All of us welcome and solicit any questions, comments, or suggestions from any and all citizens. All of our schools are always open for visitations.

To acknowledge all who have contributed to our success this past year is impossible in a report of this kind. I would, however, single out the Superintending School Committee for their continued understanding and support; the School Building Committee, for their continued fine work during this year; and my two capable associates, Mrs. Landry and Mrs. Pascucci, for their continued loyalty and help.

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I hereby submit to you my report as principal of Sanford High School.

New Vocational Building

The biggest physical change in Sanford High School, since the building of the gymnasium in 1950, is the completion of the Vocational Building. This gives the high school one of the most functional buildings of its type in northern New England.

The vocational curriculum is now being studied and re-organized. Our new facilities coupled with the new curriculum study in the vocational course will most certainly result in added efficiency of instruction.

Additional Space in Main High School Building

The completion of the vocational building and the moving to it of the mechanical and engineering drawing classes has resulted in the availability in the main building of a study hall seating 100 students. This has also resulted in the chance to combine two study halls into one and to make an extra room available for classes. Unlike many high schools today, Sanford High School has, at present, ample capacity.

Change in Schedule

In order to integrate the vocational course students in classes with the rest of the pupils, it has been necessary to change the rotating schedule to a straight daily schedule of seven periods. It is felt that this integration has been especially beneficial to the vocational students. The longer school day, although necessary as a result of the changed vocational school program, has also resulted in increased efficiency for the entire student body. This longer school day is also in line with the trend throughout the United States.

Athletics

The Sanford High football team has completed its best record in recent years culminating in the Class B Championship of the State. Much credit is due Coach Anthony Bahros and Assistant Coach Charles Caramihalis who have done an outstanding coaching job.

Basketball is on the upswing and should show improve-

EDUCATION

ment in the near future. Coaches Arsenault, J. Caramihalis, and Nunan are working hard with a large group of varsity, junior varsity, and freshman boys. Winter track is flourishing with a chance for the participation of a large group of boys. Spring track has seen fewer participants — probably due, in part, to the fact that baseball is still the top spring sport.

Basketball and softball provide, as usual, the interscholastic competition for girls. To round out the sports for girls, field hockey is a natural addition for the fall season. While this sport is not a part of the present program, it is a decided possibility for the near future.

Physical Education

The physical education program continues to be most effective. Both boys and girls have a period of physical education each day as recommended by the State Department of Education. The girls' program consists of gymnastics, apparatus work, basketball, volleyball, badminton, basic rhythm during the indoor season and soccer and softball when weather permits. The boys' program includes gymnastics, apparatus work, wrestling, weight lifting, basketball, volleyball, badminton in the gym and soccer, softball, track and touch football out-of-doors.

In addition to the above, interclass gymnastic competition, intra-mural basketball, and wrestling are carried on after school hours.

That the broad physical education program is getting results is evidenced by the fact that both boys and girls in physical fitness tests rate above the average of the state. The Sanford High physical education teachers are confident that each year the tests will show even greater improvement. The goal of the program is definitely the improvement of each individual. Secondary to this goal however is the expectation by the coaches that wholesale physical improvement will mean improved interscholastic teams.

The Gifted Student

Although good teachers have worked with gifted pupils for many years, it is only comparatively recently that the impact of the concern over these students has begun to be felt. Most schools, with a plan to assist the gifted pupil to develop his potentialities are, in general, using two or more of the following types of programs.

1. Enrichment of the regular class work.
2. Acceleration.
3. Homogeneous grouping.

EDUCATION

Homogeneous grouping has been in operation in several departments for several years. Enrichment is carried on in the science and mathematics departments by students doing research work and carrying on projects in their interest fields. Mathematics is being enriched also by a half hour daily T. V. course for Seniors in addition to their regular higher mathematics as taught by Mrs. Rollins. Many science and mathematics books have been added to the library with the result that there is enrichment in both these areas where independent and valuable research is being carried on. Advance placement classes for acceleration of students has not, as yet, become a part of the Sanford High program.

Faculty Changes and Additions

Mrs. Ralph Corey has been added to the English department in place of Miss Barbara Stansbury who resigned to teach in Eastern Maine. Mr. Richard Gauthier has been employed to teach English and Social Studies.

Miss Rose Marie Beal has been added to the girls' physical education department and Mr. Merton Poore has replaced Mr. William Hayden in Driver Education. Mr. Hayden retired last June.

All of these teachers are carrying on their work with efficiency and enthusiasm.

The Goal of Guidance

"The goal of guidance in public school, like the goal of education as a total program, is the development of mature, self-reliant, young people. Perhaps the most accurate description of the relationship is that the basic principle of guidance is to give to each individual whatever help he needs to achieve success and happiness, and that, to achieve this purpose, a series of guidance services must be provided. These special services are carried on by the whole educational team; some by teachers, some by administrators, some by the guidance director."

Guidance Services in Sanford High

1. Orientation of New Students

The principal and the guidance director organize a series of activities designed to help new students to become acquainted with the school, to know the staff and physical plant, to understand the structure of courses and requirements, to know customs and activities, to become acquainted with one another, and to develop a sense of purpose and belonging.

2. Individual Inventory

A plan for maintaining a continuous study of each student includes the development and use of cumulative records, the

EDUCATION

testing program, and other procedures and techniques for assessing individual growth. Emphasis is placed on the use of the data in teaching and counseling.

3. Educational and Occupational Information

The school provides for collecting and disseminating accurate and current information in order that the student may make an intelligent choice of an educational program, an occupation, or a school activity.

4. Counseling

The school provides the time, the place, and the personnel required for skilled assistance to individual students in working out solutions to personal problems.

5. Placement

The school assists the student to find appropriate employment or further training.

6. Follow-Up

Follow-up studies and surveys are made by the guidance department. The data obtained aids the school in evaluating the effectiveness of the total school program.

Testing

The testing program of the modern secondary school is becoming increasingly broad in its scope each year.

The number of aptitude and mental and mechanical ability tests given in Sanford High in a single year totals approximately fifteen hundred.

The following tests are given:

Grade 9—

California Short-Form Test of Mental Maturity
Iowa Test of Basic Reading Skills
Iowa Test of Educational Development

Grade 10—

Revised Minnesota Paper Form Board (test for mechanical aptitude)
Kuder Preference (vocational interest test)

Grade 11—

Otis Quick-Scoring Mental Ability Test
Preliminary Scholastic Aptitude Test (available for college course seniors for college scholarship purposes)
College Board Aptitude Tests (available for college course seniors. Required by many colleges)

EDUCATION

Occupational Skills Tests (given to non-college seniors in cooperation with Maine Employment Security Commission)

In addition to those listed above, additional tests are given in many departments by individual teachers. These tests measure achievement of Sanford High students in relation to national achievement.

College course seniors may also take College Board Achievement tests at another testing center (Portland). College Board Aptitude Tests, as noted above, are given for this area at Sanford High.

College admission is becoming more competitive each year as the number of students entering colleges throughout the country is increasing rapidly. Thus far, Sanford students have been especially fortunate in being able to gain admission generally to the college of their choice. A few of the many colleges at which Sanford High graduates are now studying are the following:

West Point	Wheaton
Harvard	Bates
Nasson	Air Force Academy
Univ. of New Hampshire	Bowdoin
Colby	University of Maine
Annapolis	Jackson
Dartmouth	Columbia
Boston University	

French Language Laboratory

Serious attention is now being given in many areas to the installation of language laboratories — just as the schools now have home economics, physics, and chemistry laboratories. Such facilities include sound proof booths equipped with recording and listening devices. Where such facilities are in operation (there are several in Maine high schools) the results are gratifying. It is found that languages are learned more rapidly and much more satisfactorily than before such facilities were installed.

Library

The library in Sanford High or in any secondary school is one of the most important learning centers of the school. Too often such a room has been a study hall with various teachers in charge during different periods of the day. Today the Sanford High library has an able full-time certified librarian in Miss Edna Folsom. The library is no longer used as a study hall but is available at all times for reference work. Not only is the library used during school hours but before and after school. It is not unusual to find the room filled to capacity before school at 7:45 a. m. or after school

EDUCATION

at 3.00 p. m. Mr. Joseph Devitt, director of secondary education, during a visit to the school praised the library facilities—the choice of books and the number and variety of books in circulation. Sanford High also is especially fortunate to have the Goodall branch library as a part of its school facilities.

It is a source of satisfaction to the administration and to the faculty to hear expressions of approbation of Sanford schools by our many visitors in the field of education. It remains, however, a real challenge to see that the same high standards are continued each year and that improvements are made whenever and wherever possible.

That education can not be static has been accepted not only by the teachers and the administration but also by the citizens of the town of Sanford as evidenced by their continuous support.

Respectfully submitted,

LAWRENCE L. PAGE

EDUCATION

REPORTS OF ELEMENTARY PRINCIPALS

SANFORD JUNIOR HIGH SCHOOL—

Burt Whitehouse, Principal

I hereby submit my report as Principal of Sanford Junior High School.

Enrollment

The enrollment as of September 9, 1959 was 308 pupils, with 180 pupils in the seventh grade and 128 pupils in the eighth grade. The present enrollment is 310, an increase since the beginning of the school year of 2.

Daily attendance has been exceptionally good, which demonstrates the high morale of the pupils and teachers.

Faculty

The members of the Sanford Junior High Faculty are:

Mr. Raymond Archambault

Mr. James Bannon

Mr. Donald Beals

Mr. Robert Brown

Mrs. Althea Currier

Mr. Richard Gilpatrick

Mrs. Elizabeth Gowen

Miss Ruth Harmon

Miss Hazel Harrison

Mr. Kenneth Johnson

Miss Harriet Osborn

Mrs. Marjorie Roberts

Mrs. Muriel Sladen

Mrs. Gladys Waddington

Condition of Building and Equipment

The building and equipment are in excellent condition, as both are new. Excellent maintenance is being given them by the custodians, Mr. Alvah Jellerson and Mr. Lawrence Dart.

Teaching Materials

The Junior High School has been able to increase its amount of teaching materials in three areas, Science, Mathematics, and Foreign Language through the National Defense Act. At the present time a study is being made to determine the library needs so that the pupils will receive the greatest benefits possible of having a library in the Junior High School. There is a definite need for a school library at this level, as training in the use of encyclopedias, dictionaries,

EDUCATION

and other reference books is a part of the English program.

Teaching Methods

The teaching methods used are those that will promote individual effectiveness, to enable pupils to face crises, changes, and for developing initiative, creating thinking and expression, imagination, and adaptability.

Curriculum

The curriculum for the Junior High School is as follows:

Subjects	Periods Per Week
English	5
Mathematics	5
History and Geography	5
Science	3
Homemaking (Girls)	2
Industrial Arts (Boys)	2
Physical Education	2
Music	2
French	1
Art	1
Activity	1
Study	3

The Junior High has a new report card that corresponds to the High School report card. This will eliminate adjustments and misunderstandings in the transition of pupils from the Junior High to High School.

The return of Industrial Arts and Homemaking in the Junior High has provided exploratory areas which are especially important to boys and girls at this level.

The Industrial Arts program under the supervision of Mr. Richard Gilpatrick provides exploratory experiences for boys in the areas of:

1. Woodworking
2. Sheet Metal
3. Electricity
4. Mechanical Drawing

The Homemaking program under the supervision of Mrs. Marjorie Roberts provides exploratory experiences for girls in the areas of:

1. Sewing
2. Cooking
3. Nutrition and diet
4. Practical Homemaking Arts

EDUCATION

The pupils have an opportunity to participate in one of the following career activities:

1. Science
2. Music
3. Industrial Arts (Girls)
4. Homemaking (Boys)
5. Dramatics
6. Physical Education
7. Junior American Citizenship
8. Junior American Red Cross
9. Hobby
10. Journalism

This year emphasis in athletics has been placed on an intramural program, with the result that more pupils are participating in athletics than ever before.

The Junior Band under the leadership of Mr. Everett Firth provides an excellent opportunity for boys and girls to participate in a worthwhile activity. The band has made several appearances at school assemblies and public performances this year.

The Junior High Glee Club under the leadership of Miss Ruth Harmon also provides an excellent opportunity for pupils to participate in a worthwhile activity. The Glee Club has made several appearances at school assemblies this year.

In conclusion I wish to thank the members of the Sanford School Committee, Mr. Petroski, members of the Junior High faculty, parents, and pupils for the excellent cooperation given in helping to get the Junior High School started.

EDISON SCHOOL — Mrs. Barbara Chasse, Principal

Enrollment

Junior Primary—A.M. 24; P. M. 21.	
First Grade	17
First Grade	17
Second Grade	26
Second Grade	27
Third Grade	26
Third Grade	26
Fourth Grade	27
<hr/>	
Total	211

Changes in Staff

There have been two changes in staff. Mrs. Jane Haskell is teaching one first grade, and Mrs. Mildred Greer one second grade.

EDUCATION

Mrs. Barbara Chasse is teaching one third grade instead of a fifth, the fifth grade having moved to the Emerson School.

Teaching Materials

New supplementary reading material has been purchased for the first, second, and third grades.

A recently developed elementary reading laboratory published by Science Research Associates is in use in the third and fourth grades. This is the same company which publishes the tests used in the town-wide testing program.

Curriculum

The second and third grades have added auxiliary reading series to the basic one in an attempt to enrich the reading program.

The fourth grade is investigating an interim level test for use with children who need more time on reading fundamentals taught in the primary grades.

EMERSON SCHOOL—Clinton W. Guilford, Principal

I hereby submit my report as Principal of the Emerson School.

The enrollment at the Emerson School as of September, 1959, was 181. The daily attendance has been very good, in fact, we have had a number of days with 100% attendance.

Changes at the Emerson School

Many changes have been made at the Emerson School. In place of grades 6, 7, 8, we now have one 4th grade, two 5th grades, two 6th grades, and two rooms for the mentally handicapped children.

Several new teachers and a new janitor have been added to the Emerson School. They are: Mrs. Nason, who teaches grade 4, Mrs. Brooks, who teaches grade 5, Mrs. Woodman, who teaches the smaller handicapped children, and Mrs. Henningsen, who teaches the older handicapped children. Mr. Bernier is the new janitor.

Condition of the Building and Equipment

The Emerson School is in good condition. A little painting and repair would take care of all that should be done.

More playground equipment is necessary for children of this age level.

EDUCATION

Teaching Materials

At the present time all teachers are well equipped with materials needed.

Teaching Methods

In all grades, as far as possible, grouping of pupils is carried out, especially in reading, to help the brighter pupil to work at full capacity, and to try to bring the slow learner up to his age level.

In conclusion, I would like to thank all school officials and teachers for their cooperation.

HAMLIN SCHOOL—Carl Hurd, Principal

I hereby submit my annual report as Principal of Hamlin School.

Enrollment

The enrollment as of September 7, 1959, was 120 pupils, with one 4th grade, two 5th grades, and two 6th grades. The present enrollment is 119. Only a small change has occurred in our enrollment this year.

Faculty

For the grades at Hamlin the teaching staff has remained the same as last year.

Condition of Building and Equipment

During the past year part of the main hall had new flooring. All floors have received a coating of sealer and the basement floors have been painted. Asbestos board was put on the ceiling of the boiler room. The building and equipment are in good condition.

Teaching Materials

This year each grade received excellent supplementary reading material. With these and other very good materials available in other subject areas, the teachers are able to meet individual needs effectively.

Teaching Methods

Teachers conscientiously avail themselves of the best approved teaching methods. This leads to a high pupil morale and encourages individual pupils or groups of pupils to do good work.

EDUCATION

Curriculum

The Curriculum Guide of Sanford's public schools which was prepared to aid the instructional program, is being followed at each grade level. Also, the school curriculum is concerned with the development of every pupil by providing opportunities for developments of talents and abilities so that pupils may gain the maximum desired knowledge.

Pupil Activities in School

Music, athletic, and art programs are being carried on by the teachers in the school on a reduced basis as we do not have special teachers this year. However, many of our pupils are interested in music and are taking instrument lessons in preparation for the Junior High School Band.

HAWTHORNE SCHOOL—Mrs. Army Ellingwood, Principal

I herewith submit my report as Principal of the Hawthorne School.

School began this year with a very large enrollment in the sub-primary and first grades. There were 18 in our sub-primary and 22 in the first grade, making a total of 40 pupils.

Because of this large class, we transferred 5 sub-primary children to the Edison School.

We had as of October 1st, 13 in the sub-primary, 22 in the first grade, 15 in the second grade, and 11 in the third grade.

We have no change in our teaching staff this year.

The building and equipment are now in good condition. A new oil burner was installed in our furnace. We also have a new electric water heater. Both classrooms have been equipped with new plastic-topped desks. Our basement doors have been fixed to open from both sides.

We are well supplied with the books and equipment necessary for a good teaching job. All materials are of good quality and in good working order.

We use the same basic textbooks which are used in town and follow the Curriculum Guide books which have proven very helpful.

During National Education Week we presented an interesting program for many parents and friends.

We hold monthly assemblies in which each child participates.

EDUCATION

We have a very active P.T.A. at the Hawthorne School which mainly supports our Hot Lunch program.

Among the many things which they have done for the school this year, is the purchase of a deep freezer.

We have our own art and music program. The penmanship supervisor visits our school monthly.

I would like to take this opportunity to thank Mr. Petroski, Miss Goodwin, and the parents and children of our school for their help and cooperation.

LAFAYETTE SCHOOL—Clyde Kimball, Principal

I hereby submit my annual report as Principal of the Lafayette School.

The enrollment in September, 1959, was 208 pupils, but increased to 212 by December. We have one 6th grade, one 5th, one 4th, one 3rd, two 2nd, and two 1st grades.

Two new teachers have been added to our staff this year—Miss Eleanor Lord is now teaching one of the first grades, and Mrs. Ruth Littlefield one of the second grades.

The building and equipment are in good condition, due to the efficient work of the custodian. The assembly room and stage were painted this year.

The school is well supplied with the best of teaching materials, such as textbooks, maps, globes, audio-visual aids, encyclopedia and reference books.

Our teaching staff is very cooperative and uses the most approved teaching methods. We try to follow the Sanford Public School Curriculum, group our children homogeneously and adapt our teaching to fit each child's need, ability, and interest. The new rank card adopted this year should supply more explicit information for the child and the parent.

The Lafayette School has a well-rounded program for pupil activities both inside and outside of school, which includes library work, Scouts, Brownies, sports, safety patrol, band, music, and dancing.

We have a very active Parent-Teacher Association which works to create a better social relationship between the parents and the school.

EDUCATION

LINCOLN SCHOOL—Miss Florence Batchelder, Principal

I hereby submit to you my annual report for the year 1959 as Principal of the Lincoln School.

The enrollment of the Lincoln School in September was 215. Since that time it has decreased to 208, due to transfers both to Sanford and out of the state.

No change has been made in the number of classes at the Lincoln School this year.

Mrs. Natalie Thayer, a former teacher at the Longfellow School, joined our teaching staff in the fourth grade. This was to fill the vacancy caused by the resignation of Mrs. Pauline Johnson, who accepted a position in Wells. Mrs. Sladen, the French supervisor, comes to the fourth grade twice a week, and Miss O'Connor, the writing supervisor, comes to each grade except Junior Primary once a month.

In the primary grades the children are grouped according to their abilities so that they may work at their own rate of speed. The individual needs of each child are met with the use of the curriculum guides, excellent teaching methods, fine materials and equipment.

Open House was held during Education Week, at which time 116 parents and friends took advantage of observing the regular classroom work.

The assemblies and special day parties have added color and learning situations to our regular work.

The School Patrol is supervised very adequately by the fourth grade teacher. Each year this group has a fine outing at the close of school.

The number of children staying for hot lunch this year has increased to an average of 85, while about 25 bring their cold lunches.

Springvale has a very active P.T.A. which has met at the Lincoln School each month except November and December when no meetings were scheduled.

One Girl Scout Troop meets in our cafeteria each week.

During the summer two classrooms and the boiler room were painted as well as the regular annual repair and cleaning. The heating system needs to be thoroughly checked.

In conclusion, I wish to thank Mr. Petroski, all the teachers, parents and children for their help and fine cooperation.

EDUCATION

LONGFELLOW SCHOOL—Mrs. Evilena M. Thyng, Acting Principal

I hereby submit my report as Acting Principal of the Longfellow School.

The enrollment as of January, 1959, was 276. At that time there were two 5th grades, and two 4th. In September one 5th and one 4th grade were transferred to the Emerson School, thus eliminating the necessity of the use of the cafeteria as a classroom. In order that the second grade should not be overcrowded, several pupils are being transported by bus to the Edison School where there are two 2nd grades. Our registration is now 220.

Because of these provisions, we are fortunate to have Mrs. Gilpatrick with us again this year as teacher of the two sub-primary sessions. Mr. Brown who taught one of the 5th grades last year was transferred to the new Junior High School, and Mrs. Thayer to the 4th grade at the Lincoln School.

In November Mr. Joseph Deschenes, Principal of our building, was granted a leave of absence by the School Committee to attend advanced Officers' Training School at Fort Sill, Oklahoma. His classroom duties were assumed by Mr. Robert Blouin. Mr. Blouin is a graduate of Sanford High School, 1943, attended Schrevenham American University and the University of Maine, and is now studying to complete the courses necessary for a BA degree at the University of Maine.

At the present time we have one Junior Primary of two sessions each day, two 1st grades, one 2nd, one 3rd, one 4th, one 5th and one 6th. The hot lunch program has been resumed with a daily average of 35 pupils enjoying this privilege under the supervision of a classroom teacher. An average of 15 pupils bring a cold lunch.

The building is in good condition. One classroom was redecorated during the summer, and all the classroom floors were sanded and refinished. A fireproof ceiling was built over the furnace in May, and a complete new roof was laid during the summer vacation. Crash bars have been installed on both sections of the front door, and also upon both rear doors on the first floor. The two rear windows which open on the fire escape on the second floor have been provided with bars for quick opening.

The members of the P.T.A. are now redecorating and re-furnishing a small room on the first floor to be used for the convenience of pupils whose parents are not at home and who become ill at school.

EDUCATION

In May, an evening program was presented by the pupils at the final meeting of the P.T.A. Each grade presented a ten-minute act to a very appreciative audience. Parties were held at the usual times — at Christmas, Valentine's Day, and the closing day in June. Open house was held on Wednesday of National Education Week. About 125 parents and friends visited our classrooms.

In addition to the very valuable service rendered to our children each Wednesday by Mrs. Crabtree and Mrs. Jackson of the Sanford Public Library, we now have a library of supplementary books owned by the school and used by all grades. This was made possible by a donation from the P.T.A. The school is well equipped with materials necessary to the advancement and welfare of our pupils. The necessity for disciplinary action is at a minimum because of an unusually good pupil-teacher relationship.

The members of our faculty are an earnest devoted group of teachers, with highly professional standards dedicated to the purpose of promoting steady improvement in the emotional stability and physical and mental growth of the children under their supervision.

ROOSEVELT SCHOOL—Mrs. Leatrice Martin, Principal

When the Junior Primary Department of the Roosevelt School opened September 7, 1959, we had 89 children present.

There were a few changes in our teaching staff this year. Mrs. Jacqueline Gilpatrick returned to the Longfellow School to carry on the Junior Primary work there. Mrs. Deborah Brooks transferred to the Emerson 5th grade. Miss Louise Hannaford joined the staff here at Roosevelt, where this year we have four sessions of classes.

Miss Hannaford has 24 in the morning and 20 in the afternoon. Mrs. Martin has 25 in the morning and 19 in the afternoon. We still feel that it works out very well having just the small children together. Sixty-six per cent of our children are transported.

A good start in a child's school life means success to him in the future. We feel that with the curriculum that we follow and the good material and equipment that we have, your child is receiving this foundation for a good start in life.

We observed Halloween with a party for each session. At Christmas time, Santa visited our school and presented each child with a gift, followed by an exchange of gifts and refreshments.

EDUCATION

During National Education Week we had about 80 parents visit our rooms. Classes were carried on as usual for the parents to observe.

A Mothers' Club has been organized and they meet the third Monday of each month. We have an average attendance of about 60. The project for the year is to fix up a sick room in the building, in case any child is taken ill during the school hours.

The foyer has been repainted and new lights have been put in and this is a big improvement in our building.

Last spring we put on a program at the Lafayette School which included all our children in singing, short plays, and a rhythm band. Proceeds from this will go toward the purchase of playground equipment.

I wish to thank Mr. Petroski, Miss Hannaford, parents and the children for the cooperation given to me during the year.

EDUCATION

REPORT ON SPECIAL EDUCATION FOR THE MENTALLY HANDICAPPED

I hereby submit my report on the Special Education program for the Mentally Handicapped in the Sanford-Springvale Public Schools.

The present school year which began in September found many changes in the Special Class. Because of the large number of handicapped children in the schools and the wide range in age it became necessary to add another class to the program which started three years ago. The group was divided according to chronological age. The Primary Group has an age range of 6 years to 10-6, and the Intermediate Group has an age range of 10-6 to 17. Both classes are being held at the Emerson School.

With the additional class we were able to provide services for some of the neighboring towns in Union No. 6. We have two children from Alfred, one in the Primary Group and one in the Intermediate Group. One child from Shapleigh and one from Limerick are also in the Intermediate Group. These children travel on the bus with the high school students.

There are three children from Springvale who require taxi service and eight children who travel by bus.

Mrs. Doris Woodman teaches the Primary Group which consists of six boys and five girls. Their ability ranges from pre-primary to fourth grade level in some areas, with the average ability at beginning first grade level.

Mrs. Henningsen teaches the Intermediate Group which consists of ten boys and five girls. Their ability ranges from primary to fourth grade level ability with the average ability at second level, second grade.

The Stanford-Binet Individual Intelligence Test was administered to eight children in May, three during the summer, and seven this fall. Of these 18, eight were found to be between the 50-75 I. Q. range which is necessary to be admitted to the Special Class, four were too low, and six were only slightly higher. Of the eight children eligible, seven were accepted in September, two on trial, and one was put on the waiting list.

Everyone connected with the program, children, parents, teachers, and superintendent are thankful for the additional class. It certainly eases the strain for all involved. We are gratified that such strides are being made but we realize

EDUCATION

that there is more progress to be made. There are more needs to be met for exceptional children in the Sanford Schools.

Respectfully submitted,

CONSTANCE A. HENNINGSSEN

REPORT OF THE VOCATIONAL EVENING SCHOOL

The first course given in 1959 was in Supervision and was held at Nasson College. Thirty-eight men enrolled and were divided into two classes which operated for twenty weeks. Classes were conducted both spring and fall in the following areas of interest: Heliarc Welding, General Welding, Small Business Clinic, Sheet Metal Basic, Aircraft Development, Tool Design, Role of the Supervisor, Foremanship, and another class in Supervision.

In the fall a technical automotive course was held at the new Vocational School. This was a pilot course — the first course to be given in the state under the National Defense Educational Act.

Also two new agricultural courses, Farm Welding and Farm Herd Management, were begun in December and are still in progress.

Heliarc Welding classes are still operating.

Industrial Sewing classes were conducted at the Springvale Sportswear Company.

Total individual hours of all who completed the courses add up to a surprising figure; this is proof of the interest of the citizens of Sanford in continuing to learn and to improve their present circumstances. Attendance, interest, and enthusiasm were excellent and were much appreciated by the instructors and myself.

I wish to thank all who helped to make the evening school program a success, Mr. Arnold F. McKenney, Director of Trade and Industrial Education for Maine; our Superintendent, Mr. Petroski, members of the School Board, the instructors, and last but not least, the students.

CARL J. LAMB,

Director.

EDUCATION**REPORT OF THE
GENERAL EVENING SCHOOL**

To the Superintendent of Schools:

I herewith submit to you my report as Principal of the General Evening School for the year 1959.

The following subjects were offered:

- General Shop
- Americanization
- Bookkeeping (beginners and advanced)
- Typewriting (beginners and advanced)
- Public Speaking
- Art
- English
- Sewing
- Mathematics
- Rug Making
- Artificial Flower Making

As a minimum of ten people is required to start a class, registration would not permit us to open classes in all of the above subjects.

The gauge of a successful evening school is measured by student interest. Our attendance in the various classes this year certainly proved that the general evening school was a success.

In conclusion, I wish to express my appreciation to you, to the teachers, to the students, and to all others who helped make the General Evening School successful.

Respectfully submitted,

ITHEL E. PRESCOTT,

Principal.

EDUCATION

REPORT OF THE ELEMENTARY FRENCH PROGRAM

We hereby submit our report of the French program (FLES) in the Sanford-Springvale elementary Schools.

This year, in the fourth, fifth, and sixth grades, Mrs. Sladen had twelve 20-minute classes a day on three days a week. In the junior high school, she met the pupils in six 50-minute classes on Monday and five 50-minute classes on Thursday. The lower classes meet twice weekly, whereas the junior high classes meet but once. This year's total enrollment was 819 pupils, 52 more than last year's FLES enrollment.

In May, Mrs. Sladen, Mr. Booth, and a group of sixth grade pupils put on a demonstration at the County Convention at Kennebunk at the request of many towns who are interested in starting FLES programs.

Visitors from Laconia, N. H. (four times), Lisbon Falls, Saco, and Connecticut came to Sanford to observe the Sanford program to help them in their new programs.

Mrs. Nita Barbour, the Supervisor of Modern Foreign Languages for the State Department of Education, also observed classes. She made the following official recommendations to the co-ordinator.

"The FLES program would offer greater results if Sanford could 1) add at least one more FLES teacher to assist Muriel (Mrs. Sladen), work with you and her under your guidance. 2) offer FLES 10-15 minutes every day in grades 4-6, 40-45 minutes three times (at least) in grades 7 and 8 on a selective and elective basis."

Visitors to the program continue to congratulate Mrs. Sladen on her fine work with the children.

During National Education Week, the Junior High pupils made posters depicting family life and using French titles, thus integrating their art and French work.

In conclusion we wish to state that we agree with Mrs. Barbour on the necessity of offering French more often each week and on the desirability of limiting participation, on the Junior High level, to those pupils who have demonstrated proficiency in French in the lower grades.

MRS, MURIEL W. SLADEN, Supervisor
EDWARD F. BOOTH, Co-Ordinator

EDUCATION

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

Following is the report for the school nursing service for the past year.

The main objective for the nursing service was a program recognizing the school's responsibility to assist the child in obtaining sufficient physical and emotional strength for him to meet the tasks of every day living. Group methods were necessary for such a program. However, all group methods follow through to every child, so the individual was recognized.

The school nursing service moved its office to the Junior High School building and office hours are kept every morning.

On January 1st Mrs. Laura Hanson, R. N., began work as nursing assistant. Her time was for a period of twenty hours average a week. The following report is inclusive for both nurses.

A health record for every child is kept in the school. These records inform us of the children's medical, surgical and immunization record. The varied health examinations are recorded on this form and notations are made concerning the child's emotional life or of any behavior patterns which deviate from the average. As complete as these health records are, they do not always tell the whole story of the health problems. There is need for exchange of information between parent, teacher, and nurse, and this exchange was accomplished through personal interviews. Following is a summary of specific activities.

I. Physical Examinations.

Children examined were students in the sub-primary, fourth, seventh, and ninth grades, plus new students in our system. Also examined were students in the elementary grades who wished to participate in competitive sports. Parents were notified if the examining physician advised further care and results of examination were recorded on health records. This recording advised the teachers of the condition of the individual child.

Our school health examinations are effective and now we consider the follow-through program for correction a matter of concern. Community and clinic resources were used to secure correction. 78% of recommended corrections have been cared for and more will be done before the termination of the school year.

EDUCATION

2. Program for Prevention of Contagion.

Parents of sub-primary and of new students were given typed copies of rules pertaining to the State laws for school attendance — if and when a contagious disease were present in the home. Children were excluded as teachers deemed necessary and the State laws strictly adhered to.

Salk polio vaccine clinics were held and a total of 520 students and 21 teachers received inoculations.

Clinics for the prevention of whooping cough, tetanus, and diphtheria were held for sub-primary children not having had the injections previous to school entrance. 91 injections were given at these clinics. 72 sub-primary children were vaccinated against small-pox.

3. Sight Conservation Program.

Children referred by teachers and students in the sub-primary, fourth, seventh, and tenth grades had their vision tested by an optometrist. 62 children were referred for further investigation and 48 received recommended care. Financial assistance was secured for seven of these children.

A workbook with large print was obtained for one child with low vision. Constant contact is kept with the State Division of the Blind and Department of Education as to advised care for this child.

4. Program for Hearing Conservation

Group audiometer testing was done in the second through the ninth grades. Referrals for further investigation for a questionable loss of hearing were sent to the parents of four children. Arrangements were made for one of these children to attend the Portland Hearing Clinic for further evaluation. The other three were cared for by their family doctors.

An application was made out for admission of a child to Baxter School for the Deaf.

5. Program with Physically Handicapped.

80 home visits were made in relation to care for above children.

Arrangements were made for two crippled children to have transportation to school and for five children confined to their homes, to have home instruction.

Arrangements were made for two children to make initial visits to the Crippled Children's Clinic in Portland.

6. Diabetic Detection Program.

745 students had urinalysis for detection of sugar. Five were referred to their own doctors for further investigation

EDUCATION

— and all were reported to have a normal blood sugar.

7. High School Health Unit Attendance.

One of the two nurses employed by the school department spends from 10:15 A. M. to 2:15 P. M., in the High School Health Unit. First aid care, health counselling, and care to ones reporting ill consumed the time spent in the unit. Dismissals from school because of illness were referred through the Health Unit.

942 visits by students were made to the unit.

8. Foot Examinations.

Children in the sub-primary, fourth, seventh, and tenth grades had their feet examined by a podiatrist. Referrals for care were sent to parents. This program was correlated with our physical examination and the children received great benefit from recommendations made as to need for better foot therapy.

9. Tuberculosis Prevention Program

In compliance with the State law requiring Chest X-rays for teachers every two years, a record of same was kept and teachers notified when due. Arrangements were made for nineteen teachers to have X-rays at clinic service at the Goodall Hospital.

508 children in the sub-primary, fourth, seventh, and tenth grades had the patch tuberculin test. Tests were all negative,

10. Program for Behavior Adjustment and for Mental and Emotional Health.

Arrangements made for one child to be admitted to Pineland Training Center.

Application made out for child's admission to the Pineland Training Center.

Conference held with the Director of Admissions for State Institutions concerning priority care for some of our children who need care at Pineland.

Arrangements made for one child to have a mental evaluation at Pineland School.

A series of conferences held with parents and teachers of two students concerning child's behavior and a positive plan of action devised.

Assistance was given, as requested, to instructors of classes for mentally retarded.

EDUCATION

Other Activities.

1. New teachers in the system were interviewed and instructed as to our program.
2. First aid supplies given out to each building.
3. Free mid-morning milk was given to 54 students. This was provided through the Community Chest.
4. Recommendations were made for nine children to have free hot lunches at noon.
5. Four talks explaining our program was given to organizations.
6. Clothing bought for nine children, with money supplied by various organizations.
7. School Nursing program correlated with physical education program.
8. Arrangements were made for two children to have tonsils removed at clinic at Goodall Hospital.
9. Two referrals for care were made to speech clinics.
10. Weight control classes were held for ten High School students. These classes were conducted by Mrs. Frema Grant, York County Extension Service representative. A total of 80 pounds were lost by the students taking the course.
11. 119 visits were made to children in their homes.
12. 894 visits were made to classrooms for consultations with teachers.

In conclusion, by the above activities we have not carried on dramatic action but have developed a long-range public health preventative program, through which every child received help.

LIST OF TEACHERS

Teacher	Subject	Training	Years of Experience
HIGH SCHOOL			
Lawrence L. Page	Principal	Bowdoin, A.B.; B. U.; U. of Me.; Bates, M.Ed.	35

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1. to December 31, 1960

We, the members of the Board of Selectmen, Assessors and Overseers of the Poor, elected to serve you during the year 1960, herewith submit a brief account of our stewardship.

The section of Main Street between Dorrington Avenue and Tebbetts Avenue, a distance of approximately seven-tenths (7/10) of a mile, was surfaced with hot top, making an excellent surface for vehicular traffic. A job of this type lasts for years, making the initial cost very worthwhile. We anticipate more funds will be available for the year 1961 and this project will be continued. The next section to be done will be a much bigger and more costly project, however, as it will have to be excavated, two feet and more in some places, to remove the loam that is below the thin layer of gravel. It has been said that if the asphalt was removed from that section of the street, there is enough loam there to grow potatoes right on Main Street!

No new industries settled in Sanford during the year 1960, but we would like to say here, it was not for lack of effort on the part of the Chamber of Commerce. We are in a recession, whether we want to believe it or not, and industries are sitting tight. Very few, if any, are expanding, and those that are re-locating have the choice of moving to a city or town that already has modern one story buildings available, which seems to be what they desire.

We had an increase in new homes during the year, not as many as we hoped for, but on a good, sound basis.

Welfare costs during the year were slightly higher than the previous year, especially in the categories of Soldiers' Relief and Aid to Dependent Children. We have no control over the program of A.D.C. The State social workers investigate each case and the department makes the determination as to whether or not the applicant is to receive payments, then the town has to pay 18% of the amount received by the applicant.

In brief, we have tried to give you some of the highlights of the many activities of our office.

In closing we wish to thank Mr. and Mrs. Elwin Holland managers of the Mountain View Infirmary, Dr. A. S. Lincourt, our town physician, Mrs. Marion Roberts, Miss Anita Pelletier and Mrs. Lucienne Michaud, our clerical staff, for the fine cooperation they have given us all year.

Respectfully submitted,

THEODORE C. GAUTHIER

MAURICE J. MAURICE

F. EVERETT NUTTER

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
SANFORD FIRE DEPARTMENT**

To the Board of Selectmen:

The Board of Engineers of the Sanford Fire Company submit the following report for the year 1960.

The fire equipment is in good working condition. All the trucks are checked every day and repairs are made as needed. The maintenance on our old pieces is getting greater every year. We are operating a 1928 500 gallon pumper with two-wheel brakes, a 1936 300 gallon tank truck and a 500 gallon 1947 tank truck with a 100 horse motor that is way overloaded. All the equipment is checked regularly and is kept in good condition.

We lost a pump on Engine No. 5 and had to replace it with a new one. The labor for this job was furnished by the permanent firemen.

The Fire Alarm System is in good repair, but needs to be extended as many areas are not covered by the system. We had to replace our underground from the station across Washington Street. This was an unexpected cost of \$500.00. The grading done for the new liquor store forced us to change the location of the underground.

The fire station is in fair condition but improvements are made every year. This year a new roof was put on the annex. Many old iron pipes were replaced with copper tubing. Cement piers to support our water main were built. Conduit and pipes in the basement were painted a color code. Shelves and closets were built. Some parts of the building were painted and many other repairs and improvements were made in 1960.

The ambulance has been very busy since we took it over in April. It made 211 runs in less than nine months; earned approximately \$3,000.00 and traveled approximately 3,000 miles.

We would remind you that all the maintenance, repairs and upkeep of the fire station is done by the permanent firemen and that they do 95% of all the work on the fire equipment.

We would like to thank the Selectmen and clerical crew, Springvale Fire Department, Highway Department, Police Department, Water District, Garage crew, Women's Auxiliary and all the people who helped us make 1960 a year of few fires.

FREDERICK, HAMMOND, Chief
CHARLES PIKE, Assistant
EDGAR WHICHER, Assistant

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE CLERK OF
THE SANFORD FIRE DEPARTMENT**

Sanford, Maine
January 20, 1961

To the Municipal Officers of the Town of Sanford I hereby submit the following report of the Sanford Fire Department for the year 1960.

The Department has responded to 215 calls, 17 bell alarms, 178 still alarms, 5 false alarms and 15 fire drills.

Estimated value of property endangered	\$495,000.00
Damage to property endangered	9,150.00
Insurance paid on property endangered	2,247.55
Net loss	6,902.45
Total feet of hose laid	28,775
Total pounds of chemical used	150
Total feet of ladder raised	1,827
Miles apparatus traveled	1,035.1

Respectfully submitted,

JAMES O. HAMMOND,

Clerk.

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
THE SPRINGVALE FIRE DEPARTMENT**

December 31, 1960

To the Honorable Board of Selectmen
Town of Sanford, Maine

Dear Sirs:

The Board of Engineers of the Springvale Fire Department submit the following report for the year ending December 31, 1960.

The Springvale Fire Station and fire fighting equipment are in very good condition. This year we have added a 600 gallon tank truck with a 500 gallon per minute pump built by the Springvale Fire Reserves and the Permanent Men with surplus property obtained through Civil Defense at very little cost to the town.

The permanent men have made 770 building inspections in schools, churches, business places and shoe factories this year.

We would like to thank the Selectmen and their clerks, the Sanford Fire Department, Police and Highway Departments, Call and Permanent Firemen, Springvale Fire Reserves and the Civil Defense Police for their cooperation and assistance in the past year.

Respectfully submitted,

ELMORE L. HANSCOM, Chief

HILLIARD M. BOOTHBY, Assistant

RICHARD G. LAMB, Assistant

PROTECTION OF PERSONS AND PROPERTY

REPORT OF THE CLEHK
OF THE SPRINGVALE FIRE DEPARTMENT

December 31, 1960

To the Honorable Board of Selectmen
Town of Sanford, Maine

Dear Sirs:

I hereby submit the following report of the Springvale Fire Department from January 1, 1960 to December 31, 1960.

The Springvale Fire Department has responded to 121 alarms consisting of 108 still alarms, 11 bell alarms and 2 house calls and 6 drills.

Total property endangered	\$350,000.00
Damage to property endangered	4,306.00
Insurance paid on property endangered	4,271.00
Loss	35.00

Number of feet of hose laid	7,780
Number of feet of ladder raised	839
Number of miles apparatus traveled	2,337
Number of hours apparatus pumped—26 hours, 15 minutes.	

Respectfully submitted,

JACK LAWRENCE,

Clerk.

HEALTH AND SANITATION

REPORT OF THE COMMUNITY HEALTH ASSOCIATION, INC. — 1960

To the Citizens of Sanford:

The directors and nursing staff of the Community Health Association, Inc., submit a summary of activities carried on in 1960.

The C. H. A. is a non-profit health organization administered by a Board of Directors who serve on a volunteer basis. The work is carried on by nursing fees, trust income and town appropriations. Health education visits are free of charge and no individual is refused care if unable to pay for service.

The C. H. A. is an agent, on a local basis, for State Department of Health and Welfare. Two full time Public Health Nurses are employed, Mrs. Pauline MacLeod, R. N. and Mrs. Hazel L. Drown, R. N., Nursing Supervisor. Volunteer workers are important in the success of our work. They work at the clinics and Diabetic Fair and transport patients to Portland Clinics and to specialists.

After very careful study by the President and Finance Committee, a new car was purchased by the Association. The least expensive possible and very economical to operate— A 1960 Opel.

Following are statements concerning visits, clinics and activities:

Bedside nursing care and health education visits:

- 2446 visits made
- 274 office visits
- 426 visits to infants
- 322 visits to pre-school children

Clinics:

- Foot Clinics—112 attendance
- Chest Clinics—108 attendance
- Immunization Clinics—

- Dr. Lincourt in attendance (Jan. through Oct., 1960)
 - Dr. Peterlein in attendance (Nov. and Dec. 1960)

- 1467 Salk Polio Vaccine

- 60 Free shots at Clinic, March, 1960.
 - Vaccine furnished by town.

- 282 Free adult shots at Clinic in October, 1960.

- Vaccine furnished by Department of Health and Welfare

HEALTH AND SANITATION

145 doses of Diphtheria, tetanus and whooping cough
vaccine

78 Vaccinations

78 Diphtheria, tetanus, whooping cough and polio

In conclusion, my thanks to the President and Directors
with whom we work.

Respectfully submitted,

HAZEL L. DROWN, R. N.,

Supervisor.

HEALTH AND SANITATION**REPORT OF THE
HEALTH OFFICER FOR 1960**

To the Selectmen, Town of Sanford.

GENTLEMEN:

The following is a report of health activities during the year ending December 31, 1960.

Schools, public and parochial, were visited, three or four times as was needed, for inoculations. All school children, with consent of parents, were vaccinated against smallpox and inoculated against diphtheria, whooping cough, tetanus and poliomyelitis. Initial inoculations were begun or boosters given as required. School authorities were always found to be very cooperative. The children were never a problem. Nurses of the School Department and Community Health ably assisted in this work.

Pre-school and well baby clinics were extended to include adults who wished polio or influenzal inoculations. These monthly clinics were organized by the Community Health Association and attendance was usually excellent. The facilities of the Unitarian Church Gymnasium on Lebanon Street were employed for the clinics. The Reverend Seaward is to be thanked for his cooperation in allowing us the use of this centrally located meeting place.

The number of indigent persons seen and treated has gradually risen. The nature and severity of the illness determined whether these patients were seen at the office, the home, the nursing home or the hospital. Patients in this category included town cases, A.D.C. cases, O.A.A. cases, and those on Soldiers' Relief.

Plumbing and sanitary laws were enforced as complaints were received or infringements noted. When necessary these were referred to our plumbing inspectors for corrections.

Contagious diseases were processed as required by law. Reports to the state were made monthly.

Respectfully submitted,

S. A. LINCOURT, M. D.

Health Officer.

RECREATION

REPORT OF THE PARK COMMISSION ACTIVITIES

1960 was a productive year for park and playground activities. Your commissioners feel satisfied with most areas of recreation during the past 12 months.

The playground system showed a 14% increase in attendance last year. Elizabeth Benton Playground showed a 45% gain. Springvale showed a good increase while Charpentier Playground showed a slight loss in attendance. The tennis program continued on the upswing in Springvale.

Our tree planting program was increased tremendously. 62 maples were planted around Sanford and Springvale last year. Four of these were replacements for previous plantings. Trees last year were purchased in the 12-14' height range and were received enthusiastically by home owners. Past policies were to buy 6-8' trees.

Eleven trees were removed from town streets last year. We are happy to report that only one was diseased. The stump removal plan saw the elimination of 18 more during the last 12 months. One hundred and fifty seven (157) trees were pruned last year. The tree spraying program was also continued.

The Babe Ruth League and Midget League blossomed into full-scale programs during 1960. Our Park Department Team in the Babe Ruth League, finished on the top of the league. Insurance and supervision coverage is more than adequate. Goodall Park was slightly enlarged during an earth moving operation involving the gravel bank behind third base.

Edward H. Gowen Park was an extremely active area last year. The side of the Bandstand was filled and graded. It will be loamed and seeded this spring. Loam will come from the Goodall Brook clean-out of last fall. New tables and benches and a new fireplace were added to the Gowen Park facilities. More are anticipated. A new culvert and hand rails were installed during 1960. This work should open up another entrance to Cobb Stadium. The skating area was moved from No. 1 Pond to Gowen Park. Favorable comment has been received on this move because of the increased lighting and safety features of the new location.

An 1,100 foot section of W. O. Emery Drive was resurfaced last fall and further work is anticipated for spring. A com-

RECREATION

plete long-range layout of the Drive is presently been compiled. 1961 should show real progress in this section of Town.

Your Park Commissioners appreciate comments from all interested people and will actively investigate all suggestions which might improve park services or programs.

ANNUAL REPORT

Town Clerk and Tax Collector

January 1 to December 31, 1960

REPORT OF VITAL STATISTICS

BIRTHS

There were four hundred and seventy-one (471) births recorded in this office for the year 1960. This figure shows an increase of twenty-two (22) births as compared with the year 1959.

Of this number, two hundred and fifty-four (254) were of the male sex and two hundred and seventeen (217) were of the female sex.

In addition, seventeen (17) births were reported from other city and town clerks during this same period.

DOG LICENSES

During the year 1960, there were eight hundred and seventy-eight (878) dog licenses issued in this office. In addition, there were nine (9) kennel licenses issued.

These licenses represent one thousand three hundred and forty-six dollars and eighty cents (\$1,346.80) which was received and paid to the Treasurer of the State of Maine on December 31, 1960.

The following licenses were granted:

Five hundred and four (504) males	\$ 579.60
Three hundred and twelve (312) spayed females	358.80
Sixty-two (62) females	319.30
Nine (9) kennels	89.10

157 Main Street
Sanford, Maine
February 21, 1961

Mr. Theodore Gauthier, Chairman
Selectmen, Assessors and Overseers of the Poor
Sanford, Maine

Dear Mr. Gauthier:

In accordance with Municipal Accounting and Auditing practices described in Chapter 311 and 504, Public Laws of 1957 and at your request, the records of the Town of Sanford have been audited for the year ending December 31, 1960.

I herewith enclose my report of this audit with supporting schedules and questionnaire.

I hereby certify that the records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector of the Town of Sanford have been audited for the year ending December 31, 1960 and found to be correct.

Respectfully submitted,

MARGARET M. SHAW,

Auditor.

**QUESTIONNAIRE COVERING MUNICIPAL
AUDIT AS PREPARED BY THE STATE
DEPARTMENT OF AUDIT**

Name of Municipality: SANFORD, MAINE

Fiscal Year January 1, 1960 to December 31, 1960

Assessors

1. Were valuation records added and reconciled with the tax commitment. Yes.
2. Were valuation and commitment records properly signed? Yes.
3. Was assessable property adequately described in the valuation records? Yes.
4. Were supplemental taxes committed for collection in accordance with statutory requirements? Yes.
5. Were tax abatements approved by at least a majority of the Board of Assessors per statutory requirements? Yes.
6. Was the overlay within the statutory limit? Yes.

Tax Collector

1. Was cash counted and reconciled at audit date? Yes.
2. Did tax collector maintain bank account for tax collections? Yes.
3. Had checkbook balance been reconciled with bank statements? Yes.
4. Were deposits analyzed and compared with receipts? Yes.
5. Were tax collections deposited with the treasurer in accordance with statutory requirements?. Semi-monthly. Yes.
6. Were current year collections of prior years' taxes receivable reviewed? Yes.
7. Was interest or discount on taxes, voted at Town Meeting, properly handled? Interest. Yes.
8. Were uncollected real estate taxes secured by tax titles in accordance with statutory requirements? Yes.

9. Were uncollected taxes published in the town report as required by law? Yes.
10. Were verifications made of uncollected tax balances? Amount Verified? Yes.
11. Were unused tax receipts inventoried? Yes.
12. Were excise tax collections properly controlled and deposited with treasurer per statutory requirements? Semi-monthly. Yes.
13. Were excise tax credits reduced one-half after September 1st, per statutes? Yes.
14. Was check made of excise tax computations? Yes.
15. Were unused excise tax receipts inventoried? Yes.

Treasurer

1. Was treasurer's cash account and bank balance at audit date reconciled with cash balance at close of fiscal year? Yes.
2. Was cash on hand analyzed with receipt postings? Yes.
3. Did you prepare an analysis of receipts and deposits by months? Yes.
4. Did you prepare an analysis of expenditures and bank charges by months? or by weeks? Weekly. Yes.
5. Were receipts deposited per statutory requirements? Weekly. Yes.
6. Was check book balance reconciled with bank statements? Semi-monthly. Yes.
7. Did you compare deposit detail with receipts issued? Weekly. Yes.
8. Were unused treasurer's receipts inventoried? Yes.
9. Were all payments made by check? Yes.
10. Did payments agree with warrants issued? Yes.
11. Were payroll deductions properly handled? Yes.
12. Were checks returned by bank examined as to signatures, endorsements, and cancellation? Yes.
13. Were checks returned by bank compared with records as to dates, payees and amounts? Yes.
14. Were checks returned by bank compared with list of those outstanding at beginning of period and with the respective bank statements returned? Yes.

15. Is proper disposition being made of outstanding checks over one year old? Yes.
16. Were town checks used to record transfers between accounts? Transfers of Money. Yes.
Adjustment of charges to proper appropriation accounts are made by use of journal entries.
17. Was town bank account used for any purpose other than town business? No.
18. Has interest earnings been credited on bank passbooks? Yes.

Tax Liens

1. Were unpaid Tax Titles verified? Amount Verified? Yes.
2. Were waivers obtained for all partial payments on tax titles per statutory requirements? Yes.

Town Clerk

1. Was check made of all municipal licenses? Yes.
2. Were certification of oaths of office properly recorded per statutory requirement? By index card file. Yes.
3. Were records checked for appropriations and other financial data authorized by the townspeople? Yes.

Municipal Officers

1. Is an adequate double entry bookkeeping system maintained? (The Selectmen keep the record of all payments in detail. The Treasurer keeps the record of all receipts in detail—the total of each check is listed in his cash book.)
2. Has any important change been made in the accounting system since last year? No. Same system continued.
3. Are monthly trial balances taken from ledgers? Yes.
4. Has the municipality a system to account for properties and equipment? (Including highways, schools, etc.) Yes.
5. Were invoices and payrolls examined to determine if charges were reasonable and properly approved? Yes. Weekly when the warrant was prepared.
6. Were vendors' original invoices on file? Yes.
7. Were detailed vouchers for state pauper cases on file to support reimbursements by state? Yes.

8. Were any duplicate payments noted in examination of invoices? If so, adjustment was made.
9. Were adjustments made to reflect invoices paid in current year which should have been charged to a previous year? A supplemental warrant was prepared at the end of the year to take care of such payments which should be charged to that year.
10. Were paid invoices cancelled by perforation or rubber stamp device? by check number written in upper corner.
11. Was check made of expenditures to determine that purpose for which appropriations were made had been followed? Yes.
12. Were all transfers between operating accounts authorized by vote of the townspeople? Yes.
13. Were "Overdrafts" noted in appropriation accounts? Yes.
14. Were carrying and lapsed operating account balances reviewed with the municipal officers? Yes.
15. Have journal entries been reviewed? Yes.
16. Did school invoices show approval by at least a majority of the school committee per statutory requirements? Yes.
17. Were education account balances reconciled with records of the Superintendent of Schools? Yes.
18. Were purchases of sizeable amounts and quantities made by competitive bids? Yes.
19. If town properties were sold, was action authorized by townspeople? Yes.
20. Are all town properties insured? Yes.
21. Were accounts receivable properly controlled for reimbursement changes? Yes.
22. Were accounts receivable verified? Yes.
23. Were notes payable verified? Money borrowed during the year was paid before the end of the year.
24. Was review made of payments to municipal officers for salaries? Yes.
25. Have purchase order and contract records been examined for information of liabilities? Yes.
26. Did you discuss with the municipal officers the matured tax titles with respect to assessment and transfer to tax acquired property? Yes.

27. Has parking meter revenue been expended in accordance with statutory requirements? Yes.

Trust Funds

There are two trust funds from which the Town of Sanford receives only the income. These are held by the lawfully appointed trustees.

28. Was "Trust Fund" income expended in accordance with the terms of the bequests? Yes.
29. Are Reserves considered adequate for estimated losses? Yes.

General

1. Are records kept up-to-date, balanced and in good order?
Treasurer, Yes.
Tax Collector, Yes.
Municipal Officers, Yes.
Clerk, Yes.

2. **Public Officials Bonds**

Treasurer, \$20,000.00
Tax Collector, \$20,000.00.

There is a blanket policy with the Maine Bonding and Casualty Company covering all Town Officials.

3. Were any discrepancies or irregularities discovered in any account? Corrections and adjustments were made through the weekly audits.
4. Detailed schedules have been made of unusual items and Special Funds.

SCHOOL SIGNALS

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

Whenever possible, information on the "No School Signal" will be given over the following radio stations: Station WGAN, Portland; Station WIDE, Biddeford; Station WWNH, Rochester; Station WCSH, Portland; and Station WSME, Sanford.

On occasions when the "No School Signal" is sounded at 7:45 A. M., there will be no school for the entire day. The reason for this is the impossibility of securing busses and setting up bus routes during the noon hour. The signal for the afternoon session has been changed from 11:30 A. M. to 12:15 P. M.

EDUCATION

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

This report will cover the year 1960 and will concern itself with costs and quality of education in Sanford.

Your attention is invited to Table 1 which follows:

TABLE No. 1

Survey of Tax Effort for School and Municipal Purposes 1959

Town	Percent of Total Town Budget Allocated for Education	Number of Mills Based on State Valuation Raised by Each Town for School Pur- poses, including Capital Outlay
Sanford	47.1	18.8
Auburn	59.5	23.7
Augusta	52.0	22.2
Bangor	57.1	22.6
Brunswick	54.9	35.5
Caribou	47.6	18.6
Eastport	45.1	18.0
Eliot	65.0	27.7
Falmouth	68.8	29.8
Farmington	62.8	22.8
Gorham	49.2	20.8
Kennebunk	59.2	23.8
Kittery	51.6	28.8
Millinocket	51.0	17.0
Old Town	51.1	27.9
Portland	47.7	16.5
Rumford	53.0	16.7
Saco	55.0	18.8
Skowhegan	50.0	18.8
South Portland	47.8	24.4
Westbrook	58.0	20.0

EDUCATION

It should be noted that the percentage of Sanford's total town budget allocated for education is lower than all except one community in the list of representative Maine towns. It should also be noted that the number of mills raised for school purposes in Sanford is not out of proportion to any town in this tabulation. I think it important that we all recognize that the tax effort being made here in Sanford, while not an easy effort, is, however, not excessive, especially when one considers the quality of our schools.

The following table illustrates four inter-related factors which have a direct effect upon school costs:

TABLE No. 2
Factors Affecting School Costs

Year	Enrollment as of April 1	Number of Teachers	Consumer U. S.	Price Index* Boston	Educational Developments Initiated
1950	1728	83	102.8	103.2	
1951	1704	85	111.0	110.0	
1952	1733	87	113.5	112.4	
1953	1852	88	114.4	112.7	
1954	1885	86	114.8	113.2	Elementary French Program
1955	1900	89	114.5	113.7	
1956	1900	97	116.2	116.7	Driver Training Program
1957	2018	99	120.2	120.8	Vocational Agriculture

EDUCATION

1958	2194	106	123.5	124.7	Mentally Retarded Class. Physically Handicapped Program Stadium Appropriation
1959	2268	112	124.6	125.7	Junior High Building and Program. Vocational School Building
1960	2294	112	126.6	128.1	Second Mentally Retarded Class

* 1947 - 1949 = 100.0

I believe the above clearly indicates the major reasons for increased school budgets. It should be noted that in the eleven year period Sanford has experienced a 32.7% increase in enrollments; a 34.9% increase in the number of teachers; and a 24.1% increase in the Boston Consumer Price Index. Coupled with this, the educational developments initiated during this period give substantive evidence of why school budgets have increased.

The question may be raised at this point as to whether or not all of the above developments are necessary. I strongly feel that without exception they are necessary if we are to maintain educational programs to fit the needs of all of our youngsters. The final decision in this regard rests, of course, with the citizens and their elected representatives. Each year as the school budget is formulated this fact is called to the attention of your Warrant Committee. The school budget represents the minimum cost necessary to maintain existing programs. Any substantial cut in school costs can only accrue from the elimination of on-going programs.

This year on many occasions I have been questioned concerning salaries paid to our teachers. Whereas professional salaries constitute 60 to 70% of the total school budget, 66% of the 1961 budget, this question warrants detailed examination. As your Superintendent of Schools I am concerned with salaries from two points of view — first, are the minimum salaries paid beginning teachers with no experience sufficiently high to be competitive in attracting competent young teachers to Sanford, and secondly, is the average salary paid our experienced teachers in line with what comparable communities are paying? I submit Table 3 and Table 4 for your examination:

EDUCATION

TABLE No. 3

Salary Minimums for Bachelor's Degree Teachers

1960-61 School Year

SAD No. 10 (Allagash Plt.)	\$4,200.00
Rumford	4,025.00

EDUCATION

TABLE No. 4

Average of Teachers' Salaries Maine Cities and Towns
with a Population of 10,000 and over

1959 - 60		
	No. of Teachers	Average Salary
Rumford	90	\$5,018.00
Portland	539	4,891.00
Bath	111	4,745.00
Caribou	88	4,745.00
South Portland	212	4,698.00
Augusta	166	4,671.00
Brunswick	126	4,662.00
Westbrook	108	4,632.00
Lewiston	156	4,583.00
Sanford	105	4,437.00
Bangor	259	4,435.00
Auburn	195	4,375.00
Kittery	93	4,340.00
Waterville	123	4,303.00
Biddeford	54	3,831.00
1960 - 61		
Rumford	93	5,249.00
Portland	576	5,154.00
Bath	118	5,010.00
South Portland	215	4,995.00
Brunswick	136	4,886.00
Lewiston	165	4,816.00
Bangor	292	4,813.00
Westbrook	113	4,781.00
Auburn	197	4,652.00
Augusta	174	4,638.00
Caribou	104	4,623.00
Kittery	97	4,591.00
Sanford	111	4,533.00
Waterville	126	4,492.00
Biddeford	60	3,732.00

It should be noted from the above that at this writing I have direct knowledge of 44 communities in Maine paying higher minimums for Bachelor degree teachers than is Sanford. This means that all other factors being equal, we are not in as good a competitive position in recruiting beginning teachers as is desirable. It is my hope that the raising of our minimum from \$3,600.00 to \$3,800.00 next year will considerably improve our ability to successfully compete for quality teachers.

EDUCATION

With reference to the average salary paid our teachers, Table 4 indicates that while we were 10th in 1959-60, this year we have dropped to 13th. Again, it is my hope that with the additional salary increments planned for by the Superintending School Committee for the school year 1961-62 our position will improve. This improvement is a MUST if we are to hold good teachers here in Sanford.

I think that the above statistical evidence indicates that school costs in Sanford are reasonable as compared with other communities in Maine.

One index of quality in a school system is the use of standardized achievement tests. Each spring extensive series of achievement tests are given to all youngsters in grades 4, 5, 6, 7, and 8. These tests are machine scored in Chicago and individual and grade results are established. The emphasis in these tests is on the basic skills of reading, language, and arithmetic. Referring to Table 5 one can see that without exception each grade has scored above the national norm or average. Grade 4 and grade 8 achieved exceptionally high scores.

TABLE No. 5

**S.R.A. Achievement Tests Results
April, 1960**

SANFORD SCHOOL DEPARTMENT

Grade	Number of Pupils Tested	National Grade Norm	Sanford Grade Norm	Percent Above National Norm
8	124	8.7	10.0	14.9%
7	174	7.7	8.1	5.1%
6	171	6.7	7.0	4.4%
5	176	5.7	6.0	5.2%
4	152	4.7	5.6	19.1%

It may be concluded from the above that pupils entering High School are well prepared in the fundamental subjects, thereby reasonably assuring success, commensurate with their basic ability, in the pursuit of the various programs at the high school level.

EDUCATION

To establish quality at the High School level two criteria should be examined. First, the holding power of the school as determined by the drop-out rate, i.e., number of students who do not finish, and secondly, the percentage of students seeking further training after graduation from high school. Tables 6 and 7 which follow give evidence of our position with reference to the two criteria listed.

TABLE No. 6

Pupil Drop-Out Rate — Sanford High School

Date	Present First Day	Present Last Day	Net Loss	Percent (Net)	Actual Drop-Out	Percent (Actual)
1950-51	560	537	23	4%	46	8%
1951-52	552	527	25	4%	53	10%
1952-53	635	576	59	9%	81	13%
1953-54	615	569	46	7%	71	12%
1954-55	599	564	35	6%	65	11%
1955-56	637	590	37	6%	70	11%
1956-57	659	616	43	6%	79	12%
1957-58	710	673	37	5%	69	9%
1958-59	755	711	44	6%	80	11%
1959-60	715	661	54	8%	79	11%

TABLE No. 7

Sanford High School

Year	Graduates	Further Training	Percent
1950	123	41	33%
1951	108	43	40%
1952	115	51	44%
1953	137	51	37%
1954	131	50	38%
1955	115	43	37%
1956	93	39	42%
1957	109	53	49%
1958	130	49	38%
1959	151	46	30%
1960	128	50	39%

EDUCATION

It should be noted in Table 6 that our actual drop-out ranges from 8 to 13%. This compares most favorably with both the national and state averages. Actually it is considerably below what one can expect on the state and national level.

In regard to the number of our graduates who pursue further training Table 7 speaks for itself. Comparing the above with the state average, which will run from 18% to 20%, it is obvious that we do extremely well in this regard.

When one considers the colleges that our graduates are currently attending, plus their achievements in these colleges, I feel that all of us can be gratified with the results produced in our school system. Our graduates are, and have been, admitted directly from high school to many and most of the finest colleges and universities in the East.

In any discussion of quality it must be recognized that the critical element in achieving quality education is the classroom teacher. Sanford is indeed fortunate in having well-trained, professionally oriented teachers. Our teacher turnover, which is a most important feature in maintaining quality schools, is extremely low, generally averaging 3% or less. Our teachers are continually involved in professional activities and almost without exception continue advanced graduate study. In the year 1960 forty of our teachers pursued graduate study accumulating a total of 201 credits. This type of study, I feel, infuses a continuing flow of the latest teaching techniques and materials within the system. This also insures the maintenance of continuing quality in the education given our young people.

Within the educational profession it is constantly emphasized that while it is relatively easy to permit a good school system to run down, it is extremely difficult to make a poor school system good. Quality is maintained only through the cooperative effort and sacrifice on the part of many people — students, parents, citizens, and teachers. It is obvious to me that historically Sanford has had this cooperation and effort. It is equally obvious from my many contacts with our people that Sanford is determined to continue in this vein.

Respectfully submitted,

JOSEPH J. PETROSKI,

Superintendent of Schools.

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I hereby submit to you my report as principal of Sanford High School.

Enrollment

The enrollment as of October 1 was 772 and the present enrollment is 761. The reasons for the net loss of 11 students are as follows:

Transfers to other schools	5
Illness	1
Married	1
Working	2
Service	3
Lack of interest	4
Transfers to S. H. S.	4
Returned to school	1

Faculty

In a school, that, for several years, has had a very small turnover of teachers, Sanford High was hit especially hard this year with nine teachers either giving up their teaching positions because of retirement, new positions, illness, or further study.

Mrs. Wilma Rollins was granted a leave of absence of one year to take a position as a T. V. teacher in the field of mathematics. Mrs. Eleanor Ferguson was granted a one year leave of absence because of illness. Both of these teachers plan to be back at Sanford High next fall. Mr. Edward Booth resigned to accept a position in the State Department as state director of French.

Sports

Boys' basketball reached its high point the past year when the Sanford High team made an excellent season record and consequently won its way into the Western Maine Tournament for the first time in many years. Although the team was weakened by graduation, Coach Arsenault has again developed a much better than average team this year.

Spring track has been abandoned until more interest is evidenced among S. H. S. students in this sport. Another

EDUCATION

attempt is being made this year to keep winter track as a part of the over-all athletic program. Whether this phase of the sport is continued may depend on the interest in this activity.

Wrestling has become a major sport with great enthusiasm shown by the boys. Coach John Caramihalis has made a determined effort to advance the sport not only in Sanford but in the entire State of Maine. Wrestling, with weight lifting as a parallel body builder, is becoming one of the most important fields of physical education and interscholastic competition.

Results as measured by physical tests have shown the values of wrestling and weight lifting. Although the primary and by far the most important purpose of these activities is the increase in the physical fitness of our boys, there is a secondary result. Definitely the football team will benefit as nearly all football players are engaged in this winter activity.

Incidentally, as a result of the activity and leadership by Coach John Caramihalis in this field, the State Principals' Association has voted to include wrestling as a state-wide interscholastic sport. The first state championship wrestling tournament will be held in the Sanford Memorial Gymnasium in March.

Football has been at a high point for several years. Sanford High has been the leader in Class B with two state championships and one second place in the past five years. This has been most gratifying but along with the outstanding Sanford record has come a reluctance of Class B teams to play a team with Sanford's record. At the same time the Class A teams decided to consolidate their schedules in the Southwestern Maine Conference. Sanford was warned that scheduling difficulties might mean it would be dropped from the schedules of two of the Class A teams in this area with which we have had close athletic relations for many years. The end result would be that the lack of State of Maine competition for Sanford High would in all probability mean an abbreviated schedule for next fall with no chance at a state championship in Class B. To be eligible, six games with Maine teams are necessary for championship consideration.

As a result it was felt that the only recourse was application for Class A. This was granted by the State Principals' Association.

The new schedule will be difficult, especially for a period of a year or two — but with the spirit of the S. H. S. students and athletes, the rapid growth in school enrollment, and with the excellent coaching evidenced this year by head coach

EDUCATION

Charles Caramihalis and assistant Malcolm Roberts and with an especially strong freshman team coached by John Caramihalis, the future of S. H. S. football is promising.

Physical Education

That the physical education program is achieving results is manifested by the following:

The Navy Standard Physical Fitness Test, one which measures muscular strength, was given again this year to all boys except the 65 competing in interscholastic football. A year ago the median score was 49.6 and this year it had increased to 52.7, a gain of 3.1 in one year. Carlson's Fatigue Test which measures cardiovascular-respiratory efficiency was also administered this year. In 1958-1959, forty-two boys were referred to the school nurse for a follow-up. Thirty-nine of these had a physical history which would affect their health. This year only seven needed to be referred to the nurse.

Unquestionably the physical education program including apparatus work, calisthenics, wrestling, weight lifting, etc. is showing its worth.

Music and Dramatics

Band

The band program for this year has been revised. The annual Pop Concert will take place as usual but the winter concert will be omitted as a result of the Joint Concert with Lynnfield, Mass. High School and the addition of the Western Maine Audition Festival to be held in Sanford in May.

G'ee Club

The Glee Club will, as usual, present its annual operetta under the direction of Mrs. Agnes Tibbetts. The Mikado, by Gilbert and Sullivan, will be produced in March.

Dramatics

Dramatics has been under the direction of Bruce Carlson, one of the new members of the faculty. A three act play — "The Whole Town's Talking" — has already been presented and plans are being made to enter the state one act play contest.

Art

The primary objective of art in Sanford High is to help the student develop his individuality. All projects undertaken provide the fundamentals of art education and involve the faculties of perception, imagination, creative thinking and the ability to form esthetic views and tastes. High school students have been able to take ceramics because of the installation of a kiln in the Junior High School. As usual, posters have

EDUCATION

been made in observance of National Education and Book Weeks and displayed at the Goodall Library.

Various other projects have been undertaken. Backdrops for the operetta have been made. The Art Department has aided as usual with decorations for socials, the Junior Prom and the Carnival Ball.

Accreditation

It is well known that Sanford High was the first public high school in Maine to be approved for accreditation for a five year period. In order to extend it to a ten year period, three added requirements were stipulated by the Maine State Department of Education.

1. A full time librarian.
2. Improvement in lighting in the main building.
3. Addition of several showers in the girls' locker room.

The first two of these requirements have been accomplished. Miss Edna Folsom, now a full time librarian, has for two years been in charge of the library. During the past year the lighting in the main building has been changed and thereby a most welcome improvement has been accomplished. Plans for taking care of the last of the three requirements have been made and the additional showers should be installed in the near future.

Several other improvements have been made. The worn asphalt tile in one of the old wings of the main building has been replaced.

Rooms on the top floor were painted during the past summer.

Much needed fume hoods for the chemistry laboratory have been built and installed.

Plans have been made to install emergency lights in the gymnasium.

Vocational Department

Curriculum Study

A thorough revision of the shop curriculum has been made. A study of local and regional industry has been completed and curriculum guides set up for all areas. At present a total of 91 students are enrolled in courses in Machine Shop, Power Machines, Building Trades and Agriculture. Eighty-two other students attend classes in industrial mathematics or mechanical drawing. This is a total of 173 students using the vocational building facilities.

EDUCATION

Since the completion of the building in 1959, much improvement has taken place. Areas have been built up to provide increasing learning situations. In the Power Machines department a paint area has been finished. Front end alignment equipment, work benches, test benches and tool boards have been installed. In Building Trades the areas have also been broadened making the following added activities possible—concrete form building, concrete mixing and placing, concrete block work, house framing and house electrical wiring. In the Machine Shop area, in addition to the following regular units within the course such as machinist, machine operator, welding, foundry and forging, and plastics, this department has taken entire care of its own machine maintenance, making component parts of all its machines. It has also done machine work for municipal departments where learning experiences were involved. In Agriculture, the following areas have been covered: dairying, poultry, beef production, sheep growing, vegetable and small fruit growing, forestry, and farm management. Farm welding, tractor maintenance, and machine repair have also been covered. Field trips have been taken to neighboring farms and procedures studied.

A non--vocational class has been instituted to acquaint students with the practical applications and principles of science and mathematics. It is expected that pre-engineering students will take advantage of the opportunity for manipulative experiences.

Conclusion

Relentless forces are moving throughout the world. This country has been faced with a challenging educational era by the convergence of powerful forces, an explosion of population, an explosion, also, of knowledge, a burst of technological advancement and the tearing up of old political and cultural patterns. The challenge of the next two decades will require leaders not only in science, but in business, industry, government, foreign affairs, civic affairs and education. There is now an unparalleled demand for more and better education.

Our students and faculty here at Sanford High, in common with other students and teachers throughout America, realize that we have a real duty and obligation to help meet the critical world situation. We are accepting that challenge with the full realization of its importance.

Respectfully submitted,

LAWRENCE L. PAGE

EDUCATION

REPORT OF THE JUNIOR HIGH PRINCIPAL

I hereby submit my report as Principal of Sanford Junior High School.

Enrollment

The enrollment as of September 7, 1960 was 344 pupils, with 166 pupils in the seventh grade and 178 pupils in the eighth grade. This is an increase of 36 more pupils over last year's enrollment.

Daily attendance has been exceptionally good throughout the whole year. Percentage wise the daily absenteeism has been between two and three percent of the enrollment.

Faculty

The members of the Sanford Junior High Faculty are:

Mr. Raymond Archambault
Mr. James Bannon
Mr. Donald Beals
Mrs. Barbara Chasse
Mrs. Althea Currier
Mr. Richard Gilpatrick
Mrs. Elizabeth Gowen
Miss Ruth Harmon
Miss Hazel Harrison
Mr. Kenneth Johnson
Mrs. Shirley McIntyre
Miss Harriet Osborn
Mr. Michael Radley
Mrs. Marjorie Roberts
Miss Mary Thompson
Mrs. Gladys Waddington

Condition of Building and Equipment

The building and equipment remain in excellent condition, as excellent maintenance is being given them by the custodians, Mr. Alvah Jellerson and Mr. Lawrence Dart.

Teaching Materials and Aids

The Junior High School has been able to make improvements in teaching materials and aids by starting a centralized library under the supervision of Mr. Raymond Archambault. At the present time the number of reading books and reference books is limited. The library has become a very popular room

EDUCATION

at the Junior High School in the morning, during study periods, and after school.

Curriculum

There has been one addition to the curriculum this year. All boys and girls now have one period of group guidance a week.

Faculty Changes and Additions

Mrs. Barbara Chasse has been added to the Social Studies department to take the place of Mr. Robert Brown. Mr. Brown was appointed principal of Edison School.

Mrs. Shirley McIntyre has been employed to teach in the Science and Mathematics departments.

Mr. Michael Radley has been employed to teach English in the seventh grade.

Mrs. Muriel Sladen, the Foreign Language teacher, was granted a year's leave of absence. Miss Mary Thompson has been teaching these classes.

In conclusion I wish to thank all the school officials, teachers, parents, pupils, and custodians for their cooperation given me during the past year.

REPORT OF THE LONGFELLOW SCHOOL PRINCIPAL

I hereby submit my yearly report as Principal at the Longfellow School.

I would like to start this report by stating that the physical plant of the school is in excellent condition. During the past summer vacations, many projects were completed by our staff of custodians.

All the upstairs rooms were completely painted plus one downstairs room, the others to be completed next summer.

The rest of the building was cleaned and left in excellent condition for the start of the school year in September.

Our rooms and enrollments are separated as follows:

Junior Primary A.M.	Mrs. Gilpatrick	28 pupils
Junior Primary P.M.	Mrs. Gilpatrick	27 pupils

EDUCATION

Grade 1	Mrs. Thyng	20 pupils
Grade 1	Mrs. Hanson	21 pupils
Grade 2	Mrs. Gorrie	22 pupils
Grade 3	Mrs. Lister	30 pupils
Grade 4	Mrs. Bennett	29 pupils
Grade 5	Mrs. Schmottlach	26 pupils
Grade 6	Mr. Deschenes	30 pupils

Total Enrollment	233 pupils
------------------	------------

Our hot-lunch program is being carried on at the Band hall with an average of 35 pupils eating hot lunches and an average of 20 pupils eating cold lunches.

As usual, our building was inspected by the Sanford Fire Department this fall checking for fire hazards. Our fire extinguishers were refilled, checked, and tagged. Fire drills are held at regular intervals.

Pupil activities are carried on in every room under the guidance of their teachers.

A total of 119 parents visited our school during this past National Education Week.

I believe we have a well qualified group of professional teachers who are carrying out their duties through accepted teaching theories of today.

Of course, we plan to continue in every way possible, this qualified professional guidance of our pupils here at Longfellow School.

We happily extend to all parents, an invitation to visit our school at any time.

Respectfully submitted,

JOSEPH DESCHENES,

Principal.

EDUCATION

REPORT OF THE ROOSEVELT SCHOOL PRINCIPAL

I hereby submit to you my annual report for the year 1960 as Principal of the Roosevelt School.

The enrollment at the Roosevelt School in September was 115. We have lost just one due to transfers and as of January 1st we have 114.

There was a first grade added to our building this year. Miss Eleanor Lord, a former teacher at Lafayette School, joined our teaching staff in the first grade.

The two Junior Primary classes are still on half-day sessions. Miss Hannaford has 24 in the morning and 22 in the afternoon. Mrs. Martin has 22 in the morning and 24 in the afternoon. Miss Lord has 22 all day in the first grade.

The children are divided into groups according to their needs and we follow our curriculum closely for the best results.

Seventy percent of our children are transported.

With the first grade in the building this year, we have eleven children staying for cold lunch.

This year Mr. Kimball sent us a 6th grade pupil for patrol work. This has worked out very well, helping the little ones and the first grade.

During National Education Week we had Open House, at which time 80 parents and friends came in to observe the regular classroom work. In the evening Dr. Petroski spoke to the parents.

The Mothers' Club was organized in October. They meet every month except December. The fathers are invited in November and May.

The rooms were cleaned during the summer. A new stoker has been put in the furnace this fall.

Mrs. Crabtree brought in books from the library in the spring for us to use with the children, and for them to have a chance to have library experience. This meant a lot to the children.

I wish to thank Dr. Petroski, Miss Hannaford, Miss Lord, parents and children for the cooperation given to me during the year.

Respectfully submitted,

MRS. LEATRICE MARTIN,
Principal.

EDUCATION

REPORT OF THE EDISON SCHOOL PRINCIPAL

I respectfully submit my annual report as Principal of the Edison School.

The enrollment as of December 31, 1960, was 200 pupils. There are eight classes at Edison School this year — 1 fourth grade, 2 third grades, 2 second grades, 1 first grade, 1 morning and 1 afternoon junior-primary class.

Our new teacher, Mrs. Rossborough, is teaching the junior-primary classes. Mr. Brown has assumed the duties of teaching-principal and is teaching the fourth grade. Mrs. Butler has changed from a fourth grade to a third grade class.

The building and equipment are in good condition, due to the excellent work of our custodian, Mr. Sherburne, and the head custodian, Mr. Carrier. Our classroom has been painted. One basement entry has been walled in with beaver board, and both entries have been painted. The flag pole has been moved from the roof to the front lawn. Also, a cinder block retaining wall has been built at the right front of the school to stop the soil washoff from the playground.

The teaching staff is striving continually to improve the overall program of instruction. Reading as the focal point of the daily schedule, at this level, requires closely coordinated use of textbooks and supplementary materials from grade to grade. This is made possible by the teachers working closely in carrying out an effective learning situation for each child from year to year.

Respectfully submitted,

ROBERT BROWN,

Principal.

REPORT OF THE EMERSON SCHOOL PRINCIPAL

I hereby submit my report as Principal of the Emerson School.

The enrollment as of September 7, 1960, was 170, with one fourth grade, two fifth grades, two sixth grades, and two rooms for the mentally handicapped children.

Several new teachers and a new janitor have been added to the Emerson School staff. They are: Mrs. Allen, who

EDUCATION

teaches the older handicapped children; Mr. Blouin, who teaches grade 5. Mr. Guertin is the new janitor.

The Emerson School is in fair condition. Work on windows, such as painting and insulation of window casings is the outstanding need at the present time.

All teachers are well equipped with materials at the present time.

The Curriculum Guide of Sanford's Public Schools is being followed to aid in the instructional program.

In conclusion, I wish to thank all school officials and teachers for their cooperation.

Respectfully submitted,

CLINTON W. GUILFORD,
Principal.

REPORT OF THE HAMLIN SCHOOL PRINCIPAL

I hereby submit my annual report as Principal of Hamlin School.

The enrollment as of September 7, 1960, was 118 pupils, with one fourth grade, two fifth grades, and two sixth grades. The present enrollment is 121, an increase of three since the beginning of the school year.

The teaching staff at Hamlin has remained the same as last year.

During the past year, the four classrooms on the first floor were completely repainted. All floors have received a coating of sealer and the basement floors have been painted. The building and equipment are in good condition. Excellent maintenance has been given them by the custodian, Mr. Arthur Perreault.

The teaching methods used are those that will meet the individual needs and at the same time arouse the interest of each child. We try to help children develop physically, emotionally, and socially.

This year at Hamlin the schedule for grade 5 and grade 6 was organized on a departmental basis. More efficient use

EDUCATION

of the school day has been made possible. Departmental work will also tend to minimize the adjustment in the transition from elementary school to junior high school.

Pupil morale has been high this year, thus providing opportunities for a maximum gain of desired knowledge.

The music, physical education, and art programs have been developed within the school and are being taught by the teachers of Hamlin School. Many of our pupils are interested in music and are taking music lessons in preparation for Junior High School Band.

In conclusion, I wish to thank all school officials, Hamlin faculty, parents and children, for their excellent cooperation.

Respectfully submitted,

CARL HURD,
Principal.

REPORT OF THE HAWTHORNE SCHOOL PRINCIPAL

I hereby submit my annual report as Principal of the Hawthorne School.

Our enrollment in September was 61, practically the same as the previous year. Our present enrollment is 59.

We have the sub-primary, first, second, and third grades in our building, which makes ours a Primary School.

Miss Virginia Goodwin is the sub-primary and first grade teacher.

Our sub-primary class is dismissed at noon.

We have the use of good materials and equipment, a fine curriculum, excellent teaching methods, and a pleasant building. Our playground is one of the best in town.

During Education Week about fifty parents and friends enjoyed our program. We were gratified with the favorable comments.

Our children are nearly all bus transported, as they live more than a mile from the school.

We are very fortunate to have an unusually active P.T.A.

EDUCATION

This year they put on a Harvest Supper, sold candy, and served a dinner to the York County Poultrymen's Association each month. At Christmas time many donated money for new kitchen utensils.

We carry on our own hot lunch program, with a little help from the town.

Last year two of our mothers organized a Cub Scout Pack which meets each Monday at the home of Mrs. John Roberts with Mrs. Cecil Chadbourne as assistant.

Our building is in good condition. Last spring several loads of gravel were used as a filler around it.

We do not have any special teachers now. We carry on our own music, art and penmanship programs. We have the same health program as is carried on in town.

In conclusion, I wish to thank Dr. Petroski, Miss Goodwin, parents, and children for their help and cooperation.

Respectfully submitted,

MRS. AMY ELLINGWOOD,

Principal.

REPORT OF THE LAFAYETTE SCHOOL PRINCIPAL

The enrollment at the Lafayette School has been between 185 and 190 pupils this year.

We have one first grade, Mrs. Celia Butler, teacher; two second grades, Mrs. Muriel Gardner and Mrs. Ruth Littlefield, teachers; two third grades, Mrs. Lilla McCarty and Miss Rebecca Hodgkins, teachers; (Miss Hodgkins is a new teacher this year; one fourth grade, Mrs. Georgia Couture, teacher; one fifth grade, Mrs. Jean Walker, teacher; and one sixth grade, Clyde Kimball, teacher.

The condition of the building is excellent. The playground is well equipped and has been resurfaced this year.

The school is supplied with the best teaching materials such as textbooks, maps, globes, dictionaries, encyclopedias, audio-visual aids, and reference books.

The Lafayette School has a well-rounded program for pupil activities, both inside and outside of school, which includes library work, Scouts, Brownies, sports, safety patrol, and music lessons.

Respectfully submitted,

CLYDE P. KIMBALL,

Principal.

EDUCATION

REPORT OF THE LINCOLN SCHOOL PRINCIPAL

I hereby submit to you my annual report for the year 1960 as Principal of the Lincoln School.

The enrollment of the Lincoln School in September was 218. Since that time seven pupils have transferred to other schools in Sanford, and four have moved out of the State. During this same time fourteen pupils entered the Lincoln School from other schools in town making our present enrollment 220.

Miss Lucy Smith has had a leave of absence this first semester to further her education at Gorham State Teachers College, and receive her degree. During her absence Mrs. Harry Stott has very efficiently taken over Miss Smith's class. There have been no other changes in our teaching staff.

The fourth grade is using, with good results, the reading laboratory, which is published by the Science Research Associates.

New Social Studies books, "Working Together," published by Follett Company, have been purchased for our third grade.

All grades are provided with good materials and equipment to enable them to receive the best of training in these primary grades.

During National Education Week we had Open House at which time 75 parents and friends visited regular classes.

The School Patrol, which is made up of fourth grade pupils, is rewarded each year with an outing. They are supervised by their teacher. The average number of children staying for hot lunch is 85 while the number bringing cold lunches has increased to an average of 30.

A study by the P.T.A., the School Committee, and Selectmen of the safety problem on King Street has been made, and at the present time the busses back onto the school grounds to load, leaving the street free for private cars. All children who walk are dismissed after the busses have left in order to prevent accidents. This is a temporary measure to be followed only until the proposed one-way street for busses across the end of the school grounds is completed.

This fall improvement of the playground was made by bulldozing the muddy loam from a portion of the boys' side and filling in with gravel.

EDUCATION

At the present time a study of the heating of the cafeteria is being made.

During the summer one classroom was painted, as well as the regular repairs and cleaning.

In conclusion, I wish to thank Dr. Petroski, all the teachers, parents, and children for their help and cooperation.

Respectfully submitted,

MISS FLORENCE BATCHELDER,
Principal.

REPORT OF THE PRINCIPAL OF GENERAL EVENING SCHOOL

To the Superintendent of Schools:

I herewith submit to you my report as principal of the General Evening School conducted at the Sanford High School for the year 1960.

General Evening School opened this year with the following courses in session:

- Americanization.
- Beginners Typewriting.
- Advanced Typewriting.
- Beginners Bookkeeping.
- Advanced Bookkeeping.
- Sewing.
- Mathematics.
- Art.

It was very gratifying to have so many men enrolled in the mathematics class. The majority of these men are enrolled in the apprenticeship course at the Ship Yard.

I was sorry that it was necessary to close the advanced typing class at the end of the fifth week. The number attending the class did not permit us to continue the last five weeks.

In conclusion, I wish to express my appreciation to you, to the School Committee, to the teachers, to the students, and to all others who helped make the General Evening School successful.

Respectfully submitted,

ITHEL E. PRESCOTT,
Principal General Evening School

EDUCATION

REPORT OF THE VOCATIONAL EVENING SCHOOL FOR 1960

Eighteen separate and complete programs were carried on at the Sanford Vocational High School and the Junior High School. Heliarc welding continues to be the most popular course.

In the spring we operated three programs in the Agricultural Department — 1, Farm Tractor Maintenance; 2, Sheep Herd Management; and 3, Dairy Herd Management.

One area Vocational Program was held — the Technical Automotive course, which was our second program under the National Defense Education Act.

One new automotive course was offered for the first time in this area, namely, the Front End Alignment course. Questionnaires were filled out by those who attended to determine if their needs had been met. It proved to be satisfactory.

Two Supervisory courses were held — one for Basic and one for Advanced.

In the fall a survey in local industries showed a need for the following courses: Blue Print Reading; Heliarc Welding; General Welding; Electricity; Carpentry, and Oil Burner Maintenance. A meeting with the York County Car Dealers Association called attention to the need for the Technical Auto course, and one on Fuel Systems and Carburation.

When the fall programs began the following were initiated: General Welding; Blue Print Reading; Machine Shop; Heliarc Welding; Carpentry; and Electricity. So many men wanted Heliarc Welding that four nights per week were required to meet the need.

In the Agricultural Department two were held in the fall — Soil Conservation and Anatomy and Principles of Breeding.

Two classes were held in the Junior High School, one for Beginners' Sewing, and one in Rug Braiding.

An Oil Burner Maintenance Program is currently in the planning stage. This is the first program of this type being attempted and has already required much organizing and planning. Special equipment is needed, more space than is usually required in most programs, a course outline, cut-away models, resource personnel, and a qualified instructor. A recent progress report which was mailed to those who have

EDUCATION

signified their interest in the program gives the possible starting date as March, 1961.

The Technical Auto course began on December 6, 1960. The number of enrollees was too many for one class to function successfully so a second class was started the same week to accommodate all who signed up for the course.

Interest in the Vocational Evening School continues to thrive in Sanford. Our new building and modern facilities are used to serve the needs of the community and we appreciate the cooperation of all who helped to make this year's evening school meet the need.

Respectfully submitted,

CARL J. LAMB,

Director.

EDUCATION

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

Following is the report for the school nursing service for the past year.

The function of the school nursing service was to serve as interpreter between school, home, and community in relation to the health needs of the children.

Specific areas of care were carried on — some repetitious of other years and others newly developed. Following is an explanation of these areas:

1. Physical Examinations.

Children examined by qualified medical personnel were those in the sub-primary, fourth, seventh, and tenth grades, plus new students. Also, students in the elementary grades wishing to participate in competitive sports were examined. 773 were examined. The examinations followed the routine advised by the American Medical Association and the National Education Association. The results of these examinations were recorded on the individual student's health record. This health record is cumulative from the sub-primary through the twelfth grade. Teachers had access to these records, giving them valuable information concerning the individual child. The parents were notified if the examining physician advised referral to the family doctor for further care. A follow-up nursing program urging and assisting in obtaining corrections was an essential part of this program. 68% of this year's referrals have been cared for up to the present time and more will be completed before the school year is ended.

2. Sight Conservation Program.

The condition of a student's vision can affect his scholastic ability. We were fortunate in having a detailed program for detecting defective vision. An optometrist examined students in the sub-primary, fourth, seventh, and tenth grades, plus teacher referrals of students in the other grades, plus new students and ones whom the optometrist felt, as a result of a previous examination, needed one this past year. Notices of need for a further vision examination in a doctor's office were sent to parents of fifty-eight children. Forty-one have received the recommended care. Teachers were notified if a child needed a certain seating arrangement in the classroom. Financial assistance for glasses was secured for five children.

EDUCATION

3. Program for Hearing Conservation.

a. Group audiometer testing was done in the second through ninth grades. Referrals were made for further individual examinations for six students.

b. Arrangements were made for one child to be admitted to the Baxter School for the Deaf.

c. A Maico Pure Tone audiometer for individual testing was obtained and will be used for all further hearing testing. This will eliminate group testing and make possible the testing of the younger students and ones referred and selected by teachers and nurse.

4. High School Health Unit Program.

A nurse was in attendance at the High School for four hours daily — 10:15 A. M. to 2:15 P. M. This service offered health counselling, first aid care, care for temporary illness and school dismissals because of illness. During the past year 1,097 students visited the unit.

5. Program for Prevention of Contagion.

a. Clinics for the giving of Salk vaccine were arranged. A physician injected the vaccine.

74 students received the first dose.

43 students received the second dose.

89 students received the third dose.

729 students received the fourth dose.

b. Booster injections for whooping cough, tetanus, and diphtheria were offered to the sub-primary children and 59 students received these injections.

c. Also, the attending physician vaccinated 82 against smallpox.

d. Patch tuberculin testing was done by the nurses to students in chosen grades — 386 students were tested, and 2 were found to be positive re-actors. These two were referred to their family physicians for care.

e. There is a State law requiring all school personnel to have chest x-rays every two years. Arrangements were made for 34 individuals whose reports were due, to have chest x-rays at the Goodall Hospital.

f. A copy of the rules pertaining to school attendance in relation to contagious diseases was sent to parents of children in the sub-primary grade and of new students.

6. Urinalysis Program.

Students in the sub-primary, fourth, seventh, and tenth grades had a urinalysis for detection of albumen and sugar. Also, a test for detection of sugar was offered to the students in the other grades. 1,922 students were tested with the following results: 24 were referred to the family doctor be-

EDUCATION

cause of presence of albumen and 10 because of presence of sugar. Here, again, the policy was to detect incipient conditions in order to prevent diabetes or a kidney condition.

7. Mental Health Program.

As needed, the nurses interpreted to the teachers the experience of the child outside of school. A child's emotional health reflects these experiences and we considered it the responsibility of the school personnel to understand these influences and treat the student accordingly.

Conferences with parents and teachers were held pertaining to a certain child's emotional instability or a behavior problem. Our program is hindered because we lack the availability of psychiatric help or a psychiatric clinic in the community. Consequently, resource care is not available. I wish to state that the patience and understanding of the teachers for these children is remarkable and of great assistance to these children. However, we all recognize that we need suggestions for care from experts in the behavior field.

A three-day workshop was attended by the school nurse. This workshop was sponsored by the United States Public Health Service and the Maine State Department of Mental Health and Corrections, and the Department of Health and Welfare. It was held in Augusta. Many practical suggestions were received and a clearer concept of a mental health program was obtained.

8. Program for Mentally Retarded.

a. A close working relationship has been established with the teachers of the classes for mentally retarded.

b. At present there are 9 children remaining at home and not attending school. These children have a too low mental retardation for school attendance in the special classes. These children are potentials for institutional care. Home visits were made to parents and children as needed. Applications for admission to the Pineland School and Training Center have been filed for two of these children. Applications will be filed for the others when the parents request and see the need for such service.

c. Arrangements were made for four children to have psychometric examinations.

9. Foot Examinations.

Students in the sub-primary, fourth, seventh, and tenth grades had a foot examination by a podiatrist. This examination revealed existing difficulties in relation to foot ailments and improper fit of shoes. Parents were notified as to the result of the examination and urged to secure help for their children. By this program we prevent serious discomfort and foot deformities occurring in adult life.

10. Other Activities.

a. Conferences were held with the new teachers in the

EDUCATION

elementary grades, explaining our program.

b. Classroom Activities.

1. Talks given on General Hygiene to the seventh grade girls at Junior High School.
2. Talk to Civic class at High School on Public Health activities.
3. A demonstration of a baby's bath was given to class at High School.
4. A talk to Home-making class at High School explaining home care for a baby.
5. A talk to the fourth grade at the Longfellow School on general hygiene.

c. Assistance was given to various organizations and individuals in obtaining clothing for children. Also, assistance was given at Christmas time in buying and distributing toys.

d. Arrangements were made for 87 children to have free milk during the morning session.

e. 12 children were referred to the cafeteria service for free noon lunches.

f. Arrangements were completed for four children to have home instruction. These children were unable to attend school because of a crippled condition. Also, arrangements were made for two children to be transported to school for part of the year. These two children had a physical condition preventing them from walking too great a distance.

g. Office hours were kept by the nurse from 8:30 A. M. to 9:00 A. M. in the nurses' office at the Junior High School.

h. 90 home visits were made to parents and children and 770 schoolroom visits were made during the year.

i. First Aid cabinets with simple first aid material were supplied in each school. It was our policy to give only first aid treatment in a school and dismiss the student to go home in the care of his parents. Teachers in the elementary grades were given a statement of rules to follow in sending a child home, and our policy in having all school personnel refuse to dispense medication.

j. A school nursing program was compiled for the Junior High School and High School and given to the principals of those schools.

The nursing program was carried on with the invaluable help of Mrs. Lura Hanson, R. N., who served as part-time assistant to the school nurse.

In conclusion, an educational aspect was considered in all of the above examinations and care. We endeavored to teach each student to better care for himself and to have a clearer understanding of his own health needs.

Respectfully submitted,

LAURA E. TABOR, R. N.,
School Nurse.

LIST OF TEACHERS

Teacher	Subject	Training	Years of Experience
HIGH SCHOOL			
Lawrence L. Page	Principal	Bowdoin, A.B.; B. U.; U. of Me.; Bates, M.Ed.; Nas- son, H.H.D.	36

Gedeon Lamontagne, term expires December 31, 1964
Joseph T. Barberie, term expires December 31, 1965

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1 to December 31, 1961

It gives us a deep feeling of gratitude to submit to the people of Sanford our annual report.

The year 1961 was a time, we think, when all of us were more than usually concerned about the future of our town. Never before have the people of Sanford demonstrated more conclusively that a free people governing themselves are capable of recognizing and evaluating the problems which rush on them daily; that such people are capable of understanding what must be done to meet these problems and that they are capable of forming collective judgments and making hard decisions which will insure the wisest possible use of their resources. There is no reason now to doubt their capacity to meet this test and we believe that the people of Sanford had that determination.

We will listen to the new voices, examine their proposals, apply our judgment, and then together develop new policies. Whatever our political affiliations may be, there will be, we know, widespread discussions; there will be disagreements. These are a part of any decision making in a democracy. The people of Sanford have faith in each other's purposes and have confidence in the results of their efforts. When good faith and good will generates, we can look to the future with our hopes high and our resolutions firm.

Benjamin Franklin, in 1789, described the Americas in which we now live with the following words: "God grant that not only the love of liberty but a thorough knowledge of the rights of men may prevail, so that a person may set his foot any where on this land and say, 'This is my country'."

The Board of Selectmen are proud to be living in a democracy which means freedom, and freedom means civil liberties and equal opportunities for all, and if a person disagrees with governmental policies he can say so, and more than that, he can do something about it.

It has been a great pleasure and honor to serve the people of Sanford in our capacity as officials of the town. We hope that the future will continue to be bright and we will do our best to make it so.

The Board of Selectmen are fortunate in having personnel working with them who are capable of handling any problems which arise, and the new members of the Board wish to express their appreciation of the tremendous assistance given them by Mr. Gauthier, which enabled us to better serve the Town of Sanford.

Respectfully submitted,

HENRY J. DESMARAIS

THEODORE C. GAUTHIER

NORMAN S. HALL

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
SANFORD FIRE DEPARTMENT**

To the Board of Selectmen:

The Board of Engineers of the Sanford Fire Department submit the following report for the year 1961.

The fire fighting equipment is in the best possible working condition. The equipment is checked regularly and repairs are made where needed. A new 750 gallon pumper will be delivered in April or May. This modern piece will replace Engine #2—which has been in service since 1928.

The Fire Alarm System and the Fire Station are in good repair, but the Alarm System needs to be extended in many areas. The air compressor that takes care of our air horns—which has been in service since 1934—was replaced this year. Complete installation of this machine was done by the permanent firemen.

The ambulance answered 295 calls—traveled 2,579.8 miles and earned \$3,750.51.

We will again remind you that all repairs, maintenance and upkeep of the fire station is done by the permanent force and that 95% of all the work done on the fire fighting equipment is done by the same crew.

We would like to thank the Selectmen—Marion, Anita & Lucienne—Springvale Fire Dept.—Highway Dept.—Police Dept.—Water Dist.—Garage Crew—Women's Auxiliary and each and every person who helped us make 1961 a fair year.

FREDERICK HAMMOND, Chief

CHARLES PIKE, Assistant

EDGAR WHICHER, Assistant

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE CLERK OF
THE SANFORD FIRE DEPARTMENT**

January 22, 1962

To the Municipal Officers of the Town of Sanford:

I hereby submit the following report of the Sanford Fire Department for the year 1961.

The Department has responded to 226 calls; 20 bell alarms, 183 still alarms, 10 false alarms and 13 fire drills.

Estimated value of property endangered	\$738,800.00
Damage to property endangered	7,350.00
Insurance paid on property endangered	3,421.54
Net Loss	3,928.46
Total feet of hose laid	28,330
Total pounds of chemical used	125
Total feet of ladder raised	1,505
Miles apparatus traveled	680.5

Respectfully submitted,

JAMES O. HAMMOND

**REPORT OF THE BOARD OF ENGINEERS OF
THE SPRINGVALE FIRE DEPARTMENT**

December 31, 1961

To the Honorable Board of Selectmen
Town of Sanford, Maine

Dear Sirs:

The Board of Engineers of the Springvale Fire Department submit the following report for the year ending December 31, 1961.

The Springvale Fire Station and Fire Fighting equipment are in very good condition except for the Ladder Truck which is a 1926 model and in case of a serious breakdown it would be impossible to get parts to repair it. The ladders are also in bad shape because of age and are showing signs of dry rot.

The Springvale Fire Station Annex that was built in the Spring of 1961 is working out very well and is used to house a truck that was kept in the basement and also a truck that was kept outside.

The Permanent men have made 760 building inspections in schools, churches, business places and shoe factories this year.

We would like to thank the Selectmen and their clerks, the Sanford Fire Department, Police and Highway Departments, Call and Permanent Firemen, Ladies Auxiliary, Springvale Fire Reserves, Salvation Army, and The Civil Defense Police for their cooperation and assistance in the past year.

Respectfully submitted,

ELMORE L. HANSCOM, Chief

HILLIARD M. BOOTHBY, Assistant

RICHARD F. HANSON, Assistant

PROTECTION OF PERSONS AND PROPERTY**REPORT OF
CIVIL DEFENSE AND PUBLIC SAFETY**

To the Honorable Board of Selectmen:

Gentlemen:

Once more we have reached the end of another year and I believe that we can all say that it has been a very successful year in all respects.

The Public has become much more Civil Defense minded now, than in previous years. This, we feel, is a great accomplishment.

We feel that the past year has been a great gain for Civil Defense and the Town of Sanford, from purchases made from Government Surplus. This has been a great saving to the Town of Sanford. This Civil Defense Unit is a unit that the Town of Sanford should be very proud of. We are very proud to tell the public that we have been assigned a new Mobile Mass Feeding Unit.

Our "Civil Defense Day" was a big success for 1961, as at this time the public started showing much more interest than ever before. The year of 1962 will be even larger, as more Civil Defense Units will be participating.

Both the Spingvale Auxiliary Civil Defense Fire Department and Sanford Civil Defense Auxiliary Police are well trained for any emergency that might arise.

I wish to take this opportunity to thank all those persons who have aided me in my attempt to make "Civil Defense and Public Safety" program workable since my appointment as director.

Respectfully submitted,

FREDERICK ST CYR, Director

HEALTH AND SANITATION**REPORT OF THE****HEALTH OFFICER FOR THE YEAR 1961**

To the Selectmen, Town of Sanford, Maine:

Gentlemen:

As Health Officer for the Town of Sanford for the year of 1961, I herewith respectfully submit a report of health activities during the current year.

Medical and surgical care was given to welfare cases when and where needed. Town and State patients were visited and cared for at the Town Infirmary and surrounding nursing homes. Office and house visits were rendered to patients needing care and treatment.

As required by State Law two free clinics were held at the Sanford Town Hall. These were well attended. Mrs. I. McCann, town welfare nurse, assisted.

As in previous years all public and parochial schools were visited. School children with consent of parents were vaccinated against smallpox and inoculated against diphtheria, whooping cough and tetanus. Initial doses were begun when needed—boosters were given as required. Polio vaccines were given as needed and requested.

All clinics were under the supervision of the School and Community Health Association nurses. As in the past they continue to be good organizers and working with them has been a pleasure.

Infringements of plumbing and sanitary laws were investigated as received.

Contagious diseases were dealt with as required by law.

Respectfully submitted,

A. S. LINCOURT, M. D.

Health Officer

HEALTH AND SANITATION

REPORT OF THE

COMMUNITY HEALTH ASSOCIATION, INC. — 1961

To the Citizens of Sanford:

The C. H. A. is a non-profit health organization. The organization has clearly defined written purposes and objectives. The program is in accordance with the community needs. The work is carried on by nursing fees, trust income and town appropriations. No individual is refused care if unable to pay. The public health nursing service is available to all persons in the community as ordered by an attending physician and accurate records are kept at all times. Doctors Lincourt, Richards, Cobb act as our medical advisers. We found more hardship cases this year than in the last few years.

Nurses are given time and encouraged to make educational advancements in public health. Nurses in this Association are required to be registered in the State of Maine and also the American and Maine Nurses Associations. An extension (Boston University) course was taken by one of our nurses and the York County Institute was attended by both.

Health education visits are free and this part of our work takes a great deal of time but is a very important part of the program. Mothers are assured if care is needed we are available and also are told of the immunization clinics, the foot clinics for children of walking age and older, the chest clinics for anyone needing this service and the daily service given by our nurses, the State referrals of diets, crippled children service, cardiacs, tuberculosis and many times cases are referred to rehabilitation for study and help.

The Immunization Program, held monthly, is one of our largest. This year we added Springvale Clinics for adults and children unable to get transportation to Sanford. The purpose is to reduce contagion and to provide a large percentage at a very small cost to be immunized. We started at Nasson Recreation Hall and are now having the clinics at the Baptist Church on Main Street in Springvale one hour monthly. Dr. Walter Peterlein is our attending physician.

Following are statements concerning visits, clinics and activities:

HEALTH AND SANITATION

Bedside nursing care and health education visits:

2094 visits made—chronic
290 office visits—acute
198 visits to new-born infants
235 visits to pre-school children

Clinics

Foot Clinics—attendance, 103
Chest Clinics—84
Diabetic Fair—507 free X-rays—State Dept. of Health
& Welfare
215 Blood Pressures taken
325 urine tests
Known diabetics—19 with follow-
ups by our nurses

Immunization Clinics:

1773 Salk Polio Vaccines
193 doses of D. P. T.
175 (4 in 1) — (last three months not available)
78 Vaccinations

In conclusion my thanks to the President and Directors with whom we work.

Respectfully submitted,

HAZEL L. DROWN, R. N.

Supervisor

REPORT OF THE PARK COMMISSION ACTIVITIES

1961 turned out to be an extremely active year for the Sanford Park Commission, particularly in the tree planting program. We also note, with pride, that our account showed a balance at the end of December 1961.

Under Parks and Playgrounds, we are pleased to report a total attendance of over 14,000 children during the 8-week summer program. This year the Elizabeth Benton facilities attracted 6,329 children; the Carpentier playground a total of 5,972; and 3,726 children attended the Springvale playgrounds. Tennis lessons continued in Springvale at the 9-13 year age level. One big reason for the increase in attendance at our summer program was the new and varied arts and crafts activity which was incorporated into the existing set-up. As a part of the Town's general policy, new lighting was installed at the Carpentier park and Central Square park.

William Oscar Emery Drive received considerable attention in the spring. Six new benches were installed, red maples were planted and several trees which had been damaged in the past, were replaced. Vandalism and disrespect for public property is a continuing problem on the William Oscar Emery Drive. The intersection of the Drive, Front Street and the Gowen Park Road, was temporarily resurfaced pending the continuation of Emery Drive paving.

One new table and one more portable fireplace was added to the Gowen Park facilities. The rear of the bandstand was loamed and will be seeded in the spring. Incidentally, the Park Department sponsored two band concerts during the summer. A skating shelter was erected later in the year at the skating rink.

All town trees received a complete protective spray during the spring. The summer spray was eliminated for this year. Sixty-seven new trees, in heights of approximately 12-15 ft., were planted during the year. A departure from the normal Norway Maple planting was the inclusion of a few red maples and locusts. During the year nine adult trees needed to be cut and removed. Only four of these were dutch elm diseased trees. Seventeen stumps were removed from the highways.

During the last 12 months, over 7,000 athletic activities were held in Goodall Park. These ranged from the baseball leagues

RECREATION

of Sanford High, St. Ignatius High and Nasson College to the activities of the Jr. Legion, Midget League, Babe Ruth League and some informal playing. There were over 130 boys active in the Babe Ruth and Midget Leagues. It is the constant desire of your Park Commissioners to utilize Goodall Park as well as other recreation facilities as many times as possible throughout any given year.

New plans and events are being scheduled for 1962. We are constantly searching for new and better ways to make the parks and playgrounds serve more people in a more efficient manner. Suggestions from all of the citizenry of Sanford are welcomed.

ANNUAL REPORT

Town Clerk and Tax Collector

January 1 to December 31, 1961

REPORT OF VITAL STATISTICS

BIRTHS

There were four hundred and fifty-five (455) births recorded in this office for the year 1961. This figure shows a decrease of sixteen (16) births as compared with the year 1960.

Of this number, two hundred and twenty-eight (228) were of the male sex and two hundred and twenty-seven (227) were of the female sex.

In addition, seventeen (17) births were reported from other city and town clerks during this same period.

Mr. Henry J. Desmarais, Chairman
Selectmen, Assessors and Overseers of the Poor
Sanford, Maine

Dear Mr. Desmarais:

In accordance with Municipal Accounting and Auditing practices described in Chapters 311 and 504, Public Laws of 1957 and at your request, the records of the Town of Sanford have been audited for the year ending December 31, 1961.

I herewith enclose my report of this audit with supporting schedules and questionnaire.

I hereby certify that the records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector of the Town of Sanford have been audited for the year ending December 31, 1961 and found to be correct.

Respectfully submitted,

MARGARET M. SHAW

Auditor

**QUESTIONNAIRE COVERING MUNICIPAL
AUDIT AS PREPARED BY THE STATE
DEPARTMENT OF AUDIT**

Name of Municipality: SANFORD, MAINE

Fiscal Year January 1, 1961 to December 31, 1961

Assessors

1. Were valuation records added and reconciled with the tax commitment. **Yes.**
2. Were valuation and commitment records properly signed? **Yes.**
3. Was assessable property adequately described in the valuation records? **Yes.**
4. Were supplemental taxes committed for collection in accordance with statutory requirements? **Yes.**
5. Were tax abatements approved by at least a majority of the Board of Assessors per statutory requirements? **Yes.**
6. Was the overlay within the statutory limit? **Yes.**

Tax Collector

1. Was cash counted and reconciled at audit date? **Yes.**
2. Did tax collector maintain bank account for tax collections? **Yes.**
3. Had checkbook balance been reconciled with bank statements? **Yes.**
4. Were deposits analyzed and compared with receipts? **Yes.**
5. Were tax collections deposited with the treasurer in accordance with statutory requirements?. **Semi-monthly. Yes.**
6. Were current year collections of prior years' taxes receivable reviewed? **Yes.**
7. Was interest or discount on taxes, voted at Town Meeting, properly handled? **Interest. Yes.**
8. Were uncollected real estate taxes secured by tax titles in accordance with statutory requirements? **Yes.**

9. Were uncollected taxes published in the town report as required by law? Yes.
10. Were verifications made of uncollected tax balances? Amount Verified? Yes.
11. Were unused tax receipts inventoried? Yes.
12. Were excise tax collections properly controlled and deposited with treasurer per statutory requirements? Semi-monthly. Yes.
13. Were excise tax credits reduced one-half after September 1st, per statutes? Yes.
14. Was check made of excise tax computations? Yes.
15. Were unused excise tax receipts inventoried? Yes.

Treasurer

1. Was treasurer's cash account and bank balance at audit date reconciled with cash balance at close of fiscal year? Yes.
2. Was cash on hand analyzed with receipt postings? Yes.
3. Did you prepare an analysis of receipts and deposits by months? Yes.
4. Did you prepare an analysis of expenditures and bank charges by months? or by weeks? Weekly. Yes.
5. Were receipts deposited per statutory requirements? Weekly. Yes.
6. Was check book balance reconciled with bank statements? Semi-monthly. Yes.
7. Did you compare deposit detail with receipts issued? Weekly. Yes.
8. Were unused treasurer's receipts inventoried? Yes.
9. Were all payments made by check? Yes.
10. Did payments agree with warrants issued? Yes.
11. Were payroll deductions properly handled? Yes.
12. Were checks returned by bank examined as to signatures, endorsements, and cancellation? Yes.
13. Were checks returned by bank compared with records as to dates, payees and amounts? Yes.
14. Were checks returned by bank compared with list of those outstanding at beginning of period and with the respective bank statements returned? Yes.

15. Is proper disposition being made of outstanding checks over one year old? Yes.
16. Were town checks used to record transfers between accounts? Transfers of Money. Yes.
Adjustment of charges to proper appropriation accounts are made by use of journal entries.
17. Was town bank account used for any purpose other than town business? No.
18. Has interest earnings been credited on bank passbooks? Yes.

Tax Liens

1. Were unpaid Tax Titles verified? Amount Verified? Yes.
2. Were waivers obtained for all partial payments on tax titles per statutory requirements? Yes.

Town Clerk

1. Was check made of all municipal licenses? Yes.
2. Were certification of oaths of office properly recorded per statutory requirement? By index card file. Yes.
3. Were records checked for appropriations and other financial data authorized by the townspeople? Yes.

Municipal Officers

1. Is an adequate double entry bookkeeping system maintained? (The office of Selectmen keep the record of all payments in detail. The Treasurer keeps the record of all receipts in detail—the total of each check is listed in his cash book.)
2. Has any important change been made in the accounting system since last year? No. Same system continued.
3. Are monthly trial balances taken from ledgers? Yes.
4. Has the municipality a system to account for properties and equipment? (Including highways, schools, etc.) Yes.
5. Were invoices and payrolls examined to determine if charges are reasonable and properly approved? Yes.
Weekly when the warrant was prepared.
6. Were vendors' original invoices on file? Yes.
7. Were detailed vouchers for state pauper cases on file to support reimbursements by state? Yes.

8. Were any duplicate payments noted in examination of invoices? If so, adjustment was made.
9. Were adjustments made to reflect invoices paid in current year which should have been charged to a previous year? A supplemental warrant was prepared at the end of the year to take care of such payments which should be charged to that year.
10. Were paid invoices cancelled by perforation or rubber stamp device? by check number written in upper corner.
11. Was check made of expenditures to determine that purpose for which appropriations were made had been followed? Yes.
12. Were all transfers between operating accounts authorized by vote of the townspeople? Yes.
13. Were "Overdrafts" noted in appropriation accounts? Yes.
14. Were carrying and lapsed operating account balances reviewed with the municipal officers? Yes.
15. Have journal entries been reviewed? Yes.
16. Did school invoices show approval by at least a majority of the school committee per statutory requirements? Yes.
17. Were education account balances reconciled with records of the Superintendent of Schools? Yes.
18. Were purchases of sizeable amounts and quantities made by competitive bids? Yes.
19. If town properties were sold, was action authorized by townspeople? Yes.
20. Are all town properties insured? Yes.
21. Were accounts receivable properly controlled for reimbursement changes? Yes.
22. Were accounts receivable verified? Yes.
23. Were notes payable verified? Money borrowed during the year was paid before the end of the year.
24. Was review made of payments to municipal officers for salaries? Yes.
25. Have purchase order and contract records been examined for information of liabilities? Yes.
26. Did you discuss with the municipal officers the matured tax titles with respect to assessment and transfer to tax acquired property? All tax titles which matured this year were paid.

27. Has parking meter revenue been expended in accordance with statutory requirements? Yes.

Trust Funds

There are two trust funds from which the Town of Sanford receives only the income. These are held by the lawfully appointed trustees.

28. Was "Trust Fund" income expended in accordance with the terms of the bequests? Yes.
29. Are Reserves considered adequate for estimated losses? Yes.

General

1. Are records up-to-date, balanced and in good order?
Treasurer, Yes.
Tax Collector, Yes.
Municipal Officers, Yes.
Clerk, Yes.

2. **Public Officials Bonds**

Treasurer, \$20,000.00
Tax Collector, \$20,000.00.

There is a blanket policy with the Maine Bonding and Casualty Company covering all Town Officials.

3. Were any discrepancies or irregularities discovered in any account? Corrections and adjustments were made through the weekly audits.
4. Detailed schedules have been made of unusual items and Special Funds.

157 Main Street
Sanford, Maine
February 15, 1962

Mr. M. A. Napolitano, State Auditor
State Department of Audit
Augusta, Maine

Dear Mr. Napolitano:

I am enclosing a certified copy of my report of the audit of the Town of Sanford, Maine for the year ending December 31, 1961.

This report is on file in the Office of the Selectmen of the Town of Sanford, Maine.

Respectfully submitted,

MARGARET M. SHAW

Auditor

Dr. Maurice J. Morin, term expires December 31, 1964

Chairman 1961 — Hazel L. Drown, R. N.

Superintendent of Schools, Joseph J. Petroski
14 Bradeen Street, Springvale Telephone 131; Office 265

Secretary, Mary E. Pascucci
6½ Pearl Street, Sanford Telephone 106-W; Office 265

Secretary, Beatrice P. Landry
29A Kilby Street, Sanford Telephone 2368-W; Office 265

Office Hours
8:30 to 12:00 Noon 1:00 P. M. to 5:00 P. M.

SCHOOL SIGNALS

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

Whenever possible, information on the "No School Signal" will be given over the following radio stations: Station WGAN, Portland; Station WIDE, Biddeford; Station WWNH, Rochester; Station WCSH, Portland; and Station WSME Sanford.

On occasions when the "No School Signal" is sounded at 7:45 A. M., there will be no school for the entire day. The reason for this is the impossibility of securing buses and setting up bus routes during the noon hour. The signal for the afternoon session has been changed from 11:30 A. M. to 12:15 P. M.

EDUCATION**ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS**

The major concern of your School Department continues to be providing quality education at reasonable costs for more and more youngsters, who stay in school longer and longer. This report will focus on some of the factors involved in the above concern.

A primary factor in maintaining quality education is the classroom teacher. The ability to hold our present staff, while successfully recruiting highly qualified additional teachers, is vital. It is increasingly apparent that a competitive teacher salary schedule must be maintained if staff turnover is to be kept at a minimum. Toward this end your Superintending School Committee has revised the current teacher salary schedule as follows:

CURRENT TEACHER SALARY SCHEDULE

Experience	No Degree	Bachelors Degree	Masters Degree
0	\$3200.	\$3800.	\$4000.
1	3300.	3950.	4150.
2	3400.	4100.	4300.
3	3500.	4250.	4450.
4	3600.	4400.	4600.
5	3700.	4550.	4750.
6	3800.	4700.	4900.
7	3900.	4850.	5050.
8	4000.	5000.	5200.
9	4100.	5150.	5350.
10	4200.		
11	4300.		
12	4400.		

REVISED TEACHER SALARY SCHEDULE**Effective September 1, 1962**

Experience	No Degree	Bachelors Degree	Masters Degree
0	\$3400.	\$4000.	\$4200.
1	3500.	4150.	4350.
2	3600.	4300.	4500.
3	3700.	4450.	4650.
4	3800.	4600.	4800.
5	3900.	4750.	4950.
6	4000.	4900.	5100.
7	4100.	5050.	5250.
8	4200.	5200.	5400.
9	4300.	5350.	5550.
10	4400.		
11	4500.		
12	4600.		

EDUCATION

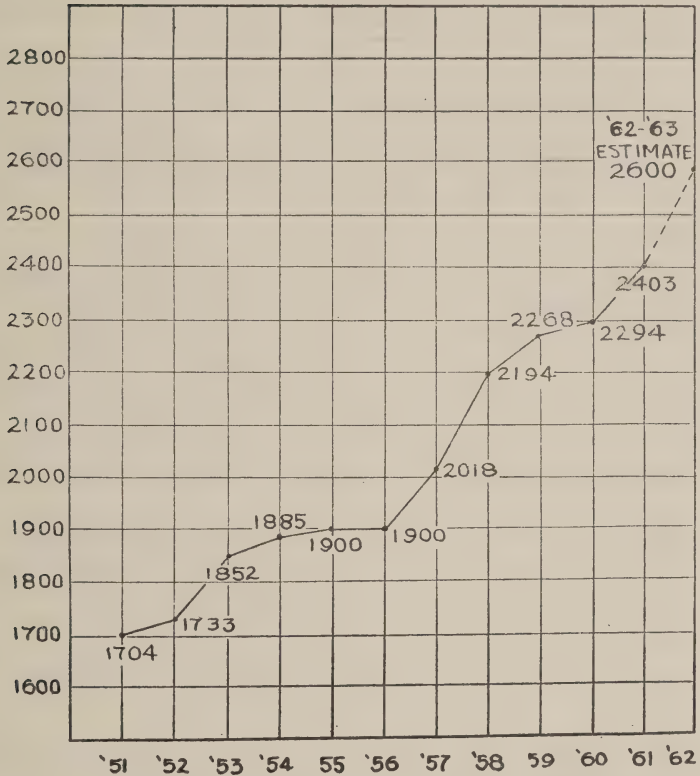

It is always of interest to get some statistical comparisons of what one's relative standing is in regard to other comparable communities. The following table indicates Sanford's position relative to Maine cities and towns with a population of 10,000 or over.

1961 - 62		
	No. of Teachers	Average Salary
1. Rumford	90	\$5601.
2. South Portland	233	5574.
3. Portland	579	5493.
4. Bangor	294	5350.
5. Bath	204	5225.
6. Brunswick	144	5169.
7. Westbrook	132	4977.
8. Augusta	174	4964.
9. Auburn	204	4858.
10. Waterville	128	4816.
11. Lewiston	169	4812.
12. SANFORD	111	4792.
13. Caribou	112	4677.
14. Biddeford	69	3867.

Reasonable costs for quality education must be related to enrollment. Sanford's increased school budgets directly relate to increased enrollments. The following graph illustrates our enrollment picture since 1951.

EDUCATION

ENROLLMENT — AS OF APRIL 1st

It should be noted that we have had over a 50% increase in enrollment since 1951.

Increased enrollments must be accommodated in adequate classrooms, properly supplied with teaching materials. For the school year 1962-3 the following changes from this year's housing pattern must be effected:

1. Add one second grade at the Emerson School. With this addition all eight rooms at Emerson will be occupied.

2. Add one fifth grade at the Lafayette School. This grade of pupils will be transported to the Hamlin School. In September of 1962 a sixth grade from Lafayette will be housed at the Hamlin School. At present the Hamlin School has three unoccupied classrooms.

EDUCATION

3. Move the Industrial Arts shop, used for grades 9 and 10 at Sanford High School, from the main building to the vocational building, the present shop to be converted into classrooms.

I am pleased to report that many of our teachers continue to study at the graduate level.

The following tabulation indicates the number of teachers involved, and credits earned at the various institutions of higher learning attended during the year 1961.

High School

Gilles Auger	6 credits	U. of Me. & U. of Paris
James I. Couser	"	University of N. H.

Quality in schools should extend to auxiliary services as well as to the actual classroom work. We are fortunate in having outstanding personnel and facilities in these areas.

The school lunch program, directed by Mrs. Goodwin, provides well balanced, nutritious meals at practically no cost to the local tax payer—this being made possible through the Federal subsidy program, plus outstanding management. Currently over 1000 meals daily are prepared and served.

York Utilities Company, which handles school transportation, has this past year added seven new sixty-passenger busses, replacing the older forty-one-passenger ones. This fleet, and the maintenance facilities, received the highest rating from the State police during their annual pre-school inspection. This increased capacity per vehicle allows more pupils per trip at no increased cost, thereby giving greater economy per dollar expended for this purpose.

Our custodial staff continues to do outstanding work in keeping schools clean, sanitary, and safe. All minor repairs are now handled by this group. This, again, results in consid-

EDUCATION

erable saving to the community. The condition of all our school buildings at this time is good. This summer additional work on all schools will be done in order to further improve their utility and appearance.

The year 1961 was of special significance for Sanford in that due to an amendment to the Sinclair Law, enacted by the 100th Maine Legislature, Sanford now qualifies for school building aid. This aid applies to the Junior High and Vocational School, as well as any future building projects.

The following table shows the estimated school building aid which will be received for the Junior High and Vocational School.

ESTIMATED STATE SCHOOL BUILDING AID

Year	Total Payment (Principal + Interest)	Estimated Aid
1961	\$81,923.74	\$14,746.27
1962	83,087.08	14,955.67
1963	71,250.00	12,825.00
1964	69,125.00	12,442.50
1965	67,000.00	12,060.00
1966	64,875.00	11,677.50
1967	62,750.00	11,295.00
1968	60,625.00	10,912.50
1969	58,500.00	10,530.00
1970	56,375.00	10,147.50
1971	54,250.00	9,765.00
1972	52,125.00	9,382.50
Total	\$781,885.82	\$140,739.44

Throughout this report I have referred to quality in general terms—what are the specifics?

One of the best single measures, in my judgment, of quality in a school system is to examine pupil achievements in the basic subjects at the 8th grade level. The results achieved at this point reflects what has been accomplished in the total elementary program, as well as indicating what might be expected in a four-year High School program, assuming intelligent selection of a High School program by parents and pupils is made, guided by our professional staff. The following graph clearly indicates that our pupils take advantage of our quality school program.

APRIL 1961
GRADE 8 ACHIEVEMENT TEST RESULTS
NORM 8.7

JOSEPH J. PETROSKI

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I hereby submit to you my report as principal of Sanford High School:

Enrollment

The enrollment as of October 1, was 865 and the present enrollment is 852. The reasons for the net loss of 13 students are as follows:

Transfers to other schools	3
Illness	5
Married	2
Working	4
Service	1
Lack of interest	5
Withdrawn	1
Transfers to S. H. S.	6
Entered late	2

Faculty

There have been several faculty changes this year. Mr. Merton Poore, who taught Driver Education last year, was transferred to the Science Department to take the place of Mr. William Paul who accepted a position in Stamford, Conn. High School. Mr. Jay Boomer, from Island Falls High School, is the new Driver Education teacher. Mr. Blaine Jack, from Crosby High School in Belfast, was added to the Business Department. Mrs. Barbara Roberts returned to that department after having been out of the teaching profession for a year. These two teachers have taken the places of Miss Claudette Larochelle who left the teaching profession and Mrs. Ina McConnell who accepted a position at Portland High School. Miss Edna Bailey, a former Sanford High English teacher, returned to take the place of Mr. Howard Proctor. Miss Rose Beal accepted a position in Darien, Conn. and Miss Arlene Jackson has filled her position in the Physical Education Department. With the return of Mrs. Wilma Rollins to the Mathematics Department, Mrs. Myrtle Weiss was transferred from Mathematics to English. Mr. Galen Veayo, from Madawaska High School, was added to the Social Studies Department. After school began in September, Mr. Edward Botka, Industrial Arts teacher, accepted a position in Darien, Conn. and Mr. Carl Hurd came from the Hamlin School to fill his position, temporarily.

All of our new teachers have assumed their duties with

EDUCATION

earnestness and enthusiasm.

Sports

Sanford High finished its first season in Class A with a very poor record. This came as no particular surprise as there were comparatively few Junior and Senior class players on the team. Prospects for the future look especially good, however, as graduation will have less effect than usual. The present squad was weighted heavily with Sophomores while the Freshman team this year was probably the strongest in many years. Plans are under way to add an experienced football coach to the coaching staff when a new teacher is hired.

If Sanford High is to compete successfully in Class A football, it must have a sufficient number of coaches to see that all the members of the squad receive the necessary attention.

In basketball, the last year's team once again compiled an excellent record to assure its inclusion in the Western Maine Basketball Tournament. At this point, it is not at all certain that the team this year will again "make" the tournament. Junior Varsity and freshman teams are strong, however. This promises another excellent varsity team in the near future.

The Wrestling Team, under the tutelage of Coach John Caramihalis, won a state championship for Sanford High School in 1961. Although hit hard by graduation, Sanford should have another strong team this year.

Physical Education

At a time when physical fitness of youth on a national level is being stressed, the Physical Education Program at Sanford High continues to achieve very satisfactory results.

In the boys' Physical Education Department, the Navy Standard Physical Fitness Tests have been continued. The test is composed of five exercises and is a measure of a boy's fitness in the following categories:

- Shoulder strength
- Arm strength
- Leg strength
- Abdominal strength
- Coordination
- Endurance

A year ago the percentile score was 52.7 and this year's score 59.8. This shows a decided gain for two years as the score for boys two years ago was 49.6.

The Sanford High girls are also showing improvement in strength and agility as measured by the tests of the American Association of Health, Physical Education and Recreation.

EDUCATION

Music

Because of the increased school enrollment this year and the necessity for the use of the gym every period of the day for physical education, the band has been forced to rehearse in the multi-purpose room in the basement. By the use of acoustical tile for walls and ceilings that room is being adapted quite satisfactorily for band use.

The number of Glee Club members has been increased to 85 and for the first time a Christmas Concert was offered to the public.

Art

Because of increased enrollment, it has been necessary to convert the art room in the academic building to a classroom. This has not, however, created a hardship as high school students travel to the nearby Junior High for lessons in Art. Sixty students are enrolled and work is being done in the following: Tempera and water color painting, pen and ink, pencil and charcoal technique. Some time is also given to understanding the use of art elements and principles in the development of abstract art.

Guidance

During the past year, the Guidance Director has conducted over 2000 student interviews of all types—planned, routine, curriculum, etc. and has had approximately 100 interviews with parents. In addition to the many reading comprehension, mental, and aptitude tests given during the year totaling 1304, he has administered the following large-scale testing programs:

1. The National Merit Scholarship Qualifying Tests—March, 1961.
2. The College Entrance Examination Board Tests (Sanford High School is an established area center for administration of these tests four times a year: December, January, March, and May).
3. The Preliminary Scholastic Aptitude Tests—October, 1961 (for Juniors who are planning to go to college)
4. The Maine Employment Security Commission Tests of Occupational Skills—December, 1961 (for Seniors not planning to attend college)

Many Sanford High 1961 graduates were accepted for further education. The distribution is as follows:

24% in degree-granting colleges
12% in other types of schools

Placement of 1961 graduates in employment was done by the Maine Employment Security Commission in cooperation with

EDUCATION

the Guidance Staff.

The high school enrollment for September, 1962, will probably number about 1000 students. It will be impossible for one guidance counselor to meet the various needs of all these students.* At least one additional full-time counselor will be needed, with more office space and appropriate equipment and supplies, if the school is to provide adequate guidance services and retain its accreditation by the State Department of Education. One full-time counselor for every 400 students is recommended by the State Department.

Enrollment

Projection of high school enrollment figures for the next two years makes it evident that, unless the present dropout rate increases, the figures for the 1962-1963 school year will total nearly 1000 with another very substantial increase in 1963-1964. The capacity of the three high school buildings is about 1000 and then only if presently planned adjustments are carried out. It is planned to move the Industrial Arts shop to the Vocational building and convert the vacated shop area to a large study hall. A lumber room and shop office may also be available for conversion to classrooms.

Civilian Defense

At a meeting of the school board members and administrators at a recent New England School Development Council conference, the top item of the agenda was a consideration of policies relating to "Shelters and Schools". Administrators present were called on to help formulate a national policy on civil defense for our schools. In a letter to the National Education Association, the group stressed the need for strong leadership at the national level in this matter.

School administrators throughout the nation, puzzled by the conflicting plans from various agencies and feeling that time is of the greatest importance, are clamoring for quick and sound action.

Should adequate shelters be built here for Sanford High students? What is meant by adequate shelters? How nearly adequate is our best shelter—the basement of the gymnasium? Should we try to evacuate our students in case of an attack? Under what conditions should we use evacuation as a procedure? Should we attempt to keep part or all of our students in the best shelter we have at present?

Pending the formation of a national policy, we have, to date, acting with the advice of the county Civilian Defense group, taken the following steps:

1. A drill whereby all students are stationed at the safest places possible **within the buildings.**

EDUCATION

2. The stocking of food and water for a small group of students who would have little hope of arriving home before possible fall-out.

3. A study made of the other facilities and necessities requisite in event of attack.

4. A carefully worked out plan for evacuation of most of the students to their homes.

Under the evacuation plan, the number of students on each street has been placed on a large map of the town of Sanford. Checking again with the Civil Defense as to the probable time available before fall-out could be expected in the event of an attack, it has been planned that students within a certain fixed area should walk home. Others at a greater distance have been assigned to student, teacher, and school vehicles. Consultations have been carried on with out-of-town bus drivers and arrangements made for quick runs to the school to take care of students from their areas.

It is quite probable that the entire picture of civil defense in regard to school children will change at any time. A national plan may be nearly complete at this very moment. If and when such a plan is promulgated and becomes feasible for Sanford High, this school will act immediately to implement it upon authorization by the Sanford School Committee.

Conclusion

"Promotion of the general welfare is a central concern of any democratic society. The maximum welfare for a group is achieved when each member of that group contributes as much as he is able." This philosophy is applied also within Sanford High School. It has long been the policy of the administration and the faculty to try to induce each student to work to his capacity. Necessarily, results will differ to a marked degree. Students have begun to realize, however, that a high school diploma is practically a "must" and that post high school education of some kind is imperative if it is at all possible. Our administrators and teachers will continue, as they have in the past, to strive to improve the quality of education for the majority and at the same time build up the education for the more gifted.

I would like to thank you, the school committee and all others whose cooperative efforts have made Sanford High a better school.

Respectfully submitted,

LAWRENCE L. PAGE, Principal

EDUCATION

REPORT OF THE JUNIOR HIGH PRINCIPAL

January 3, 1962

TO: Superintendent of Schools

FROM: Principal of Junior High School

SUBJECT: Annual Report

I hereby submit my report as Principal of Sanford Junior High School.

Enrollment

The enrollment as of September 8, 1961 was 360 pupils, with 186 pupils in the seventh grade and 174 pupils in the eighth grade. The present enrollment is 364, an increase of 4. The enrollment of the Junior High School in September of 1959 was 308. The enrollment has increased 56 since the opening of Sanford Junior High School.

Daily Attendance

Daily attendance has continued to be exceptionally good throughout the whole year. Percentage wise the daily absenteeism still remains between two and three percent of the enrollment.

Faculty

At the Junior High School the teaching staff has remained the same as last year. Over fifty percent of the teaching staff have done extension work in the past year by attending summer school, Saturday classes, and evening school.

Condition of Building and Equipment

The building and equipment still remain in excellent condition, as proper service and maintenance is being given to both by the custodians, Mr. Lawrence Dart and Mr. Eugene Gerry. Mr. Gerry was appointed custodian to fill the vacancy following the resignation of Mr. Alvah Jellerson.

Teaching Materials and Aids

The Junior High School has continued to make improvements in teaching materials and aids. Many fine improvements have been made in the school library under the supervision of Mr. Raymond Archambault. At the present the library has over thirteen hundred books that have been processed and catalogued. Daily circulation averages over a hundred books. There should be an increase in the number of volumes and other materials to meet the needs of the pupils. The library is one of the most important learning centers of the school.

EDUCATION

Curriculum

There has been only one change in the curriculum this year. Modern Language has been put on an elective and selective basis.

On December 22, 1961, Sanford Junior High School received certificate for basic Approval of Secondary Schools from the State Department of Education.

In conclusion I wish to thank the members of the Sanford School Committee, Dr. Petroski, members of the Junior High Faculty, parents, pupils, and custodians for the excellent co-operation given me during the past year.

Respectfully submitted

BURT WHITEHOUSE

EDUCATION**REPORT OF THE
PRINCIPAL OF GENERAL EVENING SCHOOL**

To the Superintendent of Schools:

I herewith submit to you my report as principal of the General Evening School conducted at the Sanford High School for the year 1961.

The following courses were completed this year in the General Evening School:

Americanization
Beginners Typewriting
Advanced Typewriting
Beginners Bookkeeping
Advanced Bookkeeping
Sewing

I was very sorry that we were unable to open classes in American History, Mathematics, English and French. An enrollment of ten people is necessary to start a class; the above courses did not meet the requirements.

In conclusion, I wish to express my appreciation to you, to the School Committee, to the teachers, to the students, and to all others who helped make the General Evening School successful.

Respectfully submitted,

ITHEL E. PRESCOTT

Principal General Evening School

EDUCATION

REPORT OF THE VOCATIONAL EVENING SCHOOL FOR 1961

Registration for the Vocational Evening School program was held at Sanford High School on January 8th and 9th, 1961. 148 registered for the following Vocational courses: Heliarc Welding, Technical Auto Mechanic (Fuels and Carburation), Farm Welding, Commercial Art, Rug Braiding, and Technical Automotive (Automatic Transmission) course.

Registration was held again in the fall on October 2nd and 4th. This time 134 registered for the following courses: Commercial Art, two courses in Heliarc Welding—Beginners and Advanced, Machine Shop, Landscaping Course, Dairy Management, General Welding—Acetylene and Electric, Blue Print Reading, and Fabrication and Assembly at Colonial Aircraft Corporation. The following courses, dates and the number who completed them, are listed below:

Courses	Dates of Same	Number of Enrollees
Heliarc Welding	Jan. 4, 1961	26
Technical Auto	Nov. 29 - Feb. 2	24
(Fuel Systems and Carburation)		
Farm Welding	Jan. 9 - March 9	15
Rug Braiding	Jan. 16 - March 22	20
Commercial Art	Jan. 9 - March 22	18
Technical Auto	March 7 - May 4	21
(Automatic Transmission)		
Commercial Art	Oct. 2 - Dec. 15	32
Beginners		
Advanced		
Heliarc Welding	Sept. 2 - Dec. 14	22
Machine Shop	Oct. 30 - Dec. 19	15
Landscaping Course	Oct. 17 - Dec. 19	15
Fabrication & Assembly	Sept. 19 - Dec. 12	15
(At Colonial Aircraft)		
Dairy Management	Nov. 2 - Jan. 18	16
General Welding	Oct. 2 - Dec. 7	15
Blue Print Reading	Oct. 2 - Dec. 7	14

New skills, ideas, facts and attitudes are needed to cope with the rapid and continuous changes now going on in the world. Production methods are quickly outmoded by new inventions. New techniques must be learned and the Evening School program provides opportunity for those who want to learn. Again, we are glad to report continued cooperation between local industries and the School Vocational program.

Respectfully submitted,

CARL J. LAMB

EDUCATION

REPORT OF SCHOOL NURSING SERVICE — 1961

To the Superintendent of Schools:

Following is the report of the school nursing service for the past year:

The program was carried on by one full-time public health nurse, one nurse employed part time, two physicians one optometrist, and one podiatrist. The school department personnel, parents and community resources assisted in completing integrated health care for the individual student.

Individual care for students was conducted in certain areas. Following are specific explanations of these areas:

1. Physical Examinations

As in former years, students in the sub-primary, fourth, seventh, and tenth grades, plus new students in our system, were examined. Also, students attending Junior High School and participating in competitive sports were examined. A total of 1024 students were given physicals. Parents were notified of deviations from normal findings. Teachers were notified of such deviations if the condition affected the scholastic ability of the student. Results of these physicals were recorded on the students' cumulative health record. A follow-up nursing program to assist families in securing needed corrections was carried on. At present we have 65% of this year's referrals cared for.

2. Sight Conservation Program

Students in grades having physicals were given a vision examination by an optometrist. Also, students referred by teachers were examined. 61 were referred for further care, 32 have received corrections to date. As in all the programs, the teachers were notified of ones needing care so classroom seating arrangements could be fitted to the individual student. Financial assistance for glasses was secured for six children.

3. Urinalysis Program

As part of the physical examination we examined those students for albumen and sugar. 881 students received this test; 3 were found to be positive for sugar and referred to their own family physicians.

4. Program for Care of Feet

Discomfort and deformities are prevented by such examinations. Here again, students having had physical examinations were given a complete foot examination, plus recommendations by a podiatrist. A detailed description of findings was sent home to parents.

EDUCATION

5. Program for Hearing Conservation

The Maico Pure Tone Audiometer was used for individual testing of 646 children. We tested sub-primary, new students, ones referred by teachers, and ones being followed by the nursing service. 20 students were found to have hearing below average. Of this number 14 received care from their physicians.

6. Services at the High School Health Unit

One nurse spent five hours daily at the High School. This service included, as in the past year, health counselling, first aid care, care for temporary illness and school dismissals because of illness, 1436 visits were made by the students to the nurse in attendance at the unit.

7. Mental Health Program

a. This area was one of the weakest in our school health program. In a school population the size of ours it is inevitable that we have children in need of specialized psychiatric help and guidance. The school nurse has attended community committee meetings pertaining to this need, assisted in a community survey to ascertain facts for need of a mental health program, an given individual counselling to children and parents of children presenting behavior problems. However, the nursing service was not trained or prepared for such work and looks forward to the time when these emotionally disturbed children will have the benefit of specialized assistance.

b. We have twelve known mentally retarded children at home—not attending school because of too low mentality. These children are teachable if not educable and here again we recommend that serious consideration be given for a group program for these children.

8. Program for Prevention of Contagion

- a. The health officer attended clinics. At these clinics
- 301 Salk Polio doses were given.
 - 285 Diphtheria and Tetanus injections were given.
 - 96 children received smallpox vaccinations.

b. Teachers were notified as their chest x-rays became due. A record file pertaining to these x-rays was kept in the nurse's office and arrangements made for 20 members of school personnel to have x-rays at Goodall Hospital.

c. As in former years, parents of sub-primary and new students were given rules and routine in relation to contagious diseases.

9. Other Activities

a. Four children unable to attend school because of physical difficulties have had home instruction.

EDUCATION

b. 66 children received free milk at time of mid-morning lunch. This free milk fund is controlled by the Searchlight Club of Sanford.

c. 18 children were referred to the cafeteria for free lunches.

d. Arrangements were made for three children to visit the crippled children's clinic in Portland.

e. Arrangements were made for eight children to have psychometric examinations.

f. First Aid cabinets were outfitted with first aid equipment.

g. A folder holding routine for the school nursing service was prepared for each school.

h. Arrangements were made for two children to have tonsils removed at clinic service.

i. Explanation of school health service was given to parents of children registering for school.

j. Total visits to classrooms for consultations with teachers, and to carry on the program—891.

k. 136 home visits were made for consultations with parents.

In conclusion, we feel that the individual student benefited from the above program, and is better equipped, physically, to undertake his daily routine.

Respectfully submitted,

LAURA E. TABOR, R.N.

School Nurse

Wilbrod A. Mailhot, term expires December 31, 1962

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1 to December 31, 1962

To the Citizens of Sanford:

We, your Selectmen, Assessors and Overseers of the Poor, respectfully submit the following report for the year 1962.

The reconstruction of Main Street seems to be a project of vital interest and concern to many of our citizens, as it is to us. At this time we would like to explain that due to replacement of old conduit lines in the street by the New England Telephone & Telegraph Company, which work could not be completed before the ground froze, it was necessary to postpone this work for the year 1962. The funds available for this work have been reserved, and work on this much needed project will be resumed in the spring of 1963.

Bringing the Municipal Airport into a more usable condition has been accomplished this year, by repairing the beacon, which will be activated in the spring of 1963, and the installation of runway lights on the Northwest-Southeast runway. These repairs will increase the safety and usability of this field by commercial and private planes, and should be an added asset when the community is being evaluated by prospective industries.

The expansion of American Cyanamid in the Sanford Industrial Estates is the highlight of the year, and continues to spark new enthusiasm amongst all our citizens. Many thanks go to the Chamber of Commerce and the Industrial Development Committee for their excellent work in this field of endeavor. Economically, we believe Sanford has come a long way.

It is gratifying to notice the turn toward improvement of our commercial establishments, both face-lifting on the outside and modernization of the inside. We believe these investments by the owners will be profitable to them, and at the same time giving Sanford a more modern and prosperous appearance.

An increase in estimated cost of construction of taxable property during the year 1962 has been evidenced in the office of the Building Inspector. An analysis of these estimated costs show an increase of \$435,000.00 in the year 1962 over the year 1961. This will result in a sizable increase in the total property assessment figure.

The revaluation of all properties by professional appraisers will be completed for use in the 1963 tax assessments, and should result in a more equitable tax structure. Part of this work was done in 1961, and has been continuing through 1962. Men who are highly trained in their particular fields have been used, namely, industrial, commercial and residential properties, and the results should be beneficial to both the town and the taxpayer.

The welfare department has seen an increase in the case load over the past few months, but investigation does not prove that it is due to any one cause. It seems to be a temporary condition which will level off in a short period.

The cooperation of all town departments has been very helpful in conducting our work and attaining our goals. The clerical department has been very cooperative and showed their efficiency and ability in helping us to better serve the public.

Respectfully submitted,

NORMAN S. HALL

THEODORE C. GAUTHIER

HENRY J. DESMARAIS

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
SANFORD FIRE DEPARTMENT**

January 28, 1963

To the Board of Selectmen:

The Board of Engineers of the Sanford Fire Department submit the following report for the year 1962.

The fire fighting equipment is in the best possible working condition. Engine #4 needs to be replaced as it is way overloaded and it is worn out from much use. The equipment is checked regularly and repairs are made where needed. A new 750 gallon pumper was delivered this year and it has been a big help to the department as it can be used outside the hydrant limits as well as in Town.

The fire alarm system and the fire station are in good repair, but the alarm system should be extended to many areas.

The ambulance is now in good condition, after air bags were added to the coil springs, different tires added and repairs made to the heating system. It answered 293 calls—traveled approximately 3,000 miles and earned \$4,225.12.

We would like to thank the Board of Selectmen—Marion, Lucienne and Anita—Springvale Fire Department—Police and Highway Departments—Water District—Garage Crew and each and every person who helped us during the year 1962.

FREDERICK HAMMOND, Chief

CHARLES PIKE, Assistant

EDGAR WHICHER, Assistant

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE CLERK OF
THE SANFORD FIRE DEPARTMENT**

Sanford, Maine, January 26, 1963

To the Municipal Officers of the town of Sanford

I hereby submit the following report for the Sanford Fire Department for the year 1962.

The Department has responded to 246 calls, 18 Bell alarms, 209 still alarms, 5 False alarms, 12 Fire Drills, and 2 House calls.

Estimated value of property endangered	\$637,500.00
Damage to property endangered	12,345.00
Insurance paid on property endangered	7,324.00
Net loss	5,021.00

Total feet of hose used	25,075
Total pounds of chemicals used	295
Total feet of ladder raised	1,265
Miles apparatus traveled	963.1

Respectfully submitted,

JAMES O. HAMMOND, Clerk

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE BOARD OF ENGINEERS OF
THE SPRINGVALE FIRE DEPARTMENT**

December 31, 1962

To the Honorable Board of Selectmen
Town of Sanford, Maine

Dear Sirs:

The Board of Engineers of the Springvale Fire Department submit the following report for the year ending December 31, 1962.

The Springvale Fire Station and Fire Fighting equipment are in very good condition, except the Ladder Truck that will be replaced by an Aerial Platform (Snorkel) Truck about July of 1963. The Truck equipment in Springvale consists of a 1926 Ladder Truck, 1935 Seagrave Pump, 1944 Seagrave Pump, 1948 Pump & Water Tank, 1951 Pump & Water Tank, 1954 Pump & Water Tank, 1948 Jeep.

The Permanent men have made 745 building inspections in schools, churches, business places and shoe factories this year.

We would like to thank the Selectmen and their clerks, the Sanford Fire Department, Police and Highway Departments, Call and Permanent Firemen, Ladies Auxiliary, Springvale Fire Reserves, The Salvation Army, and the Civil Defense Police for their cooperation and assistance in the past year.

Respectfully submitted,

ELMORE L. HANSCOM, Chief

HILLIARD M. BOOTHBY, Asst.

RICHARD HANSON, Asst.

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE CLERK
OF THE SPRINGVALE FIRE DEPARTMENT**

December 31, 1962

To the Municipal Officers of the Town of Sanford, Maine

Dear Sirs:

I hereby submit the following report of the Springvale Fire Department from January 1, 1962 to December 31, 1962.

The Springvale Fire Department has responded to 111 alarms consisting of 105 still alarms, 9 bell alarms and 6 drills.

Total property endangered	\$450,000.00
Damage to property endangered	10,150.00
Insurance paid on property endangered	6,250.00
Loss	3,900.00
Number of feet hose laid	7,925
Number of feet of ladder raised	725
Number of miles apparatus traveled	3,070
Number of hours apparatus pumped	13 hrs. 55 min.

Respectfully submitted,

JACK LAWRENCE, Clerk

PROTECTION OF PERSONS AND PROPERTY**REPORT OF
CIVIL DEFENSE AND PUBLIC SAFETY**

To the Honorable Board of Selectmen:

Gentlemen:

Again we have reached the end of another year and can truthfully say we feel we have accomplished a great deal.

I feel that the past year has been successful for Civil Defense and the Town of Sanford, through organizing more phases of Civil Defense.

The Feeding Unit has been out on two searches in Waterboro, also on several training missions. We have great hopes in having a trained Rescue Team, a Radiological Team and seven Mobile Radio Units to cover the town of Sanford in emergency.

I, the Director of Sanford Civil Defense, will work with both Fire Departments, Sanford Police Department, Civil Air Patrol and all others when called.

As of this date we have 12 Fallout Shelters all posted, with supplies coming in each week for them.

I wish to take this opportunity to thank all those persons who have aided me in my attempt to make "Civil Defense and Public Safety" program workable since my appointment as director.

Respectfully submitted,

RALPH MARSHALL, Director

HEALTH AND SANITATION**REPORT OF THE
HEALTH OFFICER FOR THE YEAR 1962**

To the Selectmen, Town of Sanford, Maine

Gentlemen:

As Health Officer for the Town of Sanford for the year of 1962, I herewith respectfully submit a report of health activities during the current year.

Medical and surgical care was given to welfare cases when and where needed. Town and State patients were visited and cared for at the Town Infirmary and surrounding nursing homes. Office and house visits were rendered to patients needing care and treatment.

As required by State Law a free clinic was held at the Sanford Town Hall. These were well attended. Mrs. I. McCann, town welfare nurse, assisted.

As in previous years all public and parochial schools were visited. School children with consent of parents were vaccinated against smallpox and inoculated against diphtheria, whooping cough and tetanus. Initial doses were begun when needed, boosters were given as required. Polio vaccines were given as needed and requested.

All clinics were under the supervision of the School and Community Health Association nurses. As in the past they continue to be good organizers and working with them has been a pleasure.

Infringements of plumbing and sanitary laws were investigated as received.

Contagious diseases were dealt with as required by law.

Respectfully submitted,

A. S. LINCOURT, M.D.

Health Officer

HEALTH AND SANITATION

REPORT OF THE COMMUNITY HEALTH ASSOCIATION, INC. — 1962

To the Citizens of Sanford:

1. The directors and nurses of the Community Health Association carry on a public health nursing program which is recognized as satisfactory by the State Department of Health and the United States Public Health Service.
2. The form of this report is similar to other years. This type of work requires routine impersonal reporting—for the confidential aspect of contacts with patients must be respected.
3. Financial support is received from a town appropriation, volunteer contributions, and fees from patients. An overly large proportion of bedside nursing this year has been gratis.

Services were available for any citizen.

4. Two full-time public health nurses are employed. Although there have been changes in the nursing staff, we have been fortunate in being able to offer a continuous nursing program in the community. Mrs. Hazel Drown, R.N., tendered her resignation January 15, 1962, to become the nursing supervisor in the Public School system. Mrs. Pauline MacLeod, R.N., replaced her as supervisor of nursing services. Mrs. Hazel Flagg, R.N., was employed January 8, 1962, as staff nurse. We are most fortunate to have Mrs. Flagg with us, a conscientious nurse of wide experience.

In December we were saddened by the death of our treasurer, Mr. Harold A. Dudgeon, an ardent and devoted worker for the welfare of the Community Health Association.

5. **The Following is a summary of the number and types of visits made:**

338 Office calls by acutely ill patients
634 Home visits for chronically ill patients

HEALTH AND SANITATION

Health Supervision Home Visits

- 134 Visits to cancer patients
- 125 Visits to cardiac patients
- 164 Visits to crippled individuals
- 157 Visits to tuberculosis patients, suspects, and contacts
- 61 Visits to diabetic patients
- 991 Visits to infants, pre-school and school children
- 373 Miscellaneous calls
- 3 V D

Clinics

- 10 Chest clinics—94 persons x-rayed. The x-rays taken at the Goodall Hospital were read at the Central Maine Sanitarium. Follow-up care was provided as needed.
- 10 Foot clinics—99 attended. Dr. Henry P. Landers, D.S.C., in charge, assisted by a Community Health Association nurse.
- 10 Immunization clinics—Dr. Walter Peterlein, assisted by the nurses and volunteer helpers from the Board of Directors of the Association administered:
 - 941 Salk Polio vaccine
 - 319 Diphtheria, whooping cough, and tetanus injections
 - 126 Smallpox vaccinations

Total Number of Personal Contacts — 4,559

The nurses were pleased to assist A. S. Lincourt, M.D., Health Officer, with the yearly free immunization clinic sponsored by the Town of Sanford.

An immunization program was carried on in the three Parochial Schools, A. S. Lincourt, M.D., in charge, assisted by the nurses.

Eye glasses for several of these children were provided by a local Civic Organization through our efforts.

We have furnished transportation, when time allowed, for patients to attend tumor, cardiac, and tuberculosis clinics sponsored by the State of Maine Health and Welfare Department, at the Maine Medical Center, Portland.

The Sanford-Springvale Health Camp at Highpine, Maine, was in session for a seven-week period this summer, under the able direction of Mrs. Helen V. Perkins, R.N. 31 local children attended.

HEALTH AND SANITATION

At Christmas time our Social Welfare Committee prepared gifts and boxes for our patients. Clothing was purchased and carried to 30 children, the monies coming from a friend and Civic Organization—also a Christmas basket.

Toys from the Portsmouth Naval Shipyard were distributed to 40 children.

Eighteen children were supervised by the nurses at the Kiwanis Holiday party.

In executing the work the past year, it has been evident to us the dire need of a Mental Health program in Sanford. We hope within the very near future that this can be accomplished.

As a finale to this report, we thank the President and the Directors for their help in our endeavor to carry on a cooperative program for the benefit of the community.

Respectfully submitted,

PAULINE D. MacLEOD, R.N.

Supervisor of Nursing Services
Community Health Association

IN APPRECIATION

In behalf of the citizens of Sanford, I wish to express appreciation for the donation of land by Dr. S. A. Cobb, Dr. H. D. Ross, Mrs. Lydia Pepin, and Mr. and Mrs. Wilbur Jellerson, to make possible the improvement of the street at the intersection of River, Winter and Cottage Streets.

Through the efforts of Mr. Carl Seibert and Mr. Louis Gordett of the Eastern Plastic Corporation, land was donated to improve the corner of Pioneer Avenue and Washington Street. The lessening of hazard at this location is greatly appreciated.

NAPOLEON ALEXANDRE

Road Commissioner

REPORT OF THE PARK COMMISSION ACTIVITIES

The Park Commission realized an extremely busy and active year in 1962. We received an enthusiastic interest by the people of Sanford in our tree-planting program as we usually do each year. We were also able to show a balance in our account at the end of December 1962.

Under Parks and Playgrounds, a total attendance of well over 16,000 children was attained during our 8-week summer program. The Elizabeth Benton facilities attracted 6948; the Carpentier playground a total of 6980; and 2840 children used the facilities of the Springvale playground. Tennis instructions were instituted in both the Springvale and the Elizabeth Benton playgrounds. The tennis program was an outstanding feature to our summer program. Arts and Crafts activities were carried out at each playground very ably by the assistants in each area.

The William Oscar Emery Drive received attention in the planting of more trees and the fertilizing of the grounds and shrubs.

New equipment was added to the playgrounds as well as the Gowen Park areas. The skating area was increased in size; better lighting was added; and the shelter facility was continued.

The usual spring spray program was completed. An added spray was done later in the summer. The Park Commission plans a more thorough spray and tree protection program this coming spring and summer.

Our athletic activities at Goodall Park were carried out through the summer with great success. Over 6500 athletic activities were held there during the year. These ranged from the summer baseball leagues to the high school leagues with use of the area being made by Sanford High, St. Ignatius, and Nasson College. The Junior Legion League, Midget League, Babe Ruth League, and some informal playing were carried out. It is our desire to make full use of the Goodall Park area for the interest of the children and schools of Sanford.

RECREATION

An enlarged summer program; better facilities at the skating area; better and more picnic facilities at the Gowen Park area; and more events are scheduled for 1963.

We hope you will take advantage of the Park areas and facilities. We hope you are interested enough to venture suggestions to better our program. We hope to continue to serve the people of Sanford efficiently.

JOSEPH DESCHENES

ROLAND LANGLAIS

CHARLES H. BLOUIN

ANNUAL REPORT

Town Clerk and Tax Collector

January 1 to December 31, 1962

REPORT OF VITAL STATISTICS

BIRTHS

There were three hundred and eighty-five (385) births recorded in this office for the year 1962. This figure shows a decrease of seventy (70) births as compared with the year 1961.

Of this number, one hundred and ninety-five (195) were of the male sex and one hundred and ninety (190) were of the female sex.

In addition, seventeen (17) births were reported from other city and town clerks during this same period.

"We'll Have Forests To Use And Sight's To See,
If We Keep Maine Green In '63"

KEEP MAINE GREEN

157 Main Street
Sanford, Maine
February 18, 1963

Mr. Norman S. Hall, Chairman
Selectmen, Assessors and Overseers of the Poor
Sanford, Maine

Dear Mr. Hall:

In accordance with Municipal accounting and auditing practices described in Chapters 311 and 504 Public Laws of 1957 and at your request, the records of the Town of Sanford have been audited for the Year ending December 31, 1962 through the weekly warrants and the monthly Income trial balances.

The General Fund Cash Balance and the Special Account Balance as noted in the Balance Sheet as of December 31, 1962 were reconciled periodically with the bank statements. I herewith enclose my report of this audit with supporting schedules and questionnaire.

I hereby certify that the records of the Town Treasurer, Selectmen, Superintendent of Schools and Town Clerk and Tax Collector of the Town of Sanford have been audited for the Year ending December 31, 1962 and found to be correct.

Respectfully submitted,

MARGARET M. SHAW

Auditor

157 Main Street
Sanford, Maine

Mr. M. A. Napolitana, State Auditor
State Department of Audit
Augusta, Maine

Dear Mr. Napolitano:

I am enclosing a certified copy of my report of the Audit of the Town of Sanford, Maine for the Year ending December 31, 1962.

This report is on file in the Office of the Selectmen of the Town of Sanford, Maine.

Respectfully submitted,

MARGARET M. SHAW

Auditor

SCHOOL COMMITTEE

Roland A. Gauthier, term expires December 31, 1963
Dr. Maurice J. Morin, term expires December 31, 1964
George S. Willard, term expires December 31, 1965

Chairman 1962 — George S. Willard

Superintendent of Schools — Joseph J. Petroski, Ed. D.
13 Brompton Street, Sanford
Telephone 324-2169 Office 324-2810

Secretary, Mary E. Pascucci
6½ Pearl Street, Sanford
Telephone 324-2689 Office 324-2810

Secretary, Beatrice P. Landry
29A Kilby Street, Sanford
Telephone 324-6098 Office 324-2810

Office Hours
8:30 to 12:00 noon 1:00 P.M. to 5:00 P.M.

SCHOOL SIGNALS

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

Information on the "No School Signal" will be given over the following radio stations: Station WWNH, Rochester, N.H.; and Station WSME Sanford.

The "No School Signal" for the High School is sounded at 6:45 A.M.

On occasions when the "No School Signal" is sounded at 7:45 A.M., there will be no school in the elementary schools for the entire day. The reason for this is the impossibility of securing buses and setting up bus routes during the noon hour. The signal for the afternoon session is sounded at 12:15 P.M.

EDUCATION

ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS

Historically, the citizens of Sanford have desired and supported quality schools, insisting only that quality be purchased at reasonable cost. This position appears sound today and equally sensible for the future.

The elements which make up quality education are the concern of this report.

The critical element in quality education has been, is now, and I suspect will continue to be, the calibre of the teacher employed. Quality education in a school system reaches fruition at the High School level—the four years just prior to further training or entry into the adult world of work. How does Sanford High measure up? What are the facts?

A measure of quality in a school is the training and experience of its teachers. The following tabulations speak for themselves.

TABLE 1

Sanford High School

Training Level	No. of Teachers	Percent of Total Staff
Masters Degree	13	26.5
Bachelors Degree	31	63.2
No Degree	5*	10.2

* Specialists in Music (2); Vocational Education (3).

TABLE 2

TABLE 3

Sanford High School Teachers

Experience as of September, 1962

Years of Experience	No. of Staff	Percentage of Total Staff
0	4	8.1%
1	1	2.0
2	5	10.2
3	0	
4	1	2.0
5	1	2.0
6	3	6.1
7	1	2.0
8	1	2.0
9	1	2.0
10 or more	31	63.2

The teachers at the Junior High and the Elementary schools are equally qualified by training and experience to render quality service at their respective grade levels. To tabulate their training and experience would belabor the point established above.

To keep good teachers and recruit qualified replacements a competitive salary schedule must be maintained. The following table illustrates Sanford's relative position.

TABLE 4

Average of Teachers' Salaries Maine Cities and Towns with a Population of 10,000 and over

1961-2			1962-3		
	No. of Teach.	Average Salary		No. of Teach.	Average Salary
1. Rumford	90	\$5601	1. Rumford	94	\$6133
2. South Portland	233	5574	2. Portland	581	5695
3. Portland	579	5493	3. South Portland	240	5682
4. Bangor	294	5350	4. Brunswick	150	5513
5. Bath	204	5225	5. Bath	118	5454
6. Brunswick	144	5169	6. Bangor	299	5394
7. Westbrook	132	4977	7. Westbrook	133	5365
8. Augusta	174	4964	8. Lewiston	197	5230
9. Auburn	204	4858	9. Waterville	134	5146
10. Waterville	128	4816	10. Augusta	189	5137
11. Lewiston	169	4812	11. Auburn	210	5059
12. SANFORD	111	4792	12. SANFORD	117	5033
13. Caribou	112	4677	13. Caribou	115	4848
14. Biddeford	69	3867	14. Biddeford	73	4311

In 1959-60 Sanford was in 10th position, dropping to 12th in 1960-61, remaining in that position up to the present.

In its effort to keep salaries competitive your School Committee has established the following salary schedule for the coming school year.

EDUCATION

TABLE 5
SANFORD SCHOOL DEPARTMENT
Salary Schedule

Effective September 1, 1963

Experience	No Degree	B. A. Degree	M. A. Degree
0	\$3500.	\$4100.	\$4300.
1	3600.	4250.	4450.
2	3700.	4400.	4600.
3	3800.	4550.	4750.
4	3900.	4700.	4900.
5	4000.	4850.	5050.
6	4100.	5000.	5200.
7	4200.	5150.	5350.
8	4300.	5300.	5500.
9	4400.	5450.	5650.
10	4500.		
11	4600.		
12	4700.		

An essential element in quality education after a qualified teaching staff is employed is how the work load for this staff is organized. The most important consideration is how many students the teacher has in any given learning situation. To assign too many pupils for a given activity to any teacher defeats the basic purpose for which schools exist. It is our intent for the future, as in the past, to keep the size of classes such that the learning experiences of all pupils will be of the best possible quality.

With the above in mind it appears that six additional teachers will be needed for next year—two at the elementary level and four at the High School.

When qualified teachers have reasonable work loads and class sizes then teaching methods and materials become a factor in quality education. Teaching methods and materials evolve from the purpose of education as viewed by those involved in the total educational process. The lack of unity of purpose in American education may be said to be its glaring weakness. In Sanford our purpose is to efficiently effect the maximum possible growth and development of each INDIVIDUAL pupil as a person and as a member of our society. This initially means a mastery of the tools of learning, then an evolving awareness of the fields of knowledge as incorporated in the various discipline or subjects, and finally, a recognition of the need for continuous self-directed learning throughout life. The scope and sequence of our school curriculum, with its teaching methods and materials, is designed to do this.

Another factor in quality education is the physical environment within which the learning process is carried on. Over the

EDUCATION

years your school department has been conscious of this factor and our facilities and equipment are in excellent condition. A yearly program of maintenance and repair is carried out as part of an overall long range plan. As an example, last summer the interior of the Emerson School was completely re-decorated. Next summer the Lafayette and Roosevelt Schools will be done. All schools receive yearly attention as needs become evident. The school custodians continue to do outstanding work in this area.

The final factor in quality education, and the crucial one, is the community within which the schools exist. In the final analysis a community gets the kind of schools it wants and is willing and able to support. Without community support quality schools are impossible. The citizens of Sanford are to be commended for their schools today and I am sure that their interest and support will continue in the future.

Respectfully submitted,

JOSEPH J. PETROSKI

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I hereby submit my report as principal of Sanford High School.

Enrollment

The enrollment as of October 1 was 962 and the present enrollment is 931. The reasons for the net loss of 31 students are as follows:

Transferred	13
Lack of interest	11
Illness	3
Married	2
Working	7
Service	1
Transfers to S.H.S.	4
Re-entered	2

The projected enrollment for next year is between 1,000 and 1,050. This will necessitate an increase in the faculty. Full use must be made of all available room in all three high school buildings.

It is felt that for the most efficient results, the maximum number of students should not be much in excess of 1,000. Even though the Sanford School Board is limiting the tuition students in the fall of 1964 to those from the towns of Acton, Shapleigh, Alfred, and Waterboro, these towns may well consider the possibility of consolidated Junior High Schools including grades 7, 8, 9. If this were done, students from these towns would be able to attend Sanford High for their last three years of school. Even though the industrial situation in Sanford improves suddenly and rapidly it would seem that tuition students from these four towns could then be taken care of for a fairly long period of time.

Faculty

Several faculty changes have been made this year. Mrs. Wilma Rollins assumed her duties at Nasson College in the fall. Mr. James Couser, a member of the Mathematics Department, was elected as head of that department and assigned to Mrs. Rollins' classes. Mr. Stanley Masalsky, from Dixfield High School was, in turn, assigned to Mr. Couser's classes. Mr. Merton Poore of the Science Department was granted a leave of absence for a year and has been attending a Science Institute at the University of West Virginia. His position has been filled by Mr. Joseph Goodness, a former student of Sanford High

EDUCATION

School and a graduate of Nasson. Mr. Charles Caramihalis left the Physical Education Department to teach Biology and Mr. Keith Willard, a graduate of the University of Maine, is now assisting in the gym. Mr. Galen Veayo resigned to enter private school teaching and Mrs. Alice Ives was added to teach his English and Social Studies classes. Mrs. Ives is also working with the high school debating group.

Guidance Department

Mrs. Eleanor Rice has been added to the Guidance Department and is entering upon her new duties with enthusiasm.

During the past summer the guidance quarters were enlarged with offices for counseling for both Mrs. Rice and Mr. Charles Towle, guidance director. The guidance area also provides space for occupational reference materials and college catalogues.

As usual Sanford High School graduates were accepted by colleges in all parts of the United States. Recent graduates are attending the following:

Annapolis	Miami Univ. (Ohio)
Aroostook State Teachers	Nasson
College	New York University
Barrington	Northwestern University
Bates	Ohio University
Bowdoin	Plymouth State Teachers
Boston University	College
Colby	Simmons
Dartmouth	Tufts
Eastern Baptist	Upsala
Farmington State Teachers	University of Connecticut
College	University of Maine
Gordon	University of New Hampshire
Gorham State Teachers	University of North Carolina
College	University of Michigan
Holy Cross	University of San Francisco
Jackson	Wentworth Institute
Maine Maritime Academy	Westbrook Junior College
Mass. Inst. of Technology	West Point
	Yale

Summer School

As the enrollment at Sanford High has increased it has been more and more evident that a Summer School session is needed.

The purpose of such a session would be as follows:

EDUCATION

Remedial

It could provide "make-up" courses for those who have failed to complete courses satisfactorily during the regular school year.

Proficiency

It could provide an opportunity for repetition of a course for those who have felt that they had not obtained a high proficiency in a subject.

Enrichment

It could provide an opportunity for increased knowledge and skills in areas in which a student might have lacked time for study during the school year. An example of this might be typing and shorthand for college bound students.

Such a summer session could be limited to 6 weeks with sessions in the morning only and could be set up on a tuition basis with little expense to the town.

Physical Fitness

"The strength of our democracy is no greater than the collective well-being of our people. The vigor of our country is no stronger than the vitality and will of all our countrymen. The level of physical, mental, moral, and spiritual fitness of every American citizen must be our constant concern. The need for physical fitness of our youth is clearly established. The softening process of our civilization continues to carry on its persistent erosion." These are statements by the President of the United States in relation to his Youth Physical Fitness Program. Hubert Humphrey, U. S. Senator from Minnesota, in a recent article in the press, made the statement that winning from or losing to Russia in the Olympics was a much more important factor in the Cold War than the people of America realized. He stated that we should make an all-out effort to step up the physical fitness level of our whole population.

Sanford High is one of a very few high schools in Maine able to offer full time (5 days a week) physical education with a varied and inclusive program and with physical fitness tests which measure conclusively year by year improvement.

Music

A new course in Music Appreciation has been added to the high school program. The objective of the course is to enable the student to enjoy good music, to aid in developing his musical taste, and to broaden his musical background through the study of its literature. At the present time, the course is open to Juniors and Seniors. A text book is used and lectures are given and outside reading assigned.

EDUCATION

Civilian Defense

Civilian Defense, in relation to schools, is still proving to be a problem in nearly all towns and cities in the United States. In some cases, an all-out effort has been made to provide adequate shelters for any emergency. In other cases no effort at all has been made. At Sanford High plans made a year ago have been brought up to date and additional precautions taken for the safety of the students who might need to remain in the buildings in event of an attack.

Evaluation

In April Sanford High School will be host to a visiting committee. This will be the culmination of several months of self evaluation of the school by the members of the faculty. Sanford High is a member of the New England Association of Colleges and Secondary Schools. It is under the auspices of this Association that many hundreds of high schools throughout New England are being visited.

In the dynamic world in which we live today, no high school can afford to rest on its laurels. It can justifiably point with pride to some of its past achievements but must continually strive to meet the demands of the present and the future. There must be a systematic and careful study of its curriculum to the end that its graduates may be able to take their proper places in their communities and in the nation.

Respectfully submitted,

LAWRENCE L. PAGE

EDUCATION**REPORT OF THE
JUNIOR HIGH PRINCIPAL**

January 2, 1963

TO: Superintendent of Schools
FROM: Principal of Junior High School
SUBJECT: Annual Report

I hereby submit my report as Principal of Sanford Junior High School.

Enrollment

The enrollment at Sanford Junior High School as of September 7, 1962 was 359 pupils, with 180 pupils in the seventh grade and 179 pupils in the eighth grade. The present enrollment is 365, an increase of 6.

Daily Attendance

Daily attendance has continued to be exceptionally good throughout the whole year. Percentage wise the daily absenteeism still remains between two and three percent of the total enrollment.

Faculty

There has been one change in the teaching staff at the Junior High School. Mr. Robert Blouin has replaced Mr. Michael Radley in grade seven. Mr. Radley resigned in June, and at the present time is attending the University of New Hampshire in order to further his education.

Condition of Building and Equipment

The building and equipment still remain in excellent condition, as proper service and maintenance is being given to both by the custodians, Mr. Lawrence Dart and Mr. Alfred Williams. Mr. Williams was appointed custodian to fill the vacancy following the transfer of Mr. Frechette.

Teaching Materials and Aids

The Junior High School has continued to make improvements in teaching materials and aids. Many fine improvements are still being made in the school library under the supervision of Mr. Raymond Archambault. At present the library has over two thousand books that have been processed and catalogued. Daily circulation continues to average over one hundred books. There should be an increase in the number of volumes and other materials to meet the needs of the pupils. The library continues to be one of the most important learning centers of the school.

EDUCATION

Curriculum

There have been two additions made in the curriculum this year in the Industrial Arts program. A unit in Graphic Arts is in the process of being developed. Another unit in American Industries began last September.

School Approval

On September 12, 1962, Sanford Junior High School received a certificate of renewal for an approved Secondary School from the State Department of Education.

In conclusion, I wish to thank the members of the Sanford School Committee, Dr. Petroski, members of the Junior High Faculty, parents, pupils, and custodians for the excellent co-operation given me during the past year.

Respectfully submitted,

BURT WHITEHOUSE

EDUCATION

REPORT OF THE ELEMENTARY SUPERVISOR

To the Superintendent of Schools:

I hereby submit my first report as Elementary Supervisor.

The enrollment of the eight elementary schools as of November 1, 1962 was 1426 pupils.

Edison	248	pupils
Emerson	203	"
Hamlin	125	"
Lincoln	237	"
Lafayette	213	"
Longfellow	239	"
Roosevelt	140	"
Hawthorne	21	"

This year the Lafayette School sent fifteen 5th grade pupils to the Hamlin School. By equalizing the enrollment of the 5th grades it eliminated the need of a new teacher.

We are now transporting children by buses from one school to another to keep the classes under 30 pupils if possible.

Five new teachers have been added to the elementary school staff.

Miss Helen Bryant	1st Grade, Edison
Mrs. Marcia Murchie	5th Grade, Emerson
Mrs. Cynthia Sirois	Sub-primary, Emerson
Mrs. Dorothy Thyng	3rd Grade, Emerson
Miss Jane Fogg	Sub-primary, Roosevelt

The Teachers

The average number of years of teaching experience that the 51 elementary teachers and principals have is 14. Thirty-four percent have 20 years of experience and sixty-three have 10 years.

Since our school system has such a high average of teaching experience as this, and an average turn-over of less than five teachers a year, the people of Sanford can be sure that their children are getting the highest quality of education.

Curriculum

The teachers and the supervisor for the last two years have been holding meetings studying and discussing books. We have had a workshop and four meetings with book consultants. The teachers in each grade have chosen the books they think will be the best for the children of Sanford. It will be two or three

EDUCATION

years before all of the elementary schools will be using the same books. No change is made until the books being used are worn out.

We have started a new library outside reading program this year to see if we can stimulate every elementary child from the 3rd grade up to visit the libraries and become interested in reading good books.

The seven schools that have lunch rooms have a total average of about 550 pupils eating either hot or cold lunches daily. About 400 of these are hot lunches.

We are improving and equipping the playgrounds of all the elementary schools. Adequate equipment and proper supervision are necessary to make possible an efficient physical education program.

One of my duties as elementary supervisor is to coordinate the elementary schools of Sanford and Springvale. The teachers and I are working on a testing program for each school. We believe that by this testing children will develop better study habits and be able to retain more facts with greater skill. We anticipate that each pupil will accomplish higher achievement in every subject and that it will be proven in the results of our standardized testing program in the spring.

Some of my other duties include: Working with the principals and teachers with pupils who have extraordinary behavior or scholastic problems; holding individual and group conferences to discuss various problems; teaching for the principals, thereby giving them time to visit classes and to accomplish some of the many duties which they are required to perform; helping with the principals in the supervision of teachers.

I wish to thank Dr. Petroski, the Superintending School Committee, elementary principals, and classroom teachers, for their assistance and cooperation.

Respectfully submitted,

CLYDE P. KIMBALL

Elementary Supervisor

EDUCATION

REPORT OF SCHOOL NURSING SERVICE — 1962

Following is the report of the school nursing service for the past year.

The program was carried on by one full-time public school nurse, and one part-time public school nurse.

Two physicians are employed for physical examinations.

One optometrist is employed for vision examinations.

One podiatrist is employed for foot examinations.

1. Physical Examinations. Students of the fourth, seventh, and tenth grades, plus all new students in our system, were examined. Papers were followed up by own doctor on the sub-primary level. In 1963 Grade I will be examined. A total of 824 students were given physicals. Parents were notified of deviations from normal findings and the follow-up program shows 85% of the referrals were accounted for and parents visited, called, and talked with the nurses at open house about many of these conditions.

2. Sight Conservation Program. Students in the 4th and 7th grades having physicals were given vision examinations by an optometrist. 268 have been given to date—program not complete. Also, students referred by teachers were examined. Ten were referred for further care and six received correctives. The Lions help with glasses when parents are unable to afford them.

3. Urinalysis Program. Students having physicals had urine check for albumen and sugar. Three were found to have sugar and referred to their own family physicians.

4. Program for Care of Feet. Students having physicals had foot examinations. Discomfort and deformities are prevented by this examination. We are concentrating on the smaller grade levels because time will not allow more.

5. Program for Hearing Conservation. Individual testing is done with the Maico Pure Tone Audiometer. We are starting at Grade 3 level, new pupils, and referred students by the parents or teachers. Parents visited at open house to discuss this program.

6. Services at High School Health Unit. One nurse is on duty five hours daily. 1748 visits were made by the students. Health counseling, first aid, and temporary illnesses are cared for. Many minor changes have been made at the unit—two collapsible cots, new curtains, drinking paper cup container, desk light, regular faucet in place of a bubbler.

EDUCATION

7. **Special Class Program.** Very little has been done on mental health. The school nurse has attended every meeting possible on this subject. We still have mentally retarded children at home who are teachable. The program is excellent in our special classes. The nurse has had consultations with several of the students when problems are brought to our attention by the parent or teacher. They do very good work and often have a health program for me to see to show interest in my visits. All pupils were given physicals and their individual problems gone over with the teachers.

8. **Program for Prevention of Contagion.**

- a. Health officer attended clinics.
1030 Salk polio doses given.
198 Diphtheria and tetanus injections.
94 Small pox vaccinations.

It was the largest Polio clinic since 1956.

b. 14 clinic appointments made for teachers and janitors x-rays at Goodall Hospital for prevention of T. B. to date. New students sent papers for parents to give health histories.

9. **Other Activities.**

- a. Four children had home instruction.
- b. The free milk is given through the generosity of the Searchlight Club.
- c. Children given free lunches as needed. Program is gone over with cafeteria supervisor each month.
- d. C. C. service was followed as appointments were given. This includes cases of cardiac orthopedics, pediatric, mentally retarded, adolescent, cystic fibrosis.
- e. Eight children were given psychometric examinations.
- f. 1st Aid cabinets outfitted—new supplies in some rest areas.
- g. Teachers' health service folders brought up to date.
- h. 189 home visits made to sick children and consultations with parents.
- i. Health service study program going on at High School to be completed in February.
- j. Speech defects checked. Advised person qualified for consultation.
- k. Teachers referred for Asian flu shots to Health Officer.
- l. Dr. David Davidson spoke to Public Health group of nurses on Oral immunization and advised to continue with

EDUCATION

Salk polio at present.

- m. Workshop attended on "Human Behavior Problems".
Workshop attended on "Mass Disaster".
Two sessions of workshop attended on "School Policies".
- n. Several conferences on welfare cases with Town and State welfare workers.
- o. Educational program on dental hygiene planned.
- p. Civil Defense program reviewed. More planning and C. D. officers consulted about medical care and 1st aid.
- q. All bus drivers given complete physicals by their Company.

The health of the school child becomes a most important factor in preparing him for the future. Healthy children usually develop into contented, happy, and productive citizens.

Respectfully submitted,

Hazel L. Drown, R. N.
